ANNUAL REPORT OF

FINANCIAL TRANSACTIONS

Concerning

Cities of California

Fiscal Year 1958-59

ALAN CRANSTON
State Controller

NOTE

The information listed herein has been extracted from reports prepared by city fiscal officers; such reports, in most instances, are not subject to audit by the State Controller.

A comprehensive analysis of revenues and expenditures as to comparability of cities is of questionable validity without due consideration to the existence of variations in accounting methods and practices as well as qualitative and quantitative differences in services rendered. In an analysis of that type, it is advisable that referral be made to the cities involved for determination if such factors might have a bearing on the material under consideration.

In co-operation with the League of California Cities, the California Society of Certified Public Accountants and many city fiscal officers, the current issue represents a major revision in the annual reporting of city financial transactions. Due to the revision this report is not comparable in many aspects to reports of previous years.

The classifications and titles follow the basic pattern of the "Chart of Accounts for California Cities" prepared by the California Committee on Municipal Accounting. Where applicable the definitions of accounts are as defined by the National Committee on Governmental Accounting.

INTRODUCTION

During the Fiscal Year 1958-59 California cities, exclusive of city-owned enterprises and bond funds, received revenues of $868,961,437 and in the same period expended $854,808,912 for cost of government.

City-owned enterprises received income of $367,445,022 and incurred expenses of $283,634,786.

The aggregate expenditures from bond funds of cities and city-owned enterprises amounted to $237,156,474.

General city revenues from locally imposed taxes amounted to approximately $500,000,000 or nearly 58 percent of the total. The second largest source of funds was from federal, state and county governments which aggregated over $135,000,000 or nearly 16 percent of the total.

Total	$868,961,437	100.00

The majority of grants received from other governmental agencies are restricted as to the purposes for which they may be expended. The vehicle in lieu tax may be used only for law enforcement, regulation and control of highway traffic and any other state purpose. Gasoline tax grants may be expended only for the construction and maintenance of city streets. For the most part federal and county grants are reserved exclusively for specific purposes.

REVENUE FROM OTHER GOVERNMENTAL AGENCIES

Trailer coach licenses	$689,387
Alcoholic beverage fees	7,648,986
Vehicle in lieu tax	55,505,182
Gasoline tax	33,378,653
Other state grants	16,658,271
County grants	8,183,681
Federal grants	12,338,440
Other in lieu of taxes	769,406
Total	$135,172,006

Another segment of city revenue which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the state Vehicle Code. Specifically, such money may be used only for "traffic signs, signals and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, hedges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

FINES AND PENALTIES

Vehicle Code fines	$23,081,382
Other court fines	7,199,028
Other penalties	1,282,386
Total	$31,562,796

A total of 323 cities reported sales tax revenue of $166,751,223 for the year under review.

Not all revenues from the locally imposed sales tax accrue to the city of sales situs. The enactment of the Bradbury-Burns Uniform Sales and Use Tax Law permitting county governments to levy a 1-cent sales tax had the effect of necessitating agreements between cities and counties as to the division of sales tax revenue collected within cities. These agreements vary and are subject to periodic adjustment.

The bonded indebtedness of cities as of June 30, 1959, was $1,309,067,613, of which $495,728,856 represented revenue bond classifications. General obligation bonds of $813,338,757 represented approximately 4 percent of the assessed valuation of cities.

The general obligation bonding capacity of all general law cities as distinguished from chartered cities is limited by the provisions of Section 43605 of the Government Code which states:

> "A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section "indebtedness" means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

For the most part, the bonding capacity of chartered cities is the same as that of general law cities. Extreme variations are noted in the case of one city in which the charter provides a 15 percent limit for the development, conservation and furnishing of water plus an additional 10 percent for other municipal improvements. The charter for another city provides for a 15 percent limitation of which 12 percent is restricted to utility purposes.

The valuation of city assessment rolls applicable to Fiscal Year 1959-60 amounted to $19,025,477,973. Taxes levied against this valuation totaled $353,677,074. It is to be noted that from the period of 1953-54 to 1959-60, the value of assessed property for city tax purposes increased 65 percent while for the same period taxes levied against this valuation increased only 62 percent.

Tax rates of California cities varied widely. Aside from the 70 chartered cities exercising their own option, all other cities are included within the provision of state statutes as to the total tax rate that can be levied. Section 43068 of the Government Code states in part:

> "Unless a majority of the city electors voting at an election held for that purpose are in favor to it, the annual property tax shall not exceed one dollar ($1) on each one hundred dollars ($100), exclusive of such tax * * * (for) any pension plan * * * exclusive of such tax not to exceed five cents ($0.05) * * * (for) civil defense or disaster preparedness, exclusive of such tax * * * (for) costs of sewerage facilities, * * * park and recreation * * *."

Other code sections permit additional tax levies with various limitations for such purposes as flood control, veterans facilities, museums, libraries, etc. No limitation is placed on the tax rate required to meet bond debt service. Within the framework of these provisions, the tax rates of nonchartered cities levying a tax ranged from approximately 32 percent being a dollar or less while nearly 28 percent were in excess of a dollar and a half.

In addition to the 354 cities whose financial transactions are detailed in this report, eight other incorporations are noted as of date of record.
