

ANNUAL REPORT OF FINANCIAL TRANSACTIONS

Concerning

Cities of California

Fiscal Year 1970-71

NOTE

The information listed herein has been extracted from reports prepared by city fiscal officers; such reports, in most instances, are not subject to audit by the State Controller.

A comprehensive analysis of revenues and expenditures as to comparability of cities is of questionable validity without due consideration to the existence of variations in accounting methods and practices as well as qualitative and quantitative differences in services rendered. In an analysis of that type, it is advisable that referral be made to the cities involved for determination if such factors might have a bearing on the material under consideration.

In cooperation with the League of California Cities, the California Society of Certified Public Accountants and many city fiscal officers, this issue as well as the ones for a number of preceding fiscal years represents a major revision in the annual reporting of city financial transactions. Due to the revision this report is not comparable in many aspects to reports pertaining to periods prior to Fiscal Year 1958-59.

The classifications and titles follow the basic pattern of the "Chart of Accounts for California Cities" prepared by the California Committee on Municipal Accounting. Where applicable the definitions of accounts are as defined by the National Committee on Governmental Accounting.

FOREWORD

Over the last decade expenditures for cities have increased on an average of 9 percent each year and as a result cities have looked for new sources of revenue to help with the problems of financing.

Some of the sources of revenue which have come into existence during this ten year period are: utility users tax, cigarette tax, property transfer tax, highway carriers tax and a livestock tax. During the year under review these revenues generated approximately 138 million dollars or 5 percent of the total revenue collected by cities.

It would appear that these new sources of revenue are not the total answer to the problems of financing within cities.

HOUSTON I. FLOURNOY
State Controller

INTRODUCTION

At the close of the fiscal year ended June 30, 1971 California cities numbered 407. The cities, exclusive of city-owned enterprises and bond funds, received revenue of \$2,524,319,546 and expended \$2,516,217,497 for cost of government.

During the same period, city-owned enterprises consisting of such services as water, electricity, gas, sewers, airports, bus systems, harbors, cemeteries, hospitals, parking districts and housing received income of \$883,805,036 and incurred expenses of \$718,340,747; in addition, these enterprises also expended \$141,920,788 for capital outlays.

Also for the same period the aggregate expenditures from bond funds of cities and city-owned enterprises amounted to \$437,750,610.

General city revenue of \$2,524,319,546 represented an increase of \$252,403,852 or 11 percent over that of the previous year.

Other -----	1.23	.93
Total -----	100.00	100.00

General city revenue from locally imposed taxes amounted to \$1,355,348,754 or nearly 54 percent of the total. The second largest source of funds was from federal, state and county governments which aggregated \$579,825,516 or 23 percent of the total.

As the major segment of revenue, general property taxes for city purposes in the Fiscal Year 1970-71 amounted to \$755,102,564, an increase of \$54,694,417 or nearly 8 percent.

GENERAL PROPERTY TAXES

	Amount	Percentage Increase Over Prior Year	As a Percent of Total Revenue
1961-62 -----	\$410,213,592	6.96	37.37
1962-63 -----	446,581,695	8.87	37.28
1963-64 -----	466,200,258	4.39	35.63
1964-65 -----	487,547,813	4.58	34.02
1965-66 -----	526,381,421	7.97	33.88

1967-68 -----	609,608,121	6.25	32.46
1968-69 -----	666,612,089	9.35	32.00
1969-70 -----	700,408,147	5.07	30.83
1970-71 -----	755,102,564	7.81	29.91

Historically, the majority of grants received from other governmental agencies have been restricted as to purposes for which they may be expended. These controls have been removed in the case of motor vehicle in lieu taxes, trailer coach fees and cigarette taxes which may now be spent for any local purpose. Gasoline tax grants may be expended only for the construction and maintenance of streets, roads, highways and the acquisition of rights-of-way. For the most part federal and county grants are reserved exclusively for specific purposes. As the City of San Francisco also performs the function of a county government the revenue structure for that city includes some 101 million dollars from state and federal sources for county purposes.

Alcoholic beverage license fees per Section 25761 of the Business and Professions Code are apportioned in the proportion that the amount of fees collected in each city and county bears to the total amount collected throughout the state.

Cigarette taxes per Section 30462 of the Revenue and Taxation Code to be apportioned are divided between cities and counties in the proportion that local sales tax distributed to each city and each county bears to the total of such local sales tax distributed in the previous calendar quarter. Fifty percent of the city's share is allocated in the proportion that the local sales tax revenue of each city bears to the total sales tax revenue of all the cities and the remaining fifty percent is allocated in the proportion that the population of each city bears to the total population of all the cities.

