INTRODUCTION

At the close of the fiscal year ended June 30, 1965 California cities numbered 395. These cities, exclusive of city-owned enterprises and bond funds, received $1,433,209,981 and expended $1,372,286,281 for cost of government.

During the same period, city-owned enterprises consisting of such services as water, electricity, gas, sewers, airports, bus systems, harbors, cemeteries, hospitals, parking districts and housing received income of $562,533,165 and incurred expenses of $434,857,310; in addition, these enterprises also expended $108,709,127 for capital outlays.

Also for the same period the aggregate expenditures from bond funds of cities and city-owned enterprises amounted to $180,294,147.

General city revenues of $1,433,209,981 represented an increase of $124,929,108 or nearly 10 percent over that of the previous year.

General city revenue from locally imposed taxes amounted to $772,877,915 or approximately 54 percent of the total. The second largest source of funds was from federal, state and county governments which aggregated $258,969,742 or 18 percent of the total.

The majority of grants received from other governmental agencies are restricted as to purposes for which they may be expended. The vehicle in lieu tax may be used only for law enforcement, regulation and control of highway traffic and any other state purpose. Gasoline tax grants may be expended only for the construction and maintenance of streets, roads, and highways and the acquisition of rights-of-way. For the most part, federal and county grants are reserved exclusively for specific purposes. As the City of San Francisco also performs the function of a county government the revenue structure for that city includes approximately 53 million dollars from state and federal sources for county purposes.

Another segment of city revenues which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the State Vehicle Code. Specifically, such money may be used only for "traffic signs, signals and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, bridges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

FINES AND PENALTIES

	1963–64	*1964–65*
Vehicle Code Fines	$32,929,214	$36,946,028
Other Court Fines	10,215,086	10,491,198
Other Penalties	1,312,151	1,420,009
Total	$44,456,451	$48,857,235

Many city-owned enterprises have been financed for acquisition and improvement purposes through the issuance of bonds, a number of such bonds being purely revenue, i.e. the debt service to the bond holders is dependent (insofar as the bond agreements are concerned) solely on the sufficiency of revenue generated by the enterprise.

Another large segment of bonds issued for enterprise purposes are also self-liquidating from enterprise revenue; however, such bonds which are also secured by an unlimited property tax authorization are considered as general obligation bonds of the city. In the case of the latter, the debt service amounts provided by the enterprise for such bonds are considered as a revenue contribution from the enterprise and a subsequent general city expenditure for debt service. Of the total revenue received by the cities as contributions from enterprises it is estimated that approximately 50 percent is considered as being within this category.

Recent state legislation permits all cities to levy a tax on the occupancy of a room in any lodging. This tax more commonly known as a hotel-motel bed tax does not apply if the period of occupancy is for more than 30 days. As a new source of revenue, a number of chartered cities now levy a new tax on cigarettes. This tax is in addition to local and state sales taxes.

OTHER NON-PROPERTY TAXES

	1964–65
Room Occupancy Tax	$4,539,996
Cigarette Tax	5,561,497
Other	1,611,541
Total	$11,713,034

During the year under review all cities except one with negligible sales transactions, had a local sales tax ordinance in effect. The $258,827,715 reported by cities from this source constituted 18 percent of total revenues. Dollarwise, as well as from the standpoint of being unrestricted as to expenditure purpose, it is second only to property taxes in importance. During the last nine years, the relationship of sales tax revenue to property tax revenue has remained fairly constant; for the year under review sales taxes amounted to nearly 35 percent of the total of both sales and property taxes, representing a property tax rate equivalent of $0.99 on $100 of assessed valuation.

Not all revenue from locally imposed sales taxes accrues to the city of sales situs. The Uniform Sales and Use Tax Law permitting county governments to levy a 1-cent sales tax has the effect of necessitating agreements between cities and counties as to the division of sales tax revenue collected within cities. These agreements vary and are subject to periodic adjustments. In addition to the agreements listed below which are formalized by local ordinances of cities and counties and by contract with the State Board of Equalization acting as collection agent, several counties have supplemental agreements with their cities in which a percentage of collections is returned to the city of sales situs.

The bonded indebtedness of cities as of June 30, 1965 was $1,803,615,040 of which $882,346,500 represented a revenue bond classification. General obligation bonds of $921,268,540 represented less than 4 percent of the assessed valuation of cities.

