INTRODUCTION

At the close of the fiscal year ended June 30, 1976 California cities numbered 413. The cities, exclusive of city-owned enterprises and bond funds, received revenue of $4,490,096,869 and expended $4,424,603,023 for cost of government.

During the same period, city-owned enterprises consisting of such services as water, electricity, gas, sewers, airports, bus systems, harbors, cemeteries, hospitals, parking districts, and housing received income of $1,701,998,920 and incurred expenses of $1,420,868,441; in addition, these enterprises also expended $241,254,348 for capital outlay.

During the same period, the aggregate expenditures from bond funds of cities and city-owned enterprises amounted to $448,055,912.

General city revenue of $4,490,096,869 represented an increase of $601,944,590 or 15.5 percent over that of the previous year.

General city revenue from locally imposed taxes amounted to $2,200,964,590 or nearly 50 percent of the total. The second largest source of funds was from federal, state and county governments which aggregated $1,345,001,217 or nearly 30 percent of the total.

General property tax revenue of $1,071,280,744 reflected an increase of $125,931,602 or 13.3 percent over the prior year. Included within the general property taxes received for the fiscal year 1975–76 is $24,862,197 of general property taxes derived from thirty-seven cities within Los Angeles County relating to library and fire protection services as a result of Govt. Code Section 43073. This code section provides that cities within counties having a population of 6,000,000 or more may elect to levy a tax for library and fire protection services if the district encompasses the city entirely.

Historically, the majority of grants received from other governmental agencies have been restricted as to the purpose for which they may be expended. These controls have been removed in the case of motor vehicle in lieu taxes, trailer coach fees, and cigarette taxes, all of which may now be spent for any local purpose. Gasoline tax grants may be expended only for the construction and maintenance of streets, roads, and highways and for the acquisition of rights-of-way. For the most part, federal and county grants are reserved exclusively for specific purposes. Because the City of San Francisco performs the dual function of city and county government, the revenue structure for that city includes approximately 82 million dollars from state and federal sources for county purposes.

During the year under review, the revenue received for federal revenue sharing amounted to $190,877,521. City governments may use this revenue for expenditures that are ordinary and necessary. Capital expenditures are limited to those which are authorized by state and local laws. Operating and maintenance expenditures must be made within the following major categories: public safety, environmental protection, public transportation, health, recreation, social services for the poor and aged, financial administration, and libraries.

Total	$1,072,245,070	$1,345,001,217

Another segment of city revenue which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the State Vehicle Code. Specifically, such money may be used only for "traffic signs, signals, and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, bridges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

Other Fines	23,363,140	27,874,405
Other Penalties	156,439	153,953
Total	$83,919,517	$90,318,842

During the year under review, revenue was derived from a tax on users of utility services. This tax is levied as a percentage of the billing charge. A survey indicates that in most of the cities which levy this tax, it applies to gas, electricity and telephone services, and in some instances to cable television. The rates vary but in most instances are 5 percent.

Another source of revenue was derived from a tax on the sale of real property. If the situs of the sale is in an unincorporated area or within a general law city which has not enacted a tax, all of the revenue accrues to the county. If the situs is within a general law city which has enacted the tax or within a chartered city which has not enacted a tax pursuant to its charter, the proceeds are shared equally by the city and county. If the situs is within a chartered city which has enacted a tax pursuant to its charter, the revenue received pursuant to Revenue and Taxation Code Section 11911 would accrue to the county. Of the $20,195,718 reported as property transfer tax revenue, $5,416,533 was received by chartered cities which enacted a tax pursuant to its charter.

During the year under review, all cities had a local sales tax ordinance in effect. As of July 1, 1972, cities may file claims with the transportation planning agency for additional sales tax money to be used for restrictive street or transit purposes.

The $674,903,588 reported by cities from these two sources constituted 15 percent of total revenue. Dollarwise, the sales tax is second only to property taxes. For a number of years the relationship of sales tax revenue to property tax revenue has remained fairly constant. For the year under review, sales taxes amounted to nearly 39 percent of the total sales and property taxes, representing a property tax equivalent of $1.12 on $100 assessed valuation.

