INTRODUCTION

This edition of the Controller's Report of Financial Transactions Concerning Cities and Counties covers the fiscal year ending June 30, 1953, and follows the format of previous editions. The scope of this report is limited to the publication of factual data submitted by city clerks and county auditors.

Information is being published for the first time on the Cities of Campbell, Fontana, Carlsbad and Los Altos; cities recently incorporated but not as yet detailed in this report include:

Buena Park in Orange County, incorporated January 27, 1953
Ione in Amador County, incorporated March 23, 1953
Costa Mesa in Orange County, incorporated June 29, 1953
Del Rey Oaks in Monterey County, incorporated September 3, 1953
Milpitas in Santa Clara County, incorporated January 26, 1954
Lakewood in Los Angeles County, incorporated March 9, 1954

Some comparative data for prior years listed below may be significant in indicating the direction of future trends. Of some interest in the relationship of city and county expenditure problems is that although the increase in the ratio of bonded indebtedness to assessed valuations for counties has been relatively small, the county bonded debt now exceeds that of cities. In the ever increasing complexity of financing governmental operations, it is to be noted that traditional sources of revenue for city purposes were not sufficiently flexible to cover payments, which once again exceeeded receipts. The comparatively favorable position of the counties in this connection should, however, be considered in conjunction with the source of such receipts, particularly in respect to the increase in funds available by way of "Receipts From Debt Obligations."

It should be apparent to the observer that increased demands for governmental services are inevitable; that the ability of the present tax base to meet these requirements is questionable. An analysis of the financial transactions outlined in this report will indicate some of the problems which ultimately must be resolved.
