

ANNUAL REPORT

OF

Financial Transactions

OF

Municipalities and Counties
of California for the
Year 1920

Compiled and published by authority of
Chapter 550, Statutes of 1911

JOHN S. CHAMBERS
State Controller

CALIFORNIA STATE PRINTING OFFICE
SACRAMENTO, 1921

INTRODUCTION.

By JAMES W. HICKEY, Statistician, Controller's Office.

The present report of financial transactions of municipalities of the State of California covers the fiscal period ending 30, 1920, and is compiled and issued by the Controller of the State, under the authority of chapter 550, Statutes 1911. This report is as accurate and authentic as possible under the present conditions of having the county auditors and city clerks make up the report for compilation by the Controller. At this point the Controller wishes to express his thanks to the county auditors and city clerks for their willing cooperation in the preparation of these reports.

A large majority of the cities and counties have already adopted a system of account classification outlined in our report, the uniformity, by means of which comparisons are made which afford a standard of administrative efficiency. Therefore, why all municipalities should not install a uniform system of account classification. The purpose of accounting is to furnish accurate data concerning business transactions and result in this result some method should be employed that will insure uniformity for efficiency and waste. Cities derive as much benefit from a uniform system of accounts as do private corporations. The difference in the accounts of a private corporation and that of a municipality is the subject matter and not the principle and technique. A corporation does not keep records merely to study the business but also as a guide for future enterprises and policies. Such procedure also apply to the municipality?

How is a city to know whether a certain piece of work is done by them or by others has cost more than it should? The best way of comparing figures with other cities. This can only be accomplished by a uniform system of account classification, which will in turn show efficiency in the classification of expenditures and receipts and a closer comparison of the statistics published in this report.

SCOPE OF REPORT.

This report within its scope covers a wide variety of principal items of which as relating to counties are: (1) assessment of taxes and bond debts; (2) total receipts, together with disbursements of their sources; (3) total payments, segregated and classified according to governmental functions performed; (4) the total value of property owned.

properties; (5) a detailed statement of bonded indebtedness; and (6) a detailed report showing the general tax levy and also the special and district tax levies.

As to municipalities, the principal subjects covered are (1) class of city and population; (2) assessment data, bonded indebtedness, tax rates, etc.; (3) receipts classified according to source; (4) payments classified in accordance with governmental functions performed; (5) data on municipal service enterprises; (6) values of public properties; and (7) a detailed statement of bond issues. There is also included in this report a financial statement and statistics of the Marin Municipal Water District.

POPULATION AND ASSESSMENT DATA.

It is interesting to note some of the facts brought out by the Federal Census taken as of January 1, 1920, which gives California a population of 3,426,861, an increase over 1910 of 1,049,312 or 44.1 per cent.

California includes 58 counties and covers 155,652 square miles, the second largest state in area in the United States. The average number of inhabitants to the square mile is 22, as compared with 15.3 in 1910 and 9.5 in 1900.

Of the 58 counties, fourteen show a decrease in population in 1920 as compared with 1910. Siskiyou County shows a decrease of 1.4 per cent, while Sierra County suffers from a decrease of 56.5 per cent. The counties of Modoc, Trinity, Lassen, Sierra, Alpine, Mariposa, Mono and Inyo have less than two inhabitants to the square mile, while Los Angeles County and the city of San Francisco, which is coextensive with the county of San Francisco, are credited with more than 90 inhabitants to the square mile.

It will be noticed that the decrease in population is mostly in mining counties and is accounted for by several conditions which caused a cessation of the mining of valuable minerals, especially gold, which, because of high cost of labor and materials, became unprofitable. Also, higher wages in ship yards and lumber camps have induced miners to give up mining and seek these occupations. Shortage of water throughout the hydraulic mining regions in Sierra, Plumas, Siskiyou, Trinity and other counties, where this class of work is carried on, has caused miners to seek employment in other parts of the state. This condition is particularly noticeable in the town of Kennett, with an estimated population in 1918 of 2200. Since that time the large smelters, which employed a great number of men, have been closed and the 1920 census shows the population of Kennett to be 464.

California has 254 incorporated cities and towns, two of which were incorporated too late to be included in this report. Los Angeles has the

largest population, 576,673, with San Francisco the second with a population of 506,676. Oakland with a population of 216,000 is only other city having a population of over 100,000.

The total assessment roll for the cities at present is \$2,640,991,350 in 1911, an increase of 63 per cent against \$1,640,991,350 in 1911, an increase of 63 per cent percentage of this increase is made of the valuations of the cities incorporated since 1911.

The total assessment roll for counties in 1911 was \$2,599,322 at present it is \$3,733,509,322, an increase of 43 per cent. These figures are exclusive of the city and county of San Francisco included with the cities.

The total assessed value of the state as shown by the county including the city and county of San Francisco is \$4,551,509,322 applying the rates of assessed to true value, which was for State Board of Equalization, in a recent investigation, to be we find the true wealth of the state to be \$9,288,945,559. The wealth, however, is exclusive of properties exempt from tax as church property, school property, veterans' exemption emptions under the "Veterans' Exemption Law" alone, as state county rolls, amount to \$18,361,786.

RECEIPTS AND PAYMENTS.

Because of the fact that the state's present tax system effect in 1911, and also because it was not until that year that was enabled, under the law, to collect and print data relating financial transactions of the cities and counties of California confine our comparisons to the past decade.

It will be interesting to note, that the cost of government is increasing at a greater rate than our population. Take our state government, for example, the cost of which has 243 per cent during the past decade, our wealth about 60 per cent our population 44 per cent.

The following table shows the steady increase in receipts for the past ten years:

Year	State receipts
1911	\$17,882,091 37
1912	21,448,705 98
1913	25,653,719 58
1914	35,885,736 38
1915	29,830,182 34
1916	38,006,089 38
1917	33,841,473 15
1918	43,006,255 81
1919	50,137,154 85
1920	58,743,897 86

Year	*County receipts	*County payments
1911	\$41,345,925 99	\$39,272,598 02
1912	52,972,943 34	49,766,366 29
1913	55,702,561 83	56,212,591 51
1914	57,927,987 85	55,263,728 23
1915	68,457,388 51	69,970,496 88
1916	75,092,681 45	74,649,396 73
1917	82,798,626 57	79,053,350 99
1918	78,246,065 53	80,220,302 91
1919	89,973,133 52	85,556,607 62
1920	146,024,045 41	120,655,663 80

*Less city and county of San Francisco.
**Including city and county of San Francisco.

The percentage of increase in both receipts and expenditures for state, counties and cities is shown below:

	Period 1911-1920 (10 Years)	Percentages.
State	Expenditures, per cent	Receipts, per cent
County	243	228
City	207	253
	75	90

COST OF STATE GOVERNMENT.

The principal cause of the tremendous increase in the cost of the state government is due to the assumption of new functions, known under the name of commissions. These new functions, in the main, are worthy ones, but in addition to new agencies having been created to administer them, instead of assigning them to related existing units of government, with resultant overhead and other additional cost, they have been assumed too rapidly; that is to say, without due regard to revenue, and so it has been necessary to greatly increase the tax burden that the increased expense might be met.

As the state government stands, it would be possible by a real reorganization of the machinery to save \$1,000,000 a year in operating expenses, or, in other words, about 5% on the \$20,000,000 it costs annually to run the government. The balance of the yearly cost is to meet obligations incurred, such as bond interest and redemption, support of the schools, etc., and so cannot be cut down. If more, therefore, than \$1,000,000 is to be saved annually, it will be necessary to abandon

certain functions. In view of the fact that these new duties have become recognized policies of the state, would the people, although groaning under the tax burden, consent to the elimination of any of them, even temporarily?

At this writing it would appear that the grand total of appropriation bills passed by the Legislature of 1921 and approved by the Governor will amount to about \$91,000,000, or \$10,000,000 in excess of the recommendations of the Budget Board. It is estimated that the revenue, under the new rates on corporations, for the biennium beginning July 1, 1921, will approximate \$68,000,000; revenue from other sources about \$12,000,000, and the available cash surplus somewhere around \$7,000,000, giving a grand total of \$87,000,000 in revenue with which to meet appropriations of \$91,000,000. In other words, the state government faces a deficit of about \$4,000,000. Of this sum, however, \$2,000,000 cannot be expended until the next two succeeding bienniums, thus leaving a net deficit of \$2,000,000 for the approaching fiscal period.

Table Showing Comparative Costs of Governments of California for 1920.

Function	State	County	Municipal	Total
General Government	\$3,098,429 34	\$8,598,853 85	\$5,188,331 34	\$16,880,614 53

130 ANNUAL REPORT OF FINANCIAL TRANSACTIONS.

TABLE Xa. MUNICIPALITIES.
Detailed Report of Marin Municipal Water District for Year Ending June 30,
1920.—Statement of Income, Profit and Loss for the Fiscal Year.

