COVER . . .

Pioneering in transportation and in the development of a central transportation terminal to serve Pomona and Pomona Valley has been a by-word in Pomona down through the years. The architect's drawing dramatically portrays the terminal, planned in several phases, for all forms of transportation—municipal and national bus lines, regional rapid transit system, railroad and car rental agencies. The heliport will eventually service direct flights to all major cities in southern California. It will take a traveler all of ten minutes to travel from Pomona to a heliport in downtown Los Angeles.

NOTE

The information listed herein has been extracted from reports prepared by city fiscal officers; such reports, in most instances, are not subject to audit by the State Controller.

A comprehensive analysis of revenues and expenditures as to comparability of cities is of questionable validity without due consideration to the existence of variations in accounting methods and practices as well as qualitative and quantitative differences in services rendered. In an analysis of that type, it is advisable that referral be made to the cities involved for determination if such factors might have a bearing on the material under consideration.

In cooperation with the League of California Cities, the California Society of Certified Public Accountants and many city fiscal officers, this issue as well as the ones for the eight preceding fiscal years represents a major revision in the annual reporting of city financial transactions. Due to the revision this report is not comparable in many aspects to reports pertaining to periods prior to Fiscal Year 1958–59.

The classifications and titles follow the basic pattern of the "Chart of Accounts for California Cities" prepared by the California Committee on Municipal Accounting. Where applicable the definitions of accounts are as defined by the National Committee on Governmental Accounting.

INTRODUCTION

At the close of the fiscal year ended June 30, 1967 California cities numbered 399. These cities, exclusive of city-owned enterprises and bond funds, received revenue of $1,670,702,433 and expended $1,643,045,673 for cost of government.

During the same period, city-owned enterprises consisting of such services as water, electricity, gas, sewers, airports, bus systems, harbors, cemeteries, hospitals, parking districts and housing received income of $635,079,538 and incurred expenses of $493,959,901; in addition, these enterprises also expended $110,918,803 for capital outlays.

Also for the same period the aggregate expenditures from bond funds of cities and city-owned enterprises amounted to $223,451,793.

General city revenues of $1,670,702,433 represented an increase of $116,942,151 or nearly 8 percent over that of the previous year.

General city revenue from locally imposed taxes amounted to $915,241,480 or nearly 55 percent of the total. The second largest source of funds was from federal, state and county governments which aggregated $298,694,585 or approximately 18 percent of the total.

The majority of grants received from other governmental agencies are restricted as to purposes for which they may be expended. The vehicle in lieu tax may be used only for law enforcement, regulation and control of highway traffic and any other state purpose. Gasoline tax grants may be expended only for the construction and maintenance of streets, roads, and highways and the acquisition of rights-of-way. For the most part, federal and county grants are reserved exclusively for specific purposes. As the City of San Francisco also performs the function of a county government the revenue structure for that city includes approximately 56 million dollars from state and federal sources for county purposes.

REVENUE FROM OTHER GOVERNMENTAL AGENCIES

	1965–66	*1966–67*
Trailer Coach Licenses	$1,236,172	$1,366,667

Other in lieu of Taxes	1,099,708	1,106,895
Total	$288,715,267	$298,694,585

Another segment of city revenues which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the State Vehicle Code. Specifically, such money may be used only for "traffic signs, signals and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, bridges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

FINES AND PENALTIES

	1965–66	*1966–67*
Vehicle Code Fines	$41,690,617	$41,865,336
Other Court Fines	11,910,531	11,010,885
Other Penalties	1,355,939	1,327,759
Total	$54,957,087	$54,203,980

Many city-owned enterprises have been financed for acquisition and improvement purposes through the issuance of bonds, a number of such bonds being purely revenue, i.e. the debt service to the bond holder is dependent (insofar as the bond agreements are concerned) solely on the sufficiency of revenue generated by the enterprise.

Another large segment of bonds for enterprise purposes are also self-liquidating from enterprise revenue; however, such bonds which are also secured by an unlimited property tax authorization are considered as general obligation bonds of the city. In the case of the latter, the debt service amounts provided by the enterprise for such bonds are considered as a revenue contribution from the enterprise and a subsequent general city expenditure for debt service. Of the total revenue received by the cities as contributions from enterprises it is estimated that approximately one-half is considered as being within this category.

Many cities levy a tax on the occupancy of a room in any lodging. This tax more commonly known as a hotel-motel bed tax does not apply if the period of occupancy is for more than 30 days. A number of chartered cities levied a tax on cigarettes which was in addition to local and state sales taxes. This tax will be phased out in favor of a new cigarette tax levied and collected by the state and shared with all cities.

OTHER NON-PROPERTY TAXES

	1965–66	*1966–67*
Room Occupancy Tax	$8,712,914	$11,281,773
Cigarette Tax	11,010,961	18,675,667
Other	1,674,999	2,744,310
Total	$21,398,874	$32,701,750

During the year under review all cities except two with negligible sales transactions, had a local sales tax ordinance in effect. The $292,023,893 reported by cities from the source constituted approximately 17 percent of total revenues. Dollarwise, as well as from the standpoint of being unrestrictive as to expenditure purpose, it is second only to property taxes in importance. During the last eleven years, the relationship of sales tax revenue to property tax revenue has remained fairly constant; for the year under review sales taxes amounted to nearly 34 percent of the total of both sales and property taxes, representing a property tax rate equivalent of $0.96 on $100 of assessed valuation.

