ANNUAL REPORT OF

FINANCIAL TRANSACTIONS

Concerning

CITIES OF CALIFORNIA

Fiscal Year 1977–78

COVER

PALMDALE CITY LIBRARY

Since July of 1977 the Palmdale City Library has been serving Antelope Valley residences from its new location. The building utilizes Spanish architecture and the exterior design is accented by an authentic Spanish style courtyard. A spiral stairway, cascading ferns, imported chandeliers and desert scenes depicted in the stain glass windows highlight the building's interior. The building covers 12,600 square feet and cost $512,000.

State Controller

NOTE

The information listed herein has been extracted from reports prepared by city fiscal officers; such reports, in most instances are not subject to audit by the State Controller.

A comprehensive analysis of revenues and expenditures as to comparability of cities is of questionable validity without due consideration to the existence of variations in accounting methods and practices as well as qualitative and quantitative differences in services rendered by each city. In an analysis of this type, it is advisable that referral be made to the cities involved if such factors might have a bearing on the material under consideration.

In cooperation with the League of California Cities, the California Society of Certified Public Accountants, and many city fiscal officers, this issue as well as issues of preceding fiscal years represents a major revision in the annual reporting of city financial transactions. Due to the revision, this report is not comparable in many aspects to reports pertaining to periods prior to Fiscal Year 1958–59.

The classifications and titles follow the basic pattern of the 'Chart of Accounts for California Cities' prepared by the California Committee on Municipal Accounting. Where applicable the definitions of accounts are as defined by the National Committee on Governmental Accounting.

FOREWORD

The financial transactions concerning the cities of California is published to assist those whose interests and decisions are dependent upon the financial information of the governmental accounting system. It is hoped that it will also be of use to the general public, composed of individual citizens, taxpayers and political groups who may be concerned with the cost of public services, and the adequacy of revenues in meeting such costs.

We extend our sincere appreciation to the many officials of cities for their contributions to this report.

INTRODUCTION

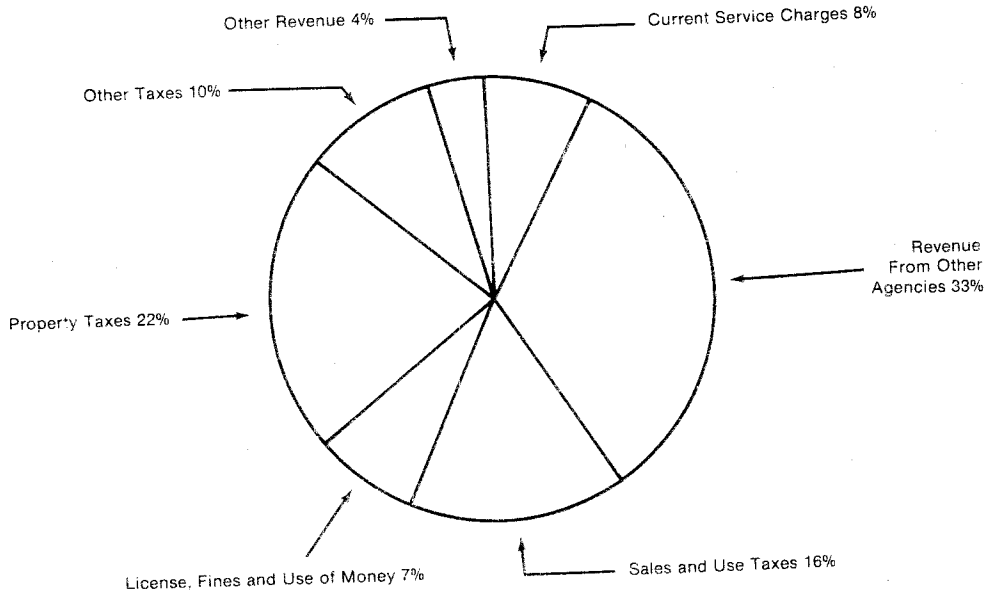

At the close of the fiscal year ended June 30, 1978 California cities numbered 417. The cities, exclusive of city–owned enterprises and bond funds, received revenue of $5,953,087,671 and expended $5,502,300,244 for cost of government.

During the same period, city–owned enterprises consisting of such services as water, electricity, gas, sewers, airports, transportation systems, harbors, cemeteries, hospitals, parking districts, and housing received income of $2,157,124,530 and incurred expenses of $1,893,787,899; in addition, these enterprises also expended $353,643,973 for capital outlay.

