TABLE	XXXIV. COUNTIES—Detailed Report of General Tax Levy.	246
TABLE	XXXV. COUNTIES—Detailed Report of Special and District Tax Levy.	250

INTRODUCTION

The State Controller's Report of Financial Transactions of Municipalities and Counties of California is issued annually from original reports filed by city and county accounting officials in accordance with the provisions of Chapter 550, Statutes of 1911, and covers the cash transactions of the fiscal year ending June 30, 1936. There are now 280 cities listed in this publication, including the City and County of San Francisco, and 57 counties. An additional city, Dos Palos in Merced County, is included in the current issue, having incorporated May 24, 1935. The new municipality levied no property tax during this first complete fiscal year, the main source of revenue having been derived from business licenses. The activities of Willow Glen in Santa Clara County appear for the last time, this city having merged with San Jose. Two towns, San Joaquin in Fresno County and Hornitos in Mariposa County, have not reported for the reason that, though incorporated, they do not levy taxes, hold city elections or otherwise function as municipalities.

The value of this printed report depends upon two factors—the accuracy of the information contained and the date of release. In order to present comparable figures only cash transactions are used, and to insure true accounts the original blank forms sent to the city and county officials include a statement of cash permitting a balance. The Controller's office is not equipped to personally check the figures presented but must rely on the care and accuracy of the local accounting officers. Legal requirements provide for the filing with the Controller of county assessment valuations, county budgets and city and county reports of financial transactions. It is quite evident that a saving of time, money and effort results to both the public and the local officers if these various reports are presented in sufficiently careful detail so that they may be consulted collectively in the Controller's office by interested State departments, organizations and individuals.

City and county officials have responded quickly and generously to requests from the Controller for original reports or additional information, with only slight exceptions. It is unfortunate, however, that a single delinquent city or county can so retard this publication as to definitely lessen the value of the information it contains. Long before the last reports are filed, the Controller receives numerous requests in person and by letter for excerpts and totals which are not available.

STATE COMPARATIVE TOTALS

Year	Receipts	Payments	Bonded debt
1936	\$155,611,327.19	\$157,696,711.66	\$122,008,500.00
1931	172,306,275.65	166,211,165.52	131,234,500.00
1932	166,785,662.34	190,982,095.95	142,369,500.00
1933	163,831,439.89	181,207,579.91	140,380,500.00
1934	230,845,369.50	253,285,221.73	157,211,500.00
1935	345,763,566.83	351,876,638.56	182,753,500.00
1936	348,925,882.29	358,791,711.63	188,628,500.00

State receipts and payments have increased approximately \$200,000,000 or 125 per cent during the seven years shown above. The greater portion of this increase may be definitely traced to relief requirements of about \$75,000,000 and the assumption of approximately \$40,000,000 educational costs heretofore borne by the counties.

Since 1930 public utility revenue has been withdrawn from State receipts and other sources have necessarily been acquired in order to offset this loss and to meet additional responsibilities. New State taxes have been imposed such as the sales tax, personal income tax, motor vehicle fees (in lieu tax), taxes on beer, wine, etc. These have produced \$97,700,000 in the last year, counteracting the loss of utilities and effecting a net increase of over \$63,000,000 which, with the increase of \$75,500,000 for relief received from the Federal Government and from the sale of State registered warrants, accounts for 72 per cent of the increase in receipts since 1930.

State bonded debt increased 55 per cent in the past seven years, or \$66,620,000. Veterans' Farm and Home Building bonds outstanding at present are \$27,329,000 in excess of the amount outstanding in 1930. Relief bonds outstanding, unknown in 1930, amount to \$44,000,000.

*COUNTY COMPARATIVE TOTALS

Year	Assessed Valuation	Receipts	Payments	Bonded Debt
1930	\$6,173,935,262	\$375,613,829 49	\$359,457,868 09	\$304,632,084 78
1931	6,029,754,882	374,126,850 53	375,806,807 00	297,139,975 40
1932	5,250,228,546	350,318,157 20	351,558,092 71	291,842,813 97
1933	4,632,221,029	317,474,573 97	312,243,256 28	284,285,113 02
1934	4,551,965,063	323,418,497 69	320,405,665 01	284,423,109 17
1935	5,783,997,459	328,385,747 46	324,596,461 83	294,249,734 57
1936	5,853,862,203	365,816,693 15	354,161,486 75	304,666,349 63

*Excluding City and County of San Francisco.

County totals for assessments, receipts and payments are less than in 1930, and the increase in bonded debt is immaterial. The only substantial difference to be noted lies in the totals for the classifications. Receipts from subdivisions and grants have increased approximately \$56,000,000 since 1930, while tax collections have decreased \$59,000,000. A great portion of this change is the direct result of the transfer of school obligations mentioned above. Payments on account of charities and corrections have increased to the extent of \$18,000,000 in the past seven years, with subsequent reductions in such classifications as general government, protection to person and property, health and sanitation, highways, recreation, etc.

The totals for county receipts and payments have increased steadily during the past four years, but the receipts in each instance exceed the payments, indicating a safe procedure.

In presenting county tabulations, the Controller has attempted to eliminate those transactions which occur between various districts within the county boundaries, such as school tuition and library and health services. While these receipts and payments are not actual transfers since they represent services rendered and, in many instances, warrants drawn, yet a duplication exists if they are shown as original tax collections and functional costs, then again as money received and paid the districts. In like manner, activities between different counties

are considered governmental receipts and costs in the county in which the collection originated, and agency transactions in the county to which the money was transferred. County collections and payments for cities are carried in the county agency transactions and appear in the city tabulations as governmental receipts and costs.

**MUNICIPAL COMPARATIVE TOTALS

Year	Assessed Valuation	Receipts	Payments	Bonded Debt
1930	\$6,557,569,912	\$296,582,509 25	\$288,908,765 65	\$413,665,832 34
1931	6,736,115,935	287,700,351 49	274,174,098 39	447,963,856 01
1932	5,336,155,480	224,587,220 89	247,960,758 70	449,560,927 56
1933	4,693,589,727	204,788,627 10	218,006,639 84	450,884,790 79
1934	4,377,713,467	215,430,169 29	219,263,589 13	451,360,611 47
1935	4,061,262,699	240,283,012 04	227,958,684 31	457,831,075 80
1936	4,624,443,686	269,030,815 87	260,751,430 48	474,410,992 48

**Including City and County of San Francisco.

The assessed valuation for cities this year is 29 per cent less than in 1930. Detail covering property valuations in Table II includes, for the first time, the assessment of utility property made by the State Board of Equalization which has been returned to local taxation. Current receipts and payments have also decreased substantially during the past seven years. The totals for bonded debt, however, show a steady and persistent increase, the present outstanding debt being 15 per cent in advance of the 1930 total and 3.5 per cent greater than in 1935.

Many of the larger municipalities experience difficulty in presenting detailed cash figures covering utilities. Water, light and gas accounts, are as a rule carried distinctly apart from the general city accounts and on an accrual basis. A cash total is furnished for receipts and payments, but accrual figures appear in the detailed statements from which our tabulations contained in Tables X, XI and XIII are taken.