General city expenditures during Fiscal Year 1966–67 amounted to $1,643,045,673 an increase of $138,349,109 or 9 percent over that of the prior year. Of the total expenditures, $1,342,546,582 or 82 percent was for Current Expenses, $201,253,264 or 12 percent was for Fixed Assets (Capital Outlays) and $99,245,827 or 6 percent for Debt Service.

The bonded indebtedness of cities as of June 30, 1967 was $1,994,781,860 of which $1,047,380,907 represented a revenue bond classification. General obligation bonds of $947,400,953 represented less than 4 percent of the assessed valuation of cities.

BONDED INDEBTEDNESS

1944–45	$436,187,000
1949–50	609,249,000
1954–55	790,725,000

1965–66	1,893,479,371
1966–67	1,994,781,860

Although chartered cities may establish their own limitation on bonded indebtedness, the large majority of them are the same as general law cities which are limited by the provisions of Section 43605 of the Government Code which states:

> "A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section 'indebtedness' means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

For reporting purposes a general obligation bond is one which is secured by the taxing power of a city. In general practice many such bonds are redeemed through revenue not directly derived from property taxes, i.e. revenue from other sources such as sales taxes or generated through enterprise activities is used in lieu of a direct property tax for debt service. The impact of this procedure, however, has the same effect as a direct property tax as the net result is the reduction of available revenue which would otherwise apply against property tax needs for other purposes. For the year under review the debt service requirement was equivalent to a $0.33 property tax rate.

City-owned enterprise income of $635,079,538 represented an increase of $44,920,933 or 8 percent, over that of the prior year. Expenses of $493,959,901 were $29,535,087 or 6 percent, higher than the previous period. Expenditures for fixed assets (capital outlays) amounted to $110,918,803 a decrease of $23,004,662 under the prior year.

The valuation of city assessment rolls for property tax purposes applicable to Fiscal Year 1967–68 amounted to $32,814,904,191, an increase of $2,387,550,372 or nearly 8 percent over the prior year. Taxes levied against this valuation amounted to $603,684,397, an increase of $33,537,465 or nearly 6 percent.

Aside from the 73 chartered cities exercising their own option, all other cities (except as indicated below) are included within the provisions of state statutes as to the total tax rate that can be levied. Section 43068 of the Government Code states in part:

> "Unless a majority of the city electors voting at an election held for that purpose are in favor of it, the annual property tax shall not exceed one dollar ($1.00) on each one hundred dollars ($100), exclusive of such tax * * * (for) any pension plan, * * * exclusive of such tax not to exceed five cents ($0.05) * * * (for) civil defense or disaster preparedness, exclusive of such tax * * * (for) costs of sewage facilities, * * * parks and recreation * * *"

Other code sections permit additional tax levies with various limitations for such purposes as flood control, veterans facilities, museums, libraries, etc. No limitation is placed on the tax rate required to meet bond debt service.

The assessment of city taxes for Fiscal Year 1967–68 was accomplished on the tax rolls of the county for all except 20 cities. Instead of preparing separate assessment and tax bills and maintaining the detailed records inherent in tax accounting, the large majority of cities merely indicated to the counties the tax rate to be applicable for their assessment purposes; such taxes being assessed and collected in the same manner and with the same force and effect as county and school taxes.

Any compensation paid to counties for such service is in accordance with Sections 51514 and 51561 of the Government Code, which provides that such compensation shall be fixed by agreement between the board of supervisors and the city legislative body. These sections also provide that for general law cities the charges so fixed shall not exceed 1 percent for collecting the first twenty-five thousand dollars ($25,000) and not more than one-fourth of 1 percent for all sums over that amount. In the case of chartered cities the compensation shall not exceed one-half of 1 percent of all money collected.

In connection with the above Sections 51514 and 51561 the state legislature enacted during the 1963 session Sections 51520 and 51562 which state in part:

> "Notwithstanding any (other) provision * * * relating to compensation paid to the counties for assessing and collecting taxes for a city, the board of supervisors of a county may, upon a finding of public interest, perform such assessment and collection services for a city without compensation from such city."

One of the more compelling reasons for general law cities to accomplish their own assessment and collection of property taxes is the desirability of placing a higher valuation on property than that as determined by the county. This position stems largely from the limitation imposed by the maximum tax rate quoted above which applies to general law cities.

As a partial answer to this problem, the state legislature some years ago enacted Section 43072 of the Government Code which provided that any statutory maximum tax rate to which a general law city is subject is automatically increased when the city transfers its assessment and collection function to the county. This increase is proportionate to the amount by which the assessed value of property on which city taxes were extended exceeded the assessed value of that property for county tax purposes in the last year for which the city collected its own property taxes.

In the first five years after the enactment of the above law, 54 general law cities transferred the tax assessment function to the counties. In addition to the foregoing group 10 general law cities plus 4 chartered cities this year transferred the assessment and collection of taxes to county facilities.