Operating revenues		
Water	\$215,186 88	
Hauling	2,020 25	
Total	\$217,206 93	
Operating and general expenses:		
Superintendence	\$2,939 92	
Patrolling storage facilities	6,476 52	
Meter department, expense, supplies	4,177 83	
Repairs to reservoir tanks, standpipes	3,167 96	
Repairs to distribution mains	2,464 20	
Repairs to services	1,023 46	
Miscellaneous repairs	244 82	
Sundry operating expense	386 10	
Meter reading and general office labor	9,200 20	
Salaries of general officers	8,336 67	
Stationery, printing and office supplies	1,514 33	
Postage	1,292 97	
Telephone service	345 68	
Miscellaneous office expense	465 56	
Insurance, fire, liability and surety	1,846 96	
Legal expense	2,673 94	
Director fees and meeting expense	1,831 50	
Commissions to fiscal agents	364 75	
Automobile expense		
Gasoline and oil	2,212 63	
Tires and tubes	1,319 50	
Automobile repairs	8,039 66	
Traveling expenses and incidentals	474 97	
Miscellaneous general expense	491 08	
Total	56,178 00	
Income from operations	\$161,028 93	
Other income credits:		
Interest on bank balances and notes	\$1,797 84	
Interest on bonds	1,290 09	
Rentals	3,398 01	
Total	6,585 95	
Gross income	\$167,614 88	
Income charges:		
Accrued interest on funded debt	\$150,000 00	
Interest on accounts payable	335 97	
Depreciation	15,000 00	
Total	165,335 97	
Net income for period	\$2,888 81	
Surplus, July 1, 1919	154,564 43	
Gross surplus	\$156,563 24	
Profit and loss charges:		
Adjustment of prior year's income	\$43 03	
Transferred to surplus from contributions from taxes	696 00	
Total	739 03	
Surplus, June 30, 1920	\$156,114 21	

ANNUAL REPORT OF FINANCIAL TRANSACTIONS. TABLE Xa. MUNICIPALITIES—Continued. General Balance Sheet—June 30, 1920.

ASSETS		LIABILITIES
Plant property	\$3,275,869 55	Funded debt:
Bond interest		5 per cent bonds
United States		due 1926-1955
Treasury certificates	\$8,000 00	
Bank deposits	32,723 80	Pipe line extensions
Park patrol, 24		advanced by consumers payable
Marin Municipal		out of collected
Water District,		revenues
bonds	24,000 00	Current liabilities:
Total, special	\$64,723 80	Admitted demands
Funds	\$64,723 80	Consumers deposits
Current assets:		Miscellaneous
Cash	\$19,738 10	Bond interest accrued
Special deposits	1,040 00	Total current
Accounts receivable	27,665 63	liabilities
Consumers		Reserves:
California and		For Park patrol
Hawaiian Sugar		For depreciation
at Refinery		For doubtful accounts
Company	5,694 76	Total reserves
Miscellaneous	654 59	Surplus:
Taxes	1 00	Contributions
Interest accrued	300 00	Taxes
Material and		Earned
supplies	19,715 02	Total surplus
Total current	75,048 30	
assets	\$75,048 30	
Deferred charges:		
Prepaid insurance	954 46	
Total	\$3,416,566 40	

NOTE.—The pipe line constructed for the account of the California & Hawaiian Sugar Refining Company at a cost of approximately \$180,000, title to which is in the name of the district, has not been set upon the books or included in above statement, nor has a liability of \$40,000, the purchase price for said pipe been included among the liabilities.

Other Data on Marin Municipal Water District.

Number of consumers end of fiscal year 6,407 Total number of fire hydrants 200
Gallons of water used during year 742,301,700 Plant operated by gravity.
Gallons of water sold during year 615,558,000 Value of plant and system \$3,300
Miles of mains in operation 125 Cost of plant and system \$3,300
Source of supply: stream, springs, and winter rains stored.

SCHEDULE OF METER RATES.

Minimum—\$1.25 per month for the first 200 cubic feet or less.
200 cubic feet to 10,000 cubic feet .25 cents per 100 cubic feet.
10,000 cubic feet to 360,000 cubic feet .23 cents per 100 cubic feet.
All services using 360,000 cubic feet or more per month, 21½ cents per cubic feet.

All excess water used, 10 cents per 100 cubic feet.
The term "excess water" as used in the foregoing schedule is hereby defined to mean and shall be construed to be all water used by a consumer in excess of water used by him during the calendar month in the year preceding March 15, during which he used the greatest amount of water, and in case of new connections the use of such consumer during not less than one calendar month, the maximum use of such consumer, and to charge and collect for all excess water by such consumer over the normal maximum at the excess rate.

The Marin Municipal Water District is located in Marin County, California, and includes the cities of San Rafael, Mill Valley, Sausalito, San Anselmo, La Gracia, Corte Madera, Fairfax, Belvedere, Kentfield and San Geronimo. Because of its favorable location and natural advantages, the territory within the district has become one of the most popular suburbs of San Francisco. Towns of Tiburon, Sausalito, and Lagunitas are within the water district boundaries, but are not included in the district.