During the same period, the aggregate expenditures from bond funds of cities and city–owned enterprises amounted to $333,718,407.

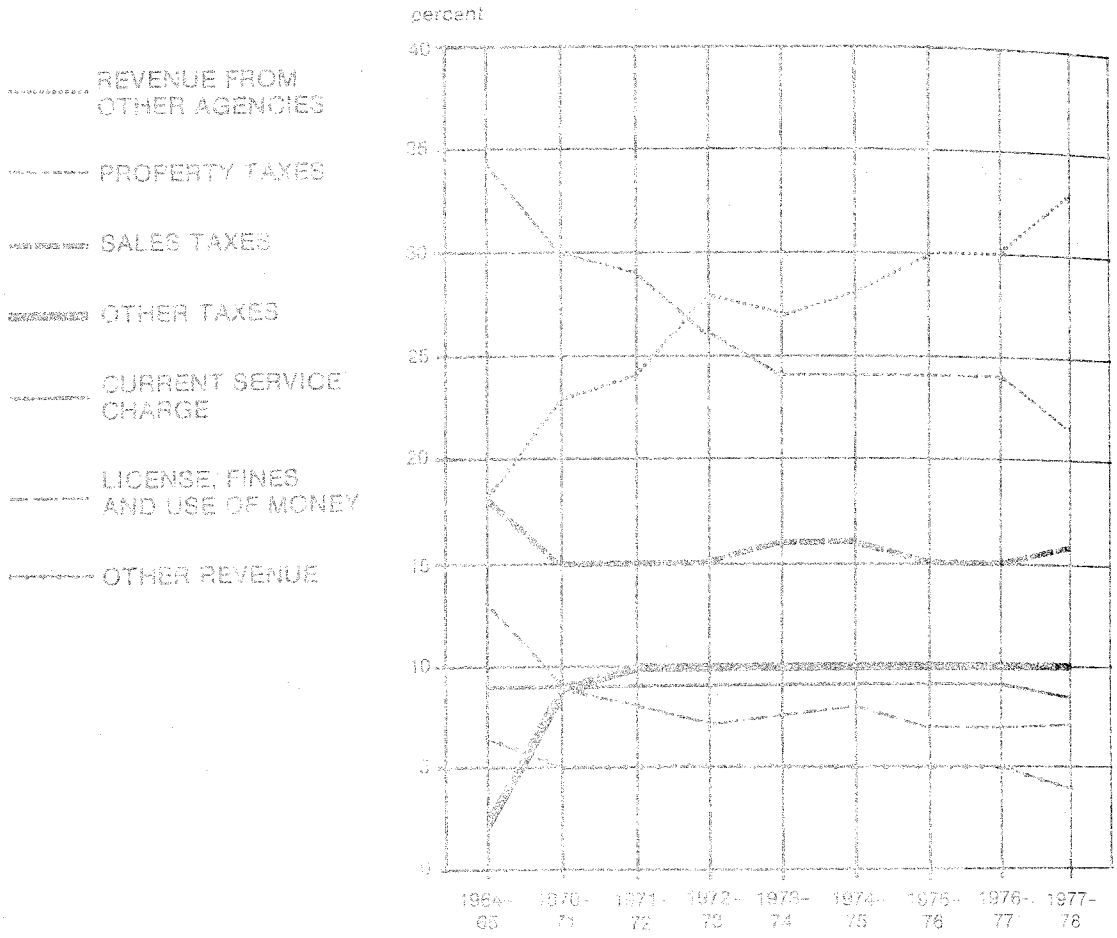

General city revenue of $5,953,087,671 represented an increase of $921,777,828 or 18.3 percent over that of the previous year.

General property tax revenue of $1,303,571,027 reflected an increase of $106,981,320 or 8.9 percent over the prior year. Included within the general property taxes received for the fiscal year 1977–78 is $26,897,096 of general property taxes derived from thirty–eight cities within Los Angeles County relating to library and fire protection services as a result of Govt. Code Section 43073. This code section provides that cities within counties having population of 6,000,000 or more may elect to levy a tax for library and fire protection services if the district encompasses the city entirely.

