INTRODUCTION

The State Controller presents the Thirty-ninth Annual Report of Financial Transactions of the Cities and Counties of California. The report covers cash transactions and other pertinent data for 57 counties, 302 cities and the City and County of San Francisco (classified as a city), for the period from July 1, 1948, through June 30, 1949, with the exception of 15 cities which have adopted fiscal years varying in dates throughout the calendar year. The report does not cover Capitola in Santa Cruz County which incorporated January 10, 1949, and will appear in future issues, nor four inactive towns listed by the Secretary of State—Hornitos in Mariposa County, Linden in San Joaquin County, Markleville in Alpine County and Meadowlake in Nevada County.

County auditors have estimated the population of California as of June 30, 1949, to be 10,845,420, an increase of nearly 4,000,000 people or 57 percent since the 1940 census. City clerks estimate the present urban population to be 7,511,225, which is an increase of approximately 2,500,000 or 49.6 percent since 1940. These population figures are, of course, strictly estimates though verification of their accuracy will shortly be available upon completion of the federal census of 1950, in progress as this publication goes to press. Nonetheless, we know that the population increase of California has been so tremendous, particularly since 1940, that it provides a legitimate factor in accounting for much of the increase in property assessments, bonded debt, receipts and payments of cities and counties during the past nine years. New fields of revenue are constantly being sought to meet the increasing cost of providing governmental, educational and protective services for these people.

Table 6 this year contains a breakdown of miscellaneous receipts to indicate sales tax and parking meter collections. The revenue from sales tax has increased \$6,530,000 in the past year. Of this increase, \$2,320,000 covers sales tax receipts by 37 additional cities using the sales tax for the first year. Parking meter receipts increased approximately \$620,000 in the past year with nine more cities installing meters.

Comparative data follows for both cities and counties since 1940. Tremendous increases are apparent throughout and contributory causes have been set forth in previous issues of this report—population increase, war curtailment and the general upward trend of governmental costs and functions in all branches of government.

County bonded debt in the past year increased 30 percent. New school bonds were issued in the sum of \$121,000,000 and other district bonds were issued in the sum of \$10,000,000. Only nine counties in the State reported no new bond issues.

COUNTIES *

Year	Assessed valuation	Receipts	Payments	Bonded debt
1940	\$6,318,071,264	\$472,880,306	\$469,168,299	\$259,490,353
