At the close of the fiscal year ended June 30, 1974 California cities numbered 411. The cities, exclusive of city-owned enterprises and bond funds, received revenue of $3,535,604,365 and expended $3,377,014,722 for cost of government.

During the same period, city-owned enterprises consisting of such services as water, electricity, gas, sewers, airports, bus systems, harbors, cemeteries, hospitals, parking districts and housing received income of $1,235,116,174 and incurred expenses of $992,269,725; in addition, these enterprises also expended $218,937,303 for capital outlays.

Also for the same period the aggregate expenditures from bond funds of cities and city-owned enterprises amounted to $312,949,863.

General city revenue of $3,535,604,365 represented an increase of $257,662,580 or 8 percent over that of the previous year.

General city revenue from locally imposed taxes amounted to $1,756,721,444 or nearly 50 percent of the total. The second largest source of funds was from federal, state and county governments which aggregated $976,426,330 or 28 percent of the total.

General property tax revenue of $862,992,685 reflected an increase of $2,694,936 or .3 percent over the prior year. Included within the general property taxes received for the fiscal year 1973-74 is $11,801,257 of general property taxes derived from thirty-one cities within Los Angeles County relating to library and fire protection services as a result of Gov't. Code Section 43073. This code section provides that cities within counties having a population of 6,000,000 or more may elect to levy a tax for library and fire protection services for the district which encompasses the city entirely within the territory of the district.

Historically, the majority of grants received from other governmental agencies have been restricted as to purpose for which they may be expended. These controls have been removed in the case of motor vehicle in lieu taxes, trailer coach fees and cigarette taxes which may now be spent for any local purpose. Gasoline tax grants may be expended only for the construction and maintenance of streets, roads, highways and the acquisition of rights-of-way. For the most part federal and county grants are reserved exclusively for specific purposes. As the City of San Francisco also performs the function of a county government the revenue structure for that city includes some 88 million dollars from state and federal sources for county purposes.

Alcoholic beverage license fees per Section 25761 of the Business and Professions Code are apportioned in the proportion that the amount of fees collected in each city and county bears to the total amount collected throughout the state.

Cigarette taxes per Section 30462 of the Revenue and Taxation Code to be apportioned are divided between cities and counties in the proportion that local sales tax distributed to each city and each county bears to the total of such local sales tax distributed in the previous calendar quarter. Fifty percent of the city's share is allocated in the proportion that the local sales tax revenue of each city bears to the total sales tax revenue of all the cities and the remaining fifty percent is allocated in the proportion that the population of each city bears to the total population of all the cities.

Motor vehicle licenses fees per Section 11003 of the Revenue and Taxation Code to be apportioned are divided equally between cities and counties. The allocation to cities is in the proportion that the population of each bears to the population of all cities.

Trailer coach fees per Section 11003.1 of the Revenue and Taxation Code are apportioned as follows: If the trailer coach is located in a city and any school district the allocation is one-third to the city, one-third to the school district, and one-third to the county. If located outside a city the allocation is one-half to the school district and one-half to the county.

Homeowners and business inventories property tax relief funds are a reimbursement from the state to all local agencies for the loss of property tax revenues by reason of homeowners and business inventories exemptions.

During the year under review, the revenue received for federal revenue sharing amounted to $172,329,537. City governments may use this revenue for expenditures that are ordinary and necessary. Capital expenditures are limited to those which are authorized by state and local laws. Operating and maintenance expenditures must be made within the following major categories; public safety, environmental protection, public transportation, health, recreation, social services for the poor and aged, financial administration and libraries.

Another segment of city revenue which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the State Vehicle Code. Specifically, such money may be used only for "traffic signs, signals and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, bridges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

Vehicle Code Fines	$56,152,359	$58,568,844
Other Fines	20,326,217	22,700,147

Total	$76,649,232	$81,397,064

Many city-owned enterprises have been financed for acquisition and improvement purposes through the issuance of bonds, a number of such bonds being purely revenue, i.e., the debt service to the bondholder is dependent (insofar as the bond agreements are concerned) solely on the sufficiency of revenue generated by the enterprise.

Another large segment of bonds for enterprise purposes are also self-liquidating from enterprise revenue; however, such bonds which are also secured by an unlimited property tax authorization are considered as general obligation bonds of the city. In the case of the latter, the debt service amounts provided by the enterprise for such bonds are considered as a revenue contribution from the enterprise and a subsequent general city expenditure for debt service. Of the total revenue received by the city as contributions from enterprises it is estimated that approximately one-half is considered as being within this category.

During the year under review, revenue was derived from a tax on users of utility services which is levied as a percentage of the billing charge. A survey indicates that in most of the cities which levy this tax, it applies to gas, electricity and telephone services and in some instances to cable television. The rates vary but in most instances are 5 percent.

Many cities levy a tax on the occupancy of a room in any lodging. This tax more commonly known as a hotel-motel bed tax does not apply if the period of occupancy is for more than 30 days. Another source of revenue was derived from a tax on the sale of real property. If the situs of the sale is in an unincorporated area or within a general law city which has not enacted a tax all of the revenue accrues to the county. If the situs is within a general law city which has enacted the tax or within a chartered city which has not enacted a tax pursuant to its charter the proceeds are shared equally by the city and county. If the situs is within a chartered city which has enacted a tax pursuant to its charter the revenue received pursuant to Revenue and Taxation Code Section 11911 would accrue to the county. Of the $11,578,252 reported as property transfer tax revenue $3,034,219 was received by chartered cities which enacted a tax pursuant to its charter.