Not all revenue from locally imposed sales taxes accrues to the city of sales situs. The Uniform Sales and Use Tax Law permitting county government to levy a one cent sales tax has the effect of necessitating agreements between cities and counties as to the division of sales tax revenue collected within the cities. These agreements vary and are subject to periodic adjustments. In addition to the agreements listed below which are formalized by local ordinances of cities and counties and by contract with the State Board of Equalization acting as collection agent, several counties have supplemental agreements with their cities in which a percentage of collections is returned to the city of sales situs.

General city expenditures during Fiscal Year 1975–76 amounted to $4,424,603,023. This was an increase of $505,702,208 or 13 percent over that of the prior year. Of the total expenditures, $3,768,171,226 or 85 percent, was for Current Expenses; $507,843,037 or 11.5 percent, was for Fixed Assets (Capital Outlays); $148,588,760 or 3.5 percent, was for Debt Service.

In recent years, the traditional paths to the financing of capital expenditures have undergone a number of changes. One of these has been the use of lease-purchase plans. While this method has been used to obtain expensive equipment, its special significance has been in the acquisition of real property. In one of its simplest forms, it may consist of a nonprofit corporation organized for the sole purpose of building a structure on land owned by a governmental agency. The corporation may arrange for conventional financing which is secured by a long-term lease with the agency which will use the facility. The terms of the lease are sufficient to retire the debt and at its expiration, title to the facility passes to the governmental agency. In a continuing survey, it was reported that the money value of leases now in effect amounted to 726.6 million dollars.

Although chartered cities may establish their own limitations on bonded indebtedness, a large majority adhere to the provisions of Section 43605 of the Government Code as do general law cities. The Code in part states:

"A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section 'indebtedness' means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

For reporting purposes, a general obligation bond is one which is secured by the taxing powers of the city. In general practice many such bonds are redeemed through revenue not directly derived from property taxes, i.e., revenue from other sources such as sales taxes or generated through enterprise activities in lieu of a direct property tax for debt service. The impact of this procedure, however, has the same effect as a direct property tax as the net result is the reduction of available revenue which would otherwise apply against property tax needs for other purposes. For the year under review the debt service requirement was equivalent to a $0.23 property tax rate.

One of the seemingly inevitable results of the development of land use is the appearance of the assessment bond. Unlike its counterpart, the general obligation bond of the city, the assessment bond represents an unpaid assessment for public works, the cost of which is assessed against benefited property. Under the more widely used type of assessment bond, the city has no obligation to the bondholder except to pass on to him any money paid by the property owner. Under a lesser used type of assessment bond, the city has a contingent liability, in the case of delinquency, to either advance the amount of the delinquency or levy a limited tax rate on the affected area. In the event of an advance, the funds are eventually returned to the city. At the end of the year under review, unmatured assessment bonds issued through city procedures amounted to a little over 330 million dollars.

City-owned enterprise income of $1,701,998,920 represented an increase of $269,210,870, or 18.8 percent, over that of the prior year. Expenses of $1,420,868,441 were $212,262,808 or nearly 18 percent higher than the previous period. Expenditures for fixed assets (capital outlays) amounted to $241,254,348, an increase of $2,193,536 over the prior year.

The net valuation of city assessment rolls for property tax purposes applicable to Fiscal Year 1976–77 amounted to $60,105,519,500, an increase of $7,643,704,939 over the prior year. Homeowners and Business Inventories exemptions amounted to $7,614,904,158. These exemptions are totally reimbursable by the state to the city for the resulting loss of property tax revenue. Taxes levied against the net valuation amounted to $1,233,430,482, an increase of $163,098,300 or slightly over 15 percent.

The assessment of city taxes for Fiscal Year 1975–76 was entered on the tax rolls of each county for all cities except four. Instead of preparing separate assessment and tax bills and maintaining the detail records inherent in tax accounting, the vast majority of cities merely indicated to the counties the tax rate to be applicable for their assessment purposes; such taxes being assessed and collected in the same manner and with the same force and effect as county and school taxes. The four remaining cities (all chartered) that maintain their own assessment and collection function are:

City	*County Location*	*City*	*County Location*
Alameda	Alameda	Pasadena	Los Angeles
Piedmont	Alameda	Watsonville	Santa Cruz

Aside from the existing 413 cities whose financial transactions are detailed in this report, one new incorporation is noted as of date of record.