Motor vehicle license fees per Section 11003 of the Revenue and Taxation Code to be apportioned are divided equally between cities and counties. The allocation to cities is in the proportion that the population of each bears to the population of all cities.

Trailer coach fees per Section 11003.1 of the Revenue and Taxation Code are apportioned as follows: If the trailer coach is located in a city and any school district the allocation is one-third to the city, one-third to the school district, and one-third to the county. If located outside a city the allocation is one-half to the school district and one-half to the county.

Homeowners and business inventories property tax relief funds are a reimbursement from the state to all local agencies for the loss of property tax revenues by reason of homeowners and business inventories exemptions.

REVENUE FROM OTHER GOVERNMENTAL AGENCIES

	1969-70	1970-71
Trailer Coach Licenses -----	\$1,984,963	\$2,345,807
Alcoholic Beverage Fees -----	8,572,219	12,419,866
Vehicle in Lieu Taxes -----	108,643,413	118,815,392
Gasoline Taxes -----	129,807,676	133,055,488
Cigarette Taxes -----	59,828,606	62,018,929
Homeowners—State -----	28,013,554	27,455,978
Business Inventories—State -----	5,425,439	13,459,679
Other State Grants -----	58,552,039	63,433,092
County Grants -----	29,532,264	30,411,066
Federal Grants -----	64,417,641	115,388,409
Other in Lieu Taxes -----	1,557,047	1,021,810
Total -----	\$496,334,861	\$579,825,516

Another segment of city revenue which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the State Vehicle Code. Specifically, such money may be used only for "traffic signs, signals and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, bridges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

FINES AND PENALTIES

	1969-70	1970-71
Vehicle Code Fines -----	\$46,449,863	\$50,149,007
Other Fines -----	14,635,483	15,882,647
Other Penalties -----	297,547	141,112
Total -----	\$61,382,893	\$66,172,766

Many city-owned enterprises have been financed for acquisition and improvement purposes through the issuance of bonds, a number of such bonds being purely revenue, i.e., the debt service to the bondholder is dependent (insofar as the bond agreements are concerned) solely on the sufficiency of revenue generated by the enterprise.

Another large segment of bonds for enterprise purposes are also self-liquidating from enterprise revenue; however, such bonds which are also secured by an unlimited property tax authorization are considered as general obligation bonds of the city. In the case of the latter, the debt service amounts provided by the enterprise for such bonds are considered as a revenue contribution from the enterprise and a subsequent general city expenditure for debt service. Of the total revenue received by the city as contributions from enterprises it is estimated that approximately one-half is considered as being within this category.

During the year under review, revenue was derived from a tax on users of utility services which is levied as a percentage of the billing charge. A survey indicates that in most of the cities which levies this tax, it applies to gas, electricity and telephone services and in some instances to cable television. The rates vary but in most instances are 5 percent.

Many cities levy a tax on the occupancy of a room in any lodging. This tax more commonly known as a hotel-motel bed tax does not apply if the period of occupancy is for more than 30 days. Another source of revenue was derived from a tax on the sales of real property; the rate being \$0.55 per \$500 of sale value. If the situs of the sale is in an unincorporated area or within a city which has not enacted such a tax, all of the proceeds accrues to the county. Where the situs of the sale is within a city which has also enacted the tax, the proceeds are shared equally by the city and the county.

OTHER NON-PROPERTY TAXES

	1969-70	1970-71
Utility Users Tax -----	\$38,113,793	\$70,057,622

Oroville -----	105,602		
Pacific Grove -----	131,044	Total -----	\$70,057,622

During the year under review all cities had a local sales tax ordinance in effect. The \$371,811,231 reported by cities from this source constituted nearly 15 percent of total revenue. Dollarwise, as well as from the standpoint of being

unrestrictive as to expenditure purpose, it is second only to property taxes in importance. For a number of years, the relationship of sales tax revenue to property revenue has remained fairly constant; for the year under review sales taxes amounted to nearly 33 percent of the total of both sales and property taxes, representing a property tax equivalent of \$0.98 on \$100 assessed valuation.

