INTRODUCTION

The State Controller's Report of Financial Transactions of Municipalities and Counties of California for the year 1938 covers 57 counties (the City and County of San Francisco being classified as a city) and 281 cities. Two cities have reported for the first time this year—San Joaquin in Fresno County which has long been inactive and for that reason failed to report heretofore, and Tulake in Siskiyou County which was incorporated March 1, 1937. Hornitos, in Mariposa County, while incorporated and therefore should be counted as a municipality, is inactive and so is not shown in this report. Two new cities, Shafter in Kern County, incorporated January 20, 1938, and Pismo Beach in San Luis Obispo County, incorporated February 9, 1939, have not been included for the reason that they had not completed a fiscal year on June 30, 1938. At the present time California has 284 incorporated municipalities. In 1928 the Controller's records show 270 cities reporting, indicating a steady increase in the number of cities, and presenting a factor which must be considered when noting the total city increases in receipts, payments, assessments and population.

Population estimates contributed by the city clerks and county auditors as of June 30, 1938, are included in this report. The 1940 Federal population count will soon supply an accurate base on which to make future population estimates; and if a reliable method of gauging the number of people entering and leaving the state could be combined with the birth and death records of the Department of Public Health future total estimates for the state could be compiled with a fair assurance of accuracy. The method of distribution to cities and rural districts would still remain a problem, and a contested one unless some equally logical solution could be found. In the December, 1938, issue of the Tax Digest, a monthly publication by the California Taxpayers' Association, the estimate for the State of California as of January, 1938, was given as 6,810,000, and a full explanation of the contributing factors from which this figure is derived was attached. The total of the individual estimates of the 58 county auditors as of June 30, 1938, is 6,753,983, or a difference of less than 1 per cent, which is remarkably close.

In connection with the city and county reports a question has arisen as to the manner of compiling the Controller's statement. The tabulations herein still adhere to cash figures as in the past, but since the county budgets and the records of many of the larger cities are compiled on an accrual basis, as a matter of convenience a choice of procedure might be advisable. No definite decision, however, has as yet

ANNUAL REPORT OF FINANCIAL TRANSACTIONS

Comparative totals from 1928 to 1938, both dates inclusive, for the State, counties and cities of California are as follows:

STATE

	Receipts	Payments	Bonded debt
1928	\$111,467,184.55	\$129,987,867.78	\$114,371,500.00
1929	156,608,610.42	144,988,768.48	121,176,500.00
1930	152,611,327.19	151,696,711.66	122,008,500.00
1931	172,306,278.65	166,211,103.52	131,224,500.00
1932	166,785,099.51	169,852,490.95	142,369,500.00
1933	169,931,430.89	181,297,579.51	157,211,500.00
1934	238,645,300.60	253,287,221.73	140,280,500.00

1937	307,487,247.47	364,612,206.37	609,651,988.82	4,703,118,240
1938	365,759,691.60			

** Including City and County of San Francisco.

From 1928 to 1938 the percentages of increase in the three forms of government are as follows:

State	Receipts	Payments	Bonded debt
Counties	287.94	247.24	66.83
Cities	28.13	27.04	3.32
	14.47	14.92	48.53

ANNUAL REPORT OF FINANCIAL TRANSACTIONS

An analysis of these percentages shows the increase for the state was due to various forms of relief afforded cities and counties and additional functions assumed for social service, educational and agricultural activities. It is noted that the tax receipts for counties in the above space of time increased less than 1 per cent and for the cities actually decreased 5 per cent, while subventions and grants received from the state and federal governments increased in the counties 256 per cent and in the cities 568 per cent. It is therefore fair to assume that part of the state's large increase percentages should be charged against the city and county governments.

In 1938 receipts have exceeded payments and the bonded debt has decreased in each of the three forms of government, indicating that a concerted effort is being made by both fiscal officers and the public generally to keep governments within legitimate boundaries.

City receipts and payments have decreased approximately \$40,000,000 within the past year. The 1937 city totals included large receipts and expenditures from the sale of bonds which increased the totals for that year. In 1938 bond money received and spent resumed the normal trend, resulting in the above large decrease for the current year.
