TABLE XXXIII. COUNTRIES—Detailed Report of Property Owned by	21
TABLE XXXIV. COUNTRIES—Detailed Report of General Tax Levy.	21
TABLE XXXV. COUNTRIES—Detailed Report of Special and District Tax Levy Folio	21

INTRODUCTION.

The present report of financial transactions of municipalities and counties of the state of California covers the fiscal period ending June 30, 1918, and is compiled and issued by the Controller of State under the authority of chapter 550, Statutes of 1911.

Covering the 58 counties and 250 incorporated cities and towns, this report presents statistics as accurate and authentic as is possible under the present system of having the county auditors and city clerks make up these reports for compilation by the Controller. The classification by these officials of receipts and payments is not always uniform and some adjustments are necessary in order to make this data available for comparable purposes.

Realizing the handicap, however, under which most county and city officials work; that is, their short term of office, the Controller at this time wishes to express his appreciation of the spirit of co-operation evidenced by these officials. The making up of the data required in these reports by, in some cases, clerks receiving \$25 a month, indicates a spirit of willingness of which the Controller is not unmindful.

This report within its scope covers a wide variety of subjects, the principal of which as relating to counties are (1) assessed valuations, tax rates and bond debts; (2) total receipts together with the segregation of their sources; (3) total payments, segregated and classified as to governmental functions performed; (4) the total value of public properties; and (5) a detailed report showing the general tax levy and also the special and district tax levy.

As to municipalities, the principal subjects covered are (1) class of city and population; (2) assessment data, bonded indebtedness, area, etc.; (3) receipts classified according to source; (4) payments classified in accordance with governmental functions performed; (5) data on municipal service enterprises; (6) value of public properties, and (7) a detailed statement of bond issues.

Population and Assessment Data.

It will be interesting to note that the number of incorporated cities and towns has increased from 204 in 1911, the first year in which this report was issued, to 250 at present. In like manner the population has increased from 1,625,625 to 2,663,341, an absolute gain of 1,037,716, or about 64 per cent. The present population totals are based upon careful estimates submitted by the city clerks, and it is believed that with few exceptions they furnish very accurate data on present population. The total assessment roll in 1911 was \$1,640,991,350; at present it is \$2,492,233,280, an absolute raise of

\$851,241,930, or about 52 per cent. Making due allowance for the natural tendency of officials to err on the side of optimism as regards the growth of population of their respective cities, and for the conditions which impel city assessors to keep down their assessments, it will be seen that the increase of wealth in municipalities has closely followed the increase in population, which indicates a very healthy growth. This very healthy rate of growth, however, is one of the causes which tended toward unbounded enthusiasm in the creation and issue of a great number of hastily and ill-considered bond issues. The same condition prevailed in the county and state. This phase of governmental finance will be taken up later in this report.

While the population for the counties is not available at the present time, the assessed valuation is. This valuation for 1911 was \$2,599,916,690, whereas at present it is \$3,025,433,439, an increase of \$425,516,749, or only about 17 per cent. These figures are exclusive of the city and county of San Francisco. It will also be noted that whereas in 1911 the percentage of the assessed wealth of the cities to that of the state was only 69 per cent it is now about 80 per cent, all of which tends to show that the trend of wealth and also population is toward the urban rather than the rural portions of the state.

Receipts and Payments.

	State receipts.	State payments.
1911	\$17,882,091 37	\$18,020,555 39
1912	21,448,705 98	18,691,877 28
1913	25,053,719 58	22,900,416 40
1914	35,895,796 38	28,655,022 55
1915	29,830,182 34	36,520,593 04
1916	38,006,089 38	36,035,889 77
1917	33,841,473 15	34,886,139 73
1918	43,006,255 81	43,008,663 07

	*County receipts.	*County payments.
1911	\$41,345,925 99	\$39,272,598 02
1912	52,972,943 34	49,766,336 20
1913	55,702,561 83	56,212,591 51
1914	57,927,987 85	55,263,728 23
1915	68,457,388 51	69,070,496 88
1916	73,092,681 45	74,649,396 73
1917	82,798,626 57	79,055,350 99
1918	78,246,065 53	80,220,502 91

*Less city and county of San Francisco.

	*Municipal receipts.	*Municipal payments.
1911	\$46,777,803 61	\$43,808,965 13
1912	60,557,300 34	53,251,005 27
1913	63,838,310 05	67,089,259 36
1914	66,830,330 37	58,175,734 68
1915	68,724,578 54	69,922,592 41
1916	68,305,640 66	65,183,196 44
1917	67,995,278 71	73,393,193 13
1918	63,555,785 30	66,306,719 97

*Including city and county of San Francisco.

Because of the fact that the state's present tax system went into effect in 1911 and also because it was not until that year the Controller was enabled, under the law, to collect and print data as to the financial transactions of the counties, cities and districts, figures and comparisons as to the receipts and expenditures of the various governmental units concerned have been, in recent issues of this report and other publications by this office, confined to 1911 and the years following. It happens, also, that this particular period witnessed a large increase in the number of commissions.

The increase for the eight-year period of 1911-18 in receipts from all sources was 141 per cent, and in expenditures 138 per cent, for all purposes. The following tabulation covers the situation:

Expenditures.	
1918	\$43,008,663 07
1911	17,882,091 37
138 per cent	\$24,988,107 68
Receipts.	
1918	\$43,006,255 81
1911	17,882,091 37
141 per cent	\$25,184,164 44

The percentage of increase in both receipts and expenditures for state, counties and cities is shown below:

1911-1918 (8 Years) Percentages.			
	Expenditures Per cent	Receipts Per cent	
State	138	141	
County	104	89	
City	51	36	

1918 and 1917.

The state's expenditures in 1918 were \$43,008,663.07, while only \$34,886,139.73 in 1917, a difference of \$8,122,523.34. And this despite the fact that in 1917 such items as the cost of the legislative session that year, of legislative printing, of education, reimbursement of counties, work by the Department of Engineering and so on, exceeded similar items of 1918 by about \$2,500,000.

The excess of 1918 over 1917 was largely due to increased drafts on the emergency fund, highway construction, other developmental work, bond interest and redemption, institutional upkeep and various items grouped under the heading of miscellaneous.

While it is true there has been a disproportionate increase in the cost of government along lines already suggested, fairness demands that due allowance be made for the great increase in the cost of living. This has materially affected the state government, particularly in the upkeep of prisons, reform schools and hospitals. This, however, is but another urgent reason why every economy consistent with efficiency and the advancement of the social welfare be put into effect.

The grand total of expenditures for the three forms of government in 1911 was \$101,102,118.54; in 1918 it is \$189,535,885.95, an increase of \$88,433,767, or 88 per cent. The increase in the wealth of the state for the same period, as based upon the assessment rolls of the counties (including the city and county of San Francisco which is shown elsewhere in this report as a city) is 46.2 per cent. The increase in population is estimated at 30 per cent. An analysis of the foregoing figures shows that expenditures are increasing considerably faster than either wealth or population.

Below is submitted a table showing in detail the classified expenditures by the governments of the state, the counties, and the cities.

Table Showing Total and Comparative Costs of Governments of California for 1918.

Function	State	County	Municipal	Totals
General government	\$2,464,466 26	\$6,901,970 87	\$4,245,670 12	\$13,612,107 25
Protection to person and property.	6,801,291 42	3,107,261 00	10,020,859 52	20,529,415 94
Conservation of health.	225,082 02	333,086 02	778,076 00	1,337,444 94
Sanitation and promotion of cleanliness	23,977 88	25,086 53	2,442,758 30	2,491,822 80
Highways, bridges, etc.	6,331,683 73	14,619,867 96	8,246,557 68	29,228,684 37
Charities and corrections	4,497,964 68	5,045,977 21	1,758,344 67	11,302,276 56
Education	10,619,208 98	29,815,632 01	4,306,428 72	44,750,269 66
Recreation	148,058 68	1,241,855 77	2,208,118 98	3,496,032 43
Miscellaneous	948,067 03	3,170,419 59	1,774,002 72	5,112,489 34
Interest on bonds and debts.	1,648,587 50	2,310,857 01	6,583,480 77	10,542,925 28
Redemption of debt.	561,846 80	1,055,861 19	6,043,742 29	8,015,940 10
Trust funds	3,797,290 45	2,277,929 14	4,583,000 18	10,658,219 77
Agency transactions	2,277,929 14	12,394,468 22	4,583,000 18	19,255,397 54
Public service enterprises.	2,815,608 33	12,355,689 93	15,401,883 26	30,573,181 52
Totals	\$43,008,663 07	\$89,320,502 91	\$66,306,719 97	\$189,535,885 95

The fact that total receipts and expenditures are invariably greater, both relatively as well as absolutely, in the larger cities, is apparent from the table shown below. The total receipts for municipalities is \$63,555,785.30 and the total expenditures are \$66,306,719.97. It will

be noted that the ten largest cities of the state cover approximately 85 per cent of the total receipts and expenditures:

City	Receipts	Expenditures	Per capita expenditures
Los Angeles	\$14,922,516 44	\$14,922,516 75	\$25 25
San Francisco	23,895,692 98	26,012,774 87	47 30
Oakland	3,765,622 52	3,167,516 25	14 07
San Diego	2,635,561 86	2,713,154 51	24 87
Berkeley	739,774 70	736,274 19	11 17
Sacramento	1,749,460 68	2,347,613 61	33 54
Fresno	524,790 05	772,219 95	12 87
Prudena	1,373,211 47	1,324,243 91	31 92
Stockton	841,359 09	962,138 60	19 24
Long Beach	773,900 60	726,585 97	18 16
Totals	\$50,473,176 39	\$53,307,578 08	

The different sources from which municipal receipts are derived, are as follows:

Taxes	\$85,835,122 90
Licenses and permits	4,352,183 23
Fines and penalties	452,975 79
Privileges	451,915 53
Rent of properties	178,132 92
Interest receipts	434,391 22
Subventions and grants	1,508,306 94
Gifts, donations, etc.	440,603 84
Fees, minor sales, etc.	1,200,149 74
Miscellaneous	1,504,431 81
Public service enterprise	11,026,100 04
Sale of bonds	5,391,402 34
Total	\$63,555,785 30

It will be noted that approximately 57 per cent of the receipts is derived from property taxes, 17 per cent from public service enterprises, and the remaining 26 per cent from other sources.

Of the amount received for licenses and permits, \$2,881,433.66 was derived from liquor licenses, and the loss of this source of revenue is now facing the various municipalities. Of this loss, approximately one-half is sustained by the cities of San Francisco and Los Angeles. It is generally accepted that the deficit in revenues thus created will be met by an increase in the tax rate, although a few cities are considering raising rates on municipal utilities and applying higher rates to

business licenses. The table shown below will give the amounts by which the tax rate will have to be raised, using this year's figures as a basis:

City	Assessed valuation	Loss in revenue	Increase in tax rate on the \$100
Los Angeles	\$489,898,688 00	\$855,475 00	\$.18
San Francisco	554,750,170 00	570,528 95	.13
Oakland	153,373,065 00	223,105 00	.14
San Diego	84,659,388 00	129,149 63	.15
Sacramento	71,755,430 00	100,392 50	.14

The loss to the smaller cities and towns is proportionately the same. A note of warning may here be sounded and that is that the taxpaying public take heed lest the tax-rate-fixing bodies do not seize upon this opportunity, using the anticipated deficit as their excuse, to boost the tax rate out of all proportion to the loss sustained.

The distribution of expenses according to governmental functions performed is as follows:

General government	\$1,265,670 12
Protection to person and property	10,620,859 52
Conservation of health	778,076 00
Sanitation and promotion of cleanliness	2,442,758 39
Highways	8,246,557 68
Charities and corrections	1,788,344 67
Education	4,226,428 72
Recreation	2,298,118 98
Miscellaneous	1,774,992 72
Public service enterprise	12,585,689 93
Interest on bonds	6,583,480 77
Redemption of bonds	6,043,742 29
Payments for objects of trust	4,558,000 18
Total	\$66,306,719 97

In the above table, it will be seen that the municipalities of California paid out almost \$6,600,000 in interest or approximately 10 per cent of their total cost of government.

Bond Debts and Bond Tax Rates.

The bonded indebtedness of the state government and its political subdivisions for the fiscal year ended June 30, 1918, was as follows:

State	\$39,367,500 00
Counties	62,947,875 49
Cities	137,018,593 32
Total	\$239,333,968 81

On this tremendous amount, interest in the sum of \$11,402,487.86 was paid. In the past the practice has been, to a large extent, to issue bonds for nearly any old purpose, running nearly any old length of time and calling for nearly any old rate of interest. Government cannot be maintained with proper development by direct taxation alone. But bond issues should be held to matters of the first importance and which would impose too heavy a present burden if undertaken by direct taxation. Such bond issues should be short-term serials, the life thereof not exceeding, and preferably being, under the estimated life of the proposed improvement.

Bond Issues Tables.

I herewith submit tables showing the bonded indebtedness of the state government of California as of June 30, 1918; bonds authorized but not yet issued, and bonds held in trust for surety funds:

Indebtedness.