REVENUE FROM LOCAL TAXES

	<i>Sales Taxes as a Percent of Total Sales and Property Taxes</i>	<i>Sales Taxes Percentage Increase Over Prior Year</i>	<i>Sales Taxes as a Property Tax Equivalent on \$100 of Assessed Valuation</i>
1961-62	33.3	6.4	\$0.91
1962-63	33.3	9.2	.94
1963-64	34.1	8.2	.96
1964-65	34.7	7.1	.99
1965-66	34.3	6.4	.97
1966-67	33.7	6.1	.96

1969-70	34.6	8.2	1.04
1970-71	32.9	.4	.98

Not all revenue from locally imposed sales taxes accrues to the city of sales situs. The Uniform Sales and Use Tax Law permitting county governments to levy a one cent sales tax has the effect of necessitating agreements between cities and counties as to the division of sales tax revenue collected within cities. These agreements vary and are subject to periodic adjustments. In addition to the agreements listed below which are formalized by local ordinances of cities and counties and by contract with the State Board of Equalization acting as collection agent, several counties have supplemental agreements with their cities in which a percentage of collections is returned to the city of sales situs.

** Consolidated city and county government.

† As of July 1, 1971.

General city expenditures during Fiscal Year 1970-71 amounted to \$2,516,217,497 an increase of \$257,286,039 or 11 percent over that of the prior year. Of the total expenditures, \$2,113,313,592 or 84 percent was for Current Expenses, \$275,869,573 or 11 percent was for Fixed Assets (Capital Outlays) and \$127,034,332 or 5 percent for Debt Service.

In recent years the traditional paths to the financing of capital expenditures have undergone a number of changes. One of these has been the use of lease-purchase plans. While this method has been used to obtain expensive equipment, its special significance has been in the acquisition of real property. In one of its simplest forms it may consist of a nonprofit corporation organized for the sole purpose of building a structure on land owned by a governmental agency. The corporation may arrange for conventional financing which in turn is secured by a long-term lease with the agency which will use the facility. The terms of the lease are sufficient to retire the debt and at its expiration, title to the facility passes to the governmental agency. In a continuing survey it was reported that the money value of leases now in effect, and if continued to their termination, amounted to 393 million dollars.

1968-69	2,003,631,293	11.79	132.28
1969-70	2,258,931,458	12.74	146.23
1970-71	2,516,217,497	11.39	164.91

The bonded indebtedness of cities as of June 30, 1971 was \$2,932,523,422 of which \$1,201,988,933 was General Obligation bonds representing 3 percent of the assessed valuation of the cities. Revenue bonds amounted to \$1,628,826,000, Improvement District bonds \$92,189,489 and Limited Obligation bonds \$9,519,000.

BONDED INDEBTEDNESS

1944-45	\$436,187,000
1949-50	609,249,000
1954-55	790,725,000
1959-60	1,351,667,000
1964-65	1,803,615,040
1969-70	2,644,431,173
1970-71	2,932,523,422

Although chartered cities may establish their own limitations on bonded indebtedness, the large majority of them are the same as general law cities which are limited by the provisions of Section 43605 of the Government Code which states:

"A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section 'indebtedness' means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

For reporting purposes a general obligation bond is one which is secured by the taxing powers of the city. In general practice many such bonds are redeemed through revenue not directly derived from property taxes, i.e., revenue from other sources such as sales taxes or generated through enterprise activities is used in lieu of a direct property tax for debt service. The impact of this procedure, however, has the same effect as a direct property tax as the net result is the reduction of available revenue which would otherwise apply against property tax needs for other purposes. For the year under review the debt service requirement was equivalent to a \$0.33 property tax rate.

One of the seemingly inevitable results of the development of land use is the appearance of the assessment bond. Unlike its counterpart, the general obligation bond of the city, the assessment bond represents an unpaid assessment for public works, the cost of which is assessed against benefited property. Under the more widely used type of assessment bond the city has no obligation to the bondholder except to pass to him any money paid by the property owner. Under a lesser used type of assessment bond the city has a contingent liability in the case of delinquency to either advance the amount of the delinquency or levy a limited tax rate on the affected area. In the event of an advance, the funds are eventually returned to the city. At the end of the year under review, unmatured assessment bonds issued through city procedures amounted to some 221 million dollars.

City-owned enterprise income of \$883,805,036 represented an increase of \$81,217,648 or 10 percent, over that of the prior year. Expenses of \$718,340,747 were \$74,427,599 or 12 percent higher than the previous period. Expenditures for fixed assets (capital outlays) amounted to \$141,920,788, an increase of \$4,807,915 over the prior year.