1977–78	1,303,571,027	8.94	21.90

During the year under review, all cities had a local sales tax ordinance in effect. The rate is a 1 percent sales and use tax on retail sales and other taxable transaction within the incorporated city limits. As of July 1, 1972, cities may file claims with the transportation planning agency for an additional 1/4 percent.

The 1 percent sales and use tax is not restricted as to the purpose for which they may be expended. The 1/4 percent transportation tax is restricted to street or transit purposes.

Not all revenue from locally imposed sales and use taxes accrues to the city. In some cities a percentage of the tax revenue collected within the city is shared with the county.

The $914,989,681 reported by cities from the transportation and sales and use tax constitute 15.4 percent of the total revenue of cities, representing a property tax equivalent of $1.25 on $100 assessed valuation.

SALES AND USE TAXES

	Amount	*Percentage Increase (or Decrease) Over Prior Year*	*Property Tax Equivalent on $100 of Assessed Valuation*
1964–65	$258,327,715	7.1	$0.99
1969–70	370,293,149	8.2	1.04
1974–75	607,293,149	10.8	1.16
1975–76	674,903,588	11.1	1.12
1976–77	778,119,974	15.3	1.13
1977–78	914,989,681	15.4	1.25

Another source of revenue was derived from a tax on the sale of real property; the rate is $0.55 per $500.00 of sale value for cities and counties except for those chartered cities which have enacted an additional tax pursuant to its charter. If a charter city enacted such a tax pursuant to its charter, all of the revenue received from the additional tax would accrue to the city. Of the $40,737,026 reported as property transfer tax revenue, $10,128,795 was received by chartered cities which enacted the additional tax. If the sale is within a city which does not impose a tax on transfers of real property, all of the revenue accrues to the county. If the sale is within a city which imposes a tax, this revenue would be shared equally by the city and county.

During the year under review, revenue was derived from a tax on users of utility services. This tax may only be levied by chartered cities and is a percentage of the billing charge. A survey indicates that in most of the chartered cities which levy this tax, it applies to gas, electricity and telephone services, and in some instances to cable television. The rates vary but in most instances are 5 percent.

Another segment of city revenue which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the State Vehicle Code. Specifically, such money may be used only for "traffic signs, signals, and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, bridges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

Total	$96,450,844	$100,914,725

Historically, the majority of grants received from other governmental agencies have been restricted as to the purpose for which they may be expended. These controls have been removed in the case of motor vehicle in lieu taxes, trailer coach fees, and cigarette taxes, all of which may now be spent for any local purpose. Gasoline taxes may be expended only for the construction and maintenance of streets, roads, and highways and for the acquisition of rights-of-way. For the most part, federal and county grants are reserved exclusively for specific purposes. Because the City of San Francisco performs the dual function of city and county government, the revenue structure for that city includes approximately 81 million dollars from state and federal sources for county purposes.

