INTRODUCTION.

Bonded Indebtedness.

The present report sets forth the financial transactions of cities and counties during the fiscal period beginning July 1, 1923, and ending June 30, 1924, and establishes a new high level for bonded indebtedness in California, with a per capita of \$133, as compared with \$39.50 in 1911. On July 1, 1923, the bonded indebtedness of the State of California was \$451,980,910.20, increasing to \$533,199,251.96 on July 1, 1924, an increase of 18 per cent during the fiscal year. The assessed valuation, as compiled from the county assessment rolls, including the city and county of San Francisco, totaled \$6,657,797,880, an increase of \$941,012,065, or 16 per cent over 1923. Bonded indebtedness is therefore increasing at a faster ratio than the value of assessed property in the State of California.

For the fiscal year under consideration, there was expended by the state, counties and municipalities for interest and redemption of debt, \$42,067,216.26. This requires a tax rate of \$0.89 on all nonoperative property, as shown by the assessment rolls for 1923. For the fiscal year ending June 30, 1923, the same divisions of government expended for the same purposes, \$34,858,830.20, requiring a tax rate of \$0.83 on all nonoperative property, as shown by the assessment rolls for the year 1922; therefore an average of 6 cents has been arbitrarily added to the tax rate throughout the state to cover the increase in sinking funds and interest charges during the 1923-24 fiscal year.

Bonded Indebtedness for All Forms of Government From 1911.

Receipts and Expenditures.

The total expenditures of cities and counties during the past fiscal year were \$404,363,726.64, an increase of about 18 per cent over 1922-23. The largest item of expense is for educational purposes, amounting to \$109,884,809.85 in the counties and \$9,527,467.96 in the cities. During the same fiscal year the state expended for education \$26,325,073.84, and deducting that portion of the state expenditures allocated to the counties, \$18,517,298.93, there was expended a total of \$127,220,052.72 for educational purposes during the fiscal year.

During the year ending June 30, 1919, the total expenditures for educational purposes amounted to \$38,485,866.09. It is therefore apparent that there has been an increase of 230 per cent in educational costs during the five-year period.

The following table shows the steady increase of receipts and payments:
