INTRODUCTION.

This report is published by the Controller of State under authority of chapter 550, Statutes of 1911 and is compiled from data furnished by the county auditors and city clerks. It contains statistics relating to the financial transactions of cities and counties, assessment data, tax rates and bonded debt, which are presented herein in thirty-five tables. Table I is a numerical index to the tables relating to municipalities. It also shows the classification of the cities and their population. Table II contains the municipal assessments, tax rates and bonded debt. Tables III to IX, inclusive, contain data relative to municipal receipts and expenditures. Tables X to XIV inclusive, contain statistics on municipal service enterprises. Table XV shows the value of property owned by municipalities. Table XVI is an itemized statement of bond issues, giving the date of issue and maturity, rate of interest, amount authorized, amount sold and amount outstanding as to each municipality. Table XVII shows the county assessments, tax rates and bonded debt. Tables XVIII to XXXII, inclusive, contain data relative to county receipts and payments. Table XXXIII is a statement showing the value of property owned by counties. Table XXIV is a segregation of the general county tax levy. Table XXXV is a segregation of the county special and district tax levies.

ASSESSMENT DATA.

The total assessed value of California as compiled from the various county assessment rolls and including the city and county of San Francisco is \$5,135,925,963, an increase of \$214,139,478 or about 4 per cent over 1921. In a recent investigation conducted by the State Board of Equalization it was found that the average ratio of assessed value to true value is .4477 per cent (page 87, Report of the State Board of Equalization for 1921-22). Using this factor the actual value of taxable property of this state is \$11,471,802,463. This does not include property exempt from taxation under our constitution.

TAX LEVIES.

For the year 1922-23 the general county tax levy amounts to \$90,228,-\$12.23, an increase of \$6,488,655.11 or about 8 per cent over the levy for the year 1921-22. Special and district taxes levied by the counties for the year 1922-23 amount to \$42,716,834.55, an increase of \$5,847,314 or about 16 per cent over 1921-22. For comparison we can not go back farther than the levy for the year 1917-18 as this was the first year in

which data relative to the special and district taxes was compiled. The following table shows the increase in the tax levies during the past five years:

Purpose of levy	General county levy		Percent of increase	Special and district levy		Percent of increase
	1917-18	1922-23		1917-18	1922-23	
General	\$18,090,447 21	\$30,531,679 67	63	\$4,768,488 51	\$9,210,566 23	94

Kindergarten	3,514,481 71	7,442,766 60	110	737,843 28	2,240,288 35	203
School buildings				379,526 69	2,184,092 60	273
Library	294,728 66	732,102 80	148	153,525 76	366,415 53	131
Interest and redemption of bonds	5,130,734 63	7,989,992 79	55	3,298,328 83	8,478,893 22	157
Salary	5,114,272 32	8,250,604 52	61			
Road construction and maintenance	5,762,787 96	9,968,252 89	73	406,184 26	476,863 46	17
Others	3,694,631 90	5,381,981 97	50	489,979 48	2,011,400 10	318
Totals	\$49,760,050 34	\$90,228,812 23	81	\$15,363,930 13	\$42,716,834 55	178

From the above table it will be noted that general county taxes have increased 81 per cent during the past five years and special and district taxes 178 per cent, the greater portion of the increase being for educational purposes. To produce the \$42,716,334.55 levied for special and district purposes for the year 1922-23 an average tax rate of \$1.02 on every \$100 of assessed valuation of nonoperative property would be required. To produce the \$90,228,812.23 levied for general county purposes an average rate of \$2.15 on every \$100 of assessed valuation of nonoperative property is necessary, making a total average rate for county general and special purposes of \$3.17.

The following table shows the average per capita tax levy by counties for the year 1922-23 and is computed from data furnished by the county auditors and city clerks. The per capita levy is based on the general county, special and district, and municipal taxes levied within the various counties.

*Less city and county of San Francisco.

**Including city and county of San Francisco.

During the past year state receipts have increased \$27,237,033.10. This increase is due to the sale of eighteen million dollars of Third Highway bonds and an increase of about eight million in the state corporation franchise taxes collected. The payments for state government also show a marked increase over last year in the amount of \$18,468,191.76. This increase in payments is made up chiefly by an increase of approximately nine million dollars in the expenditures of the highway department and eight million dollars for educational purposes. The increase in expenditures for education consists almost entirely of the increase in the apportionment to the counties for support of elementary and high schools. County receipts show an increase of \$17,310,425.26, this being due chiefly to the increase in the apportionment received from the state for the support of elementary and high schools and also an increase in taxes

collected and agency transactions of approximately three million dollars each. County payments show an increase of \$12,667,998.23 which is due entirely to payments for education.

Municipal receipts show a larger increase than either state or county, the amount of which is \$45,157,643.45. Of this amount thirty-five million is due to receipts from the sale of bonds and an increase of about six million in the receipts from taxes. The increase of \$27,847,500.63 in municipal expenditures is due chiefly to the payment of interest and redemption of bonds and debts and payments for public service enterprises.

The annual report of financial transactions for the year ending June 30, 1921, commented upon the vast increase of governmental bonded indebtedness during the past decade. The foregoing table indicates that the year ending June 30, 1922, exceeds by millions of dollars all former records with an increase of 30 per cent in one year. A total bonded indebtedness for public purposes of \$414,403,251.92, practically 4 per cent of the actual wealth of the state, should arrest the attention of every thoughtful citizen.
