INTRODUCTION

The 1942 Annual Report of Financial Transactions is the thirty-second report of this character issued by the State Controller. It covers 57 counties (the City and County of San Francisco being classified in the municipal section) and 284 cities. The counties vary in size from Santa Cruz with 435 square miles to San Bernardino with 20,175 square miles, and in population (1940 census) from Alpine with 323 people to Los Angeles with 2,785,643. Climate and products have a variation equally great. The cities range according to the 1940 census from Trinidad with 94 people to Los Angeles with 1,504,277. Lawndale is shown in the current report as Colma, having changed its name November 17, 1941, by election. Hornitos, in Mariposa County, though incorporated remains inactive and so is not included. Mendota, in Fresno County, will report hereafter, having incorporated June 17, 1942.

Included in this report are tables showing the actual 1940 census figures for California cities and counties together with population estimates made by city clerks and county auditors as of June 30, 1942. The State Controller makes no population estimates. In these fast-moving days of war no accurate gauge of population is possible, and estimates, no matter how carefully made, may be outmoded overnight by unforeseen developments. No uniform method is used by the local officials in arriving at the estimates published herein and for this reason variations may occur. Since the distribution of food, water, electricity and other utilities is determined on a population basis, accurate census figures have become necessary. The Legislature has recognized this situation and future publications may supply accurate census figures for at least the larger communities affected by military fields and defense industries.

Since 1940 many cities have more than doubled in size due to the influx of war workers and the establishment of military camps. Some communities have lost population through the drafting of men into the armed forces and the migration of workers to the industrial areas.

Comparative data covering the receipts and payments of the State, counties and cities for the past five years is presented below:

Year	STATE	
	Receipts	Payments
1938	\$520,518,532.62	\$523,520,199.01
1939	590,105,016.95	607,550,316.05
1940	621,411,652.07	646,112,400.96
1941	661,624,265.08	633,463,804.10
1942	659,152,502.07	587,956,134.17

State receipts shown above represent gross deposits into the State Treasury from all sources and funds, including both revenue and non-revenue receipts. State payments represent gross warrant disbursements from all funds, including expenditures for governmental costs and non-governmental cost disbursements.

* Excluding City and County of San Francisco.

Since 1938 the total county payments have increased \$74,409,319.21. This represents an advance in all classifications except highways, recreation, bond interest and redemption, expenditures from bond moneys and agency transactions for the State. The following detail presents the 1942 increases in comparison with corresponding payments in 1938:

Function	Amount of Increase, 1938-1942	Percentage of Increase, 1938-1942
General Government	\$862,553.90	1.16
Protection to Person and Property	2,954,656.72	3.97
Health and Sanitation	78,129.40	.10
Charities and Corrections	35,611,824.58	49.20
Education	22,165,101.26	29.79
Miscellaneous	1,638,047.00	2.20
Trust Funds	11,638,333.53	15.64
Agency Accounts for Cities, etc.	7,623,382.29	10.24
Highways	1,542,528.54	2.07
Recreation	340,510.22	.46
Bond Interest and Redemption	3,064,770.64	4.11
Payments from Bond Moneys	3,233,720.63	4.43
Agency Transactions for State	918,869.44	1.23
	\$74,409,319.21	100.00

The increases for education and charities and corrections are not met entirely by county funds since large contributions in the form of subventions are received from the State and Federal governments. Tax receipts in 1942 increased 14 per cent over those in 1938, while receipts from subventions increased 27 per cent. County assessment valuations, which are subject to review by the State Board of Equalization have increased 11 per cent since 1938.

CITIES **

Year	Assessed Valuation	Receipts	Payments
1938	\$1,866,411,945	\$265,789,621.69	\$264,012,296.97
1939	4,915,610,223	289,330,549.45	273,792,942.78
1940	4,921,636,046	289,487,668.68	295,309,103.07
1941	4,903,504,749	254,533,089.26	246,232,374.86
1942	5,050,322,926	303,974,182.63	299,939,789.33

** Including City and County of San Francisco.

Following closely the trend of the county comparison, the cities in 1942 show an increase over corresponding expenditures in 1938 with the exception of those for streets, bonds, special assessments and expenditures from bond moneys. The total difference in payments for these two years is \$35,927,492.36, of which amount \$20,945,214.84 covers an advance in expenses of utilities and is more than offset by an increase in utility receipts of \$21,290,953.47. City general tax collections increased \$10,275,775.62.

Both cities and counties report civilian defense items which have been included in the section for Protection to Person and Property. There has been a marked increase in the number of cities reporting payments for the operation of airports. Table XIV gives detail for municipally owned bus systems.

BONDED DEBT

Year	State	Counties	Cities	Total
1938	\$190,807,500.00	\$284,746,512.47	\$509,054,988.82	\$984,609,001.29
1939	184,565,500.00	278,508,487.20	508,914,293.09	967,288,80.29
1940	173,715,500.00	259,490,532.91	501,110,144.42	934,316,177.33
1941	162,830,500.00	245,029,366.11	487,554,853.41	894,914,719.52
1942	150,880,500.00	226,833,666.82	471,588,331.64	849,302,498.46

Since 1937 there has been a steady decrease in the bonded debt of the State, counties and cities, with the result that in the past five years the total debt has decreased 13.74 per cent. This is an indication that our local governments are to this extent relieving the load of public debt which the taxpayers must meet. At the present time, using the 1940 census, California carries a per capita bonded debt of \$122.95.