BONDED INDEBTEDNESS

1944–45	$436,187,000
1949–50	609,249,000
1954–55	790,725,000
1959–60	1,351,667,000
1964–65	1,803,615,040

Although chartered cities may establish their own limitation on bonded indebtedness, the large majority of them are the same as general law cities which are limited by the provisions of Section 43605 of the Government Code which states:

> "A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section 'indebtedness' means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

For reporting purposes a general obligation bond is one which is secured by the taxing power of a city. In general practice many such bonds are redeemed through revenue not directly derived from property taxes; i.e. revenue from other sources such as sales taxes or generated through enterprise activities is used in lieu of a direct property tax for debt service. The impact of this procedure, however, has the same effect as a direct property tax as the net result is the reduction of available revenue which would otherwise apply against property tax needs for other purposes. For the year under review the debt service requirement was equivalent to a $0.36 property tax rate.

City owned enterprise income of $562,533,165 represented an increase of $20,020,156 or nearly 4 percent, over that of the prior year. Expenses of $434,857,310 were $19,741,390 or approximately 5 percent, higher than the previous period. Expenditure for fixed assets (capital outlays) amounted to $108,709,127, a decrease of $15,812,453 from the prior year.

Aside from the 72 chartered cities exercising their own option, all other cities (except as indicated below) are included within the provisions of state statutes as to the total tax rate that can be levied. Section 43068 of the Government Code states in part:

> "Unless a majority of the city electors voting at an election held for that purpose are in favor of it, the annual property tax shall not exceed one dollar ($1.00) on each one hundred dollars ($100), exclusive of such tax * * * (for) any pension plan, * * * exclusive of such tax not to exceed five cents ($0.05) * * * (for) civil defense or disaster preparedness, exclusive of such tax * * * (for) costs of sewage facilities, * * * park and recreation * * *"

Other code sections permit additional tax levies with various limitations for such purposes as flood control, veterans facilities, museums, libraries, etc. No limitation is placed on the tax rate required to meet bond debt service.

The assessment of city taxes for Fiscal Year 1965–66 was accomplished on the tax rolls of the counties for all except 45 cities. Instead of preparing separate assessment and tax bills and maintaining the detailed records inherent in tax accounting, the large majority of cities merely indicated to the counties the tax rate to be applicable for their assessment purposes; such taxes being assessed and collected in the same manner and with the same force and effect as county and school taxes.

Any compensation paid to counties for such services is in accordance with Section 51514 and 51561 of the Government Code, which provides that such compensation shall be fixed by agreement between the board of supervisors and the city legislative body. These sections also provide that for general law cities the charges so fixed shall not exceed 1 percent for collecting the first twenty-five thousand dollars ($25,000) and not more than one-fourth of 1 percent for all sums over that amount. In the case of chartered cities the compensation shall not exceed one-half of 1 percent of all money collected.

In connection with the above Sections 51514 and 51561 the state legislature enacted during the 1963 session Sections 51520 and 51562 which state in part:

> "Notwithstanding any (other) provision * * * relating to compensation paid to the county for assessing and collecting taxes for a city, the board of supervisors of a county may, upon a finding of public interest, perform such assessment and collection services for a city without compensation from such city"

One of the more significant reasons for general law cities to accomplish their own assessment and collection of property taxes is the desirability of placing a higher valuation on property than that as determined by the county. This position stems largely from the limitation imposed by the maximum tax rate quoted above which applies to general law cities.

As a partial answer to this problem, the state legislature in 1961 enacted Section 43072 of the Government Code which provided that any statutory maximum tax rate to which a general law city is subject is automatically increased when the city transfers its assessment and collection function to the county. This increase is proportionate to the amount by which the assessed value of property on which city taxes were extended exceeded the assessed value of that property for county tax purposes in the last year for which the city collected its own property taxes.

In the first three years after the enactment of the above law, 39 general law cities transferred the tax assessment function to the counties. The City of Lindsay included in the above group of cities subsequently withdrew from this arrangement but again this year, in company with 8 additional cities, transferred the assessment and collection of taxes to county facilities.

City	*County Location*	*City*	*County Location*
Chico	Butte	Oroville	Butte
Delano	Kern	Paso Robles	San Luis Obispo
Hercules	Contra Costa	Pinole	Contra Costa
King City	Monterey	Tehachapi	Kern

Aside from the existing 395 cities whose financial transactions are detailed in this report, three new incorporations are noted as of date of record.

City	*Incorporation Date*	*County Location*	*Estimated Population*
Carpinteria	September 28, 1965	Santa Barbara	6,650
California City	November 23, 1965	Kern	600
South Lake Tahoe	November 30, 1965	El Dorado	10,000

Effective as of January 1, 1965, the city of North Sacramento merged with the city of Sacramento.

Effective as of January 11, 1965, the name of the city of Dairyland was changed to La Palma.

Footnotes to the accompanying Tables will be found at the end of this publication.