Civil Bonds (interest ceased), 1857	\$3,500 00
Civil Bonds (interest ceased), 1860	500 00
Funded Debt 1873 in trust for School Fund	1,523,500 00
Funded Debt 1873 in trust for University Fund	751,000 00
San Francisco Seawall Act, 1903	675,000 00
Second San Francisco Seawall Act, 1909	9,000,000 00
State Highway Act, 1909	17,600,000 00
State Highway Act, 1915	5,011,000 00
State University Building Act, 1915	1,800,000 00
San Francisco Building Act, 1913	960,000 00
India Basin Act, 1909	690,000 00
Third San Francisco Seawall Act, 1913	1,350,000 00
Total	\$39,367,500 00

Authorized But Not Yet Issued.

India Basin Act, 1909	\$310,000 00
San Diego Harbor Improvement Act, 1909	1,500,000 00
Sacramento State Building Act, 1913	3,000,000 00
Third San Francisco Seawall Act, 1913	8,650,000 00
Second Highway Act, 1915	9,989,000 00
Total	\$23,449,000 00

Held in Trust for Sundry Funds.

School Land Fund (for schools)	\$7,300,062 42
Estate Deceased Persons Fund	453,750 00
Compensation Insurance Fund	1,748,250 00
Teachers' Permanent Fund	763,400 00
Dissolved Savings Bank Fund	45,090 00
University Fund	751,000 00
General Fund (declared surplus)	3,328,500 00
Total	\$14,392,052 42

The following state bonds have been redeemed:

	1916-1917	1917-1918
State Building Bonds, San Francisco	\$20,000 00	\$20,000 00
San Francisco Sewall Bonds	125,000 00	132,000 00
State Highway Bonds		400,000 00

Since July 1, 1918, additional bonds have been sold for account following:

Third San Francisco Sewall	\$195,000 00	Sept. 27, 1918
Sacramento State Building	40,000 00	Sept. 27, 1918
Second Highway	505,000 00	Sept. 27, 1918

The following table will show the growth of bonded indebtedness for the period from 1911 to the present:

Year	State	County	Municipal	Total
1911	\$5,677,500	\$22,655,890	\$65,573,033	\$93,906,423
1912	5,681,500	30,667,681	83,297,511	119,646,692
1913	10,098,500	35,358,917	100,387,559	145,844,976
1914	22,909,500	41,292,025	106,924,759	171,126,284
1915	31,311,500	50,841,291	129,059,914	211,212,705
1916	33,013,500	56,461,190	135,567,045	225,041,735
1917	34,493,500	64,093,252	139,451,712	237,948,464
1918	39,367,500	62,947,875	137,018,593	239,333,968

I have in previous reports pointed to the fact of a rapidly increasing bonded indebtedness and have striven to bring the point home to the taxpayer that bond issues should be carefully looked into and limited in their creation to important undertakings which can not be provided for by direct taxation. I have also repeatedly advised against the long term bond so generally issued in the past. The war with its general policy of retrenchment and saving undoubtedly helped to keep down bond issues during the past year, and it is gratifying to note that while the bonded indebtedness of the state shows an increase, yet both counties and cities show a marked decrease.

In this connection I quote herewith, in regard to bond issues, from the Report of the Committee on Efficiency and Economy of California, submitted to Governor William D. Stephens in March, 1919:

That in order to insure at least reasonable savings in the cost of state bond issues, the principle that the term of a bond should not exceed the probable life of the improvement to be constructed with the proceeds thereof, should be recognized by the state legislature; that the present seventy-five year maximum term permitted for state bonds should be reduced materially; that all state bonds should be serial; and that, in general, redemption should begin at the end of the first year of the issue and proceed annually thereafter in at least equal annual amounts, no subsequent payment of principal being greater than any prior payment.

With the above recommendation I am heartily in accord, both as a member of that committee and as Controller of State.

Now that the war is over, however, we are entering upon a period of expansion, and using as an excuse, the general willingness of the public to do everything in their power to provide jobs for the returning soldiers, numbers of bond issues for practically worthless projects will be foisted upon the tax-paying public. While I am heartily in sympathy with all legitimate attempts to see the returning soldier provided for in the way of employment, yet the creation of a lot of bond issues for this purpose alone, regardless of whether the taxpayer derives any benefit from the expenditure of his money is to be closely guarded against.

TABLE I. MUNICIPALITIES.

Numerical Index to Tables, Class, Population According to 1910 Census and Estimated as of June 30, 1918, by City Clerks and Auditors.

% in Tables	City	Class	Popula- tion accord- ing to 1910 census	Popula- tion estimated by city clerks and auditors	% in Tables	City	Class	Popula- tion accord- ing to 1910 census	Popula- tion estimated by city clerks and auditors
12.	Alameda	F.H.	23,383	22,500	249.	El Cerrito	6th	1,700	1,700