During the year under review all cities had a local sales tax ordinance in effect, and also operative July 1, 1972, cities may file claims with the transportation planning agency for additional sales tax money to be used for restrictive street or transit purposes. The $548,311,935 reported by cities from these two sources constituted nearly 16 percent of total revenue. Dollarwise it is second only to property taxes in importance. For a number of years the relationship of sales tax revenue to property revenue has remained fairly constant. For the year under review sales taxes amounted to nearly 39 percent of the total of both sales and property taxes, representing a property tax equivalent of $1.17 on $100 assessed valuation.

Not all revenue from locally imposed sales taxes accrues to the city of sales situs. The Uniform Sales and Use Tax Law permitting county governments to levy a one cent sales tax has the effect of necessitating agreements between cities and counties as to the division of sales tax revenue collected within cities. These agreements vary and are subject to periodic adjustments. In addition to the agreements listed below which are formalized by local ordinances of cities and counties and by contract with the State Board of Equalization acting as collection agent, several counties have supplemental agreements with their cities in which a percentage of collections is returned to the city of sales situs.

General city expenditures during Fiscal Year 1973-74 amounted to $3,377,014,722 an increase of $347,977,884 or nearly 11 percent over that of the prior year. Of the total expenditures, $2,859,485,536 or 84 percent was for Current Expenses, $376,732,291 or 12 percent was for Fixed Assets (Capital Outlays) and $140,796,895 or nearly 4 percent for Debt Service.

In recent years the traditional paths to the financing of capital expenditures have undergone a number of changes. One of these has been the use of lease-purchase plans. While this method has been used to obtain expensive equipment, its special significance has been in the acquisition of real property. In one of its simplest forms it may consist of a nonprofit corporation organized for the sole purpose of building a structure on land owned by a governmental agency. The corporation may arrange for conventional financing which in turn is secured by a long-term lease with the agency which will use the facility. The terms of the lease are sufficient to retire the debt and at its expiration, title to the facility passes to the governmental agency. In a continuing survey it was reported that the money value of leases now in effect, and if continued to their termination, amounted to 699 million dollars.

Although chartered cities may establish their own limitations on bonded indebtedness, the large majority of them are the same as general law cities which are limited by the provisions of Section 43605 of the Government Code which states:

> "A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section 'indebtedness' means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

For reporting purposes a general obligation bond is one which is secured by the taxing powers of the city. In general practice many such bonds are redeemed through revenue not directly derived from property taxes, i.e., revenue from other sources such as sales taxes or generated through enterprise activities is used in lieu of a direct property tax for debt service. The impact of this procedure, however, has the same effect as a direct property tax as the net result is the reduction of available revenue which would otherwise apply against property tax needs for other purposes. For the year under review the debt service requirement was equivalent to a $0.29 property tax rate.

One of the seemingly inevitable results of the development of land use is the appearance of the assessment bond. Unlike its counterpart, the general obligation bond of the city, the assessment bond represents an unpaid assessment for public works, the cost of which is assessed against benefited property. Under the more widely used type of assessment bond the city has no obligation to the bondholder except to pass to him any money paid by the property owner. Under a lesser used type of assessment bond the city has a contingent liability in the case of delinquency to either advance the amount of the delinquency or levy a limited tax rate on the affected area. In the event of an advance, the funds are eventually returned to the city. At the end of the year under review, unmatured assessment bonds issued through city procedures amounted to some 255 million dollars.

City-owned enterprise income of $1,235,116,174 represented an increase of $138,403,847 or nearly 13 percent, over that of the prior year. Expenses of $992,269,725 were $80,989,969 or 9 percent higher than the previous period. Expenditures for fixed assets (capital outlays) amounted to $218,937,303, an increase of $43,067,708 from the prior year.

The net valuation of city assessment rolls for property tax purposes applicable to Fiscal Year 1974-75 amounted to $46,713,180,477 an increase of $4,005,427,751 over the prior year. Homeowners and Business Inventories exemptions amounted to $6,506,194,107. These exemptions are completely reimbursable by the state to the city for the resulting loss of property tax revenue. Taxes levied against the net valuation amounted to $947,729,733, an increase of $83,854,736 or nearly 10 percent.

The assessment of city taxes for Fiscal Year 1973-74 was accomplished on the tax rolls of the county for all except 5 cities. Instead of preparing separate assessment and tax bills and maintaining the detail records inherent in tax accounting, the vast majority of cities merely indicated to the counties the tax rate to be applicable for their assessment purposes; such taxes being assessed and collected in the same manner and with the same force and effect as county and school taxes. The five remaining cities (all chartered) that maintain their own assessment and collection function are:

City	*County Location*	*City*	*County Location*
Alameda	Alameda	Watsonville	Santa Cruz
Piedmont	Alameda	Marysville	Yuba
Pasadena	Los Angeles		

Any compensation paid to counties for such service is in accordance with Sections 51514 and 51561 of the Government Code, which provides that such compensation shall be fixed by agreement between the board of supervisors and the city legislative body. These sections also provide that for general law cities the charges so fixed shall not exceed one percent for collecting the first twenty-five thousand dollars ($25,000) and not more than one-fourth of one percent for all sums over that amount. In the case of chartered cities the compensation shall not exceed one-half of one percent of all money collected. Further a county having a population of 4,000,000 or more shall perform the assessment and collection services without compensation from the cities as provided by Section 51520 and 51562 of the Government Code if all of the cities in the county agree to use the county assessment roll and agree to permit the county to perform the assessment and collection functions.

Aside from the existing 411 cities whose financial transactions are detailed in this report, one new incorporation is noted as of date of record.