The net valuation of city assessment rolls for property tax purposes applicable to Fiscal Year 1971-72 amounted to \$39,835,846,661 an increase of \$1,884,594,273 or nearly 5 percent over the prior year. Homeowners and Business Inventories exemptions amounted to \$2,315,884,327. These exemptions are completely reimbursable by the state to the city for the resulting loss of property tax revenue. Taxes levied against the net valuation amounted to \$796,209,659, an increase of \$39,058,101 or 10 percent.

CITY ASSESSED VALUATION, TAX LEVIES AND AVERAGE TAX RATE

Fiscal Year	Percentage Increase Over Prior Year		Rate Per \$100 Valuation
	Valuation	Levies	
1962-63 -----	5.98	9.25	\$1.87

1969-70 -----	2.52	5.04	1.96
1970-71 -----	6.70	8.66	2.00
1971-72 -----	4.97	10.31	2.10

Aside from the 75 chartered cities exercising their own option, all other cities (except as indicated below) are included within the provisions of state statutes as to the total tax rate that can be levied. Section 43068 of the Government Code states in part:

"Unless a majority of the city electors voting at an election held for that purpose are in favor of it, the annual property tax shall not exceed one dollar (\$1.00) on each one hundred dollars (\$100), exclusive of such tax *** (for) any pension plan, *** exclusive of such tax not to exceed five cents (\$0.05) *** (for) civil defense or disaster preparedness, exclusive of such tax *** (for) costs of sewage facilities, *** parks and recreation *** workmen's compensation insurance and health and medical benefits for municipal officers and employees ***".

The elimination of household furnishings as a taxable item occasioned an authorization for a possible increase in maximum tax rates of approximately 2 percent, the exact amount depending on the procedure selected. Other code sections permit additional tax levies with various limitations for such purposes as flood control, veterans facilities, museums, libraries, etc. No limitation is placed on the tax rate required to meet bond debt service.

The assessment of city taxes for Fiscal Year 1971-72 was accomplished on the tax rolls of the county for all except 6 cities. Instead of preparing separate assessment and tax bills and maintaining the detail records inherent in tax accounting, the vast majority of cities merely indicated to the counties the tax rate to be applicable for their assessment purposes; such taxes being assessed and collected in the same manner and with the same force and effect as county and school taxes.

Any compensation paid to counties for such service is in accordance with Sections 51514 and 51561 of the Government Code, which provides that such compensation shall be fixed by agreement between the board of supervisors and the city legislative body. These sections also provide that for general law cities the charges so fixed shall not exceed one percent for collecting the first twenty-five thousand dollars (\$25,000) and not more than one-fourth of one percent for all sums over that amount. In the case of chartered cities the compensation shall not exceed one-half of one percent of all money collected.

In connection with the above Sections 51514 and 51561 the state legislature subsequently enacted amended Sections 51520 and 51562 which states in part:

"Notwithstanding any (other) provisions *** relating to compensation paid to the counties for assessing and collecting taxes for a city, the board of supervisors of a county may, upon a finding of public interest, perform such assessment and collection services for a city without compensation from such city; provided, that in a county having a population of 4,000,000 or more, the county shall perform such assessment and collection services for a city without compensation from such city; provided, further, that in any county in which all cities agree to use of the county assessment roll and agree to permit the county to perform such assessment and collection functions, the county shall perform such assessment and collection services for the cities without compensation from such cities."

One of the more compelling reasons cited by general law cities to accomplish their own assessment and collection of property taxes was the desirability of placing a higher valuation on property than that as was determined by the county. That position stemmed largely from the limitation imposed by the maximum tax rate quoted previously which applies to general law cities.

As a partial answer to this problem, the state legislature some years ago enacted Section 43072 of the Government Code which provided that any statutory maximum tax rate to which a general law city was subject was automatically increased when the city transferred its property tax assessment and collection function to the county. This increase being proportionate to the amount by which the assessed value of property on which city taxes were extended exceeded the assessed value of that property for county tax purposes in the last year for which the city collected its own property taxes.

Finally, the legislature amended Section 51501 of the Government Code which provided that by January 1, 1969 there was to be a mandatory transfer of the property tax assessment and collection function from all general law cities to the county.

In the nine years after the enactment of Section 43072 of the Government Code, 73 general law cities transferred this function to the counties. The six remaining cities (all chartered) that maintain their own assessment and collection function are:

<i>City</i>	<i>County Location</i>	<i>City</i>	<i>County Location</i>
Alameda	Alameda	San Mateo	San Mateo
Piedmont	Alameda	Watsonville	Santa Cruz
Pasadena	Los Angeles	Marysville	Yuba

Explanation of asterisks in the accompanying tables will be found at the end of this publication.