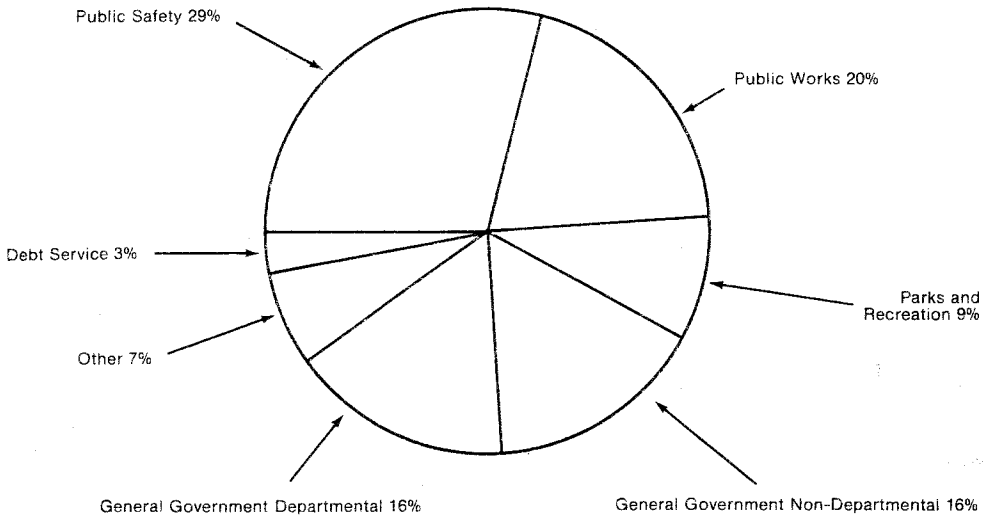

In 1972 the federal government began a program of revenue sharing with state and local government. This program was renewed in 1976 and will continue at least through 1980. Distribution of revenue-sharing funds is based on a formula which consider population, tax effort and relative per capita income. During the year under review, the revenue received for federal revenue sharing amounted to $219,800,214. City governments may use this revenue for expenditures that are ordinary and necessary. Capital expenditures are limited to those which are authorized by state and local laws. Operating and maintenance expenditures must be made within the following major categories: public safety, environmental protection, public transportation, health, recreation, social services for the poor and aged, financial administration, and libraries.

General city expenditures during Fiscal Year 1977–78 amounted to $5,502,300,244. This was an increase of $780,968,085 or 16.5 percent over that of the prior year. Of the total expenditures, $4,678,673,882 or 85.0 percent, was for Current Expenses; $676,615,219 or 12.3 percent, was for Fixed Assets (Capital Outlays); $147,011,143 or 2.7 percent, was for Debt Service.

LEASE – PURCHASE

In recent years, the traditional paths to the financing of capital expenditures have undergone a number of changes. One of these has been the use of lease–purchase plans. While this method has been used to obtain expensive equipment, its special significance has been in the acquisition of real property. In one of its simplest forms, it may consist of a nonprofit corporation organized for the sole purpose of building a structure on land owned by a governmental agency. The corporation may arrange for conventional financing which is secured by a long–term lease with the agency which will use the facility. The terms of the lease are sufficient to retire the debt and at its expiration, title to the facility passes to the governmental agency. In a continuing survey, it was reported that the money value of leases now in effect amounted to 2.826 billion dollars.

LEASE – PURCHASE

In recent years, the traditional paths to the financing of capital expenditures have undergone a number of changes. One of these has been the use of lease–purchase plans. While this method has been used to obtain expensive equipment, its special significance has been in the acquisition of real property. In one of its simplest forms, it may consist of a nonprofit corporation organized for the sole purpose of building a structure on land owned by a governmental agency. The corporation may arrange for conventional financing which is secured by a long–term lease with the agency which will use the facility. The terms of the lease are sufficient to retire the debt and at its expiration, title to the facility passes to the governmental agency. In a continuing survey, it was reported that the money value of leases now in effect amounted to 2.826 billion dollars.

BONDED INDEBTEDNESS

Although chartered cities may establish their own limitations on bonded indebtedness, a large majority adhere to the provisions of Section 43605 of the Government Code as do general law cities. The Code in part states:

"A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section 'indebtedness' means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

There are five basic types of bonds–General Obligation, Improvement Districts, Revenue, Limited Obligation and Assessment.

For reporting purposes, a general obligation bond is one which is secured by the taxing powers of the city. Many general obligation bonds can be redeemed through revenue not directly derived from property taxes, i.e., revenue from sources such as sales taxes or city-owned enterprises (water, electric, sewers, parking, etc.). Such revenue producing activities are used in lieu of a direct property tax for debt service.

This procedure, however, has the same effect as a direct property tax since available revenue which could be used to offset property tax needs for other purposes is reduced. For the year under review, this debt service requirement was equivalent to a $0.20 property tax rate.

Improvement district bonds are one whose principal and interest are payable from property taxes or assessments levied only on a less than city wide district, i.e., (parking district and sewer district).

Revenue bonds are ones whose principal and interest are payable from the revenues of a revenue-producing enterprise, i.e., transportation systems, harbors, airports, etc. However, the bond covenant may also include the provision that revenue for the bond may be acquired from sources other than the general fund of a local agency.

A limited obligation bond is one whose principal and interest are payable from any taxes other than property taxes or assessments levied by the local agency. However, if all revenue is to be received from another agency, the principal and interest of a limited obligation bond can be payable from any source of funds.

Assessment bonds are the result of the development of land use. Assessment bonds represent an unpaid assessment for public works, the cost of which is assessed against the benefited property owners. There are two types of improvement district bonds.

Under the more widely used type, the city has no obligation to the bondholder except to forward to him any money paid by the benefited property owners. Under the lesser used type, the city maintains a contingent liability. In the case of delinquent payments, the city can either advance the amount of the delinquency or levy a limited tax rate on the affected area. In the event of an advance, the funds are eventually returned to the city.

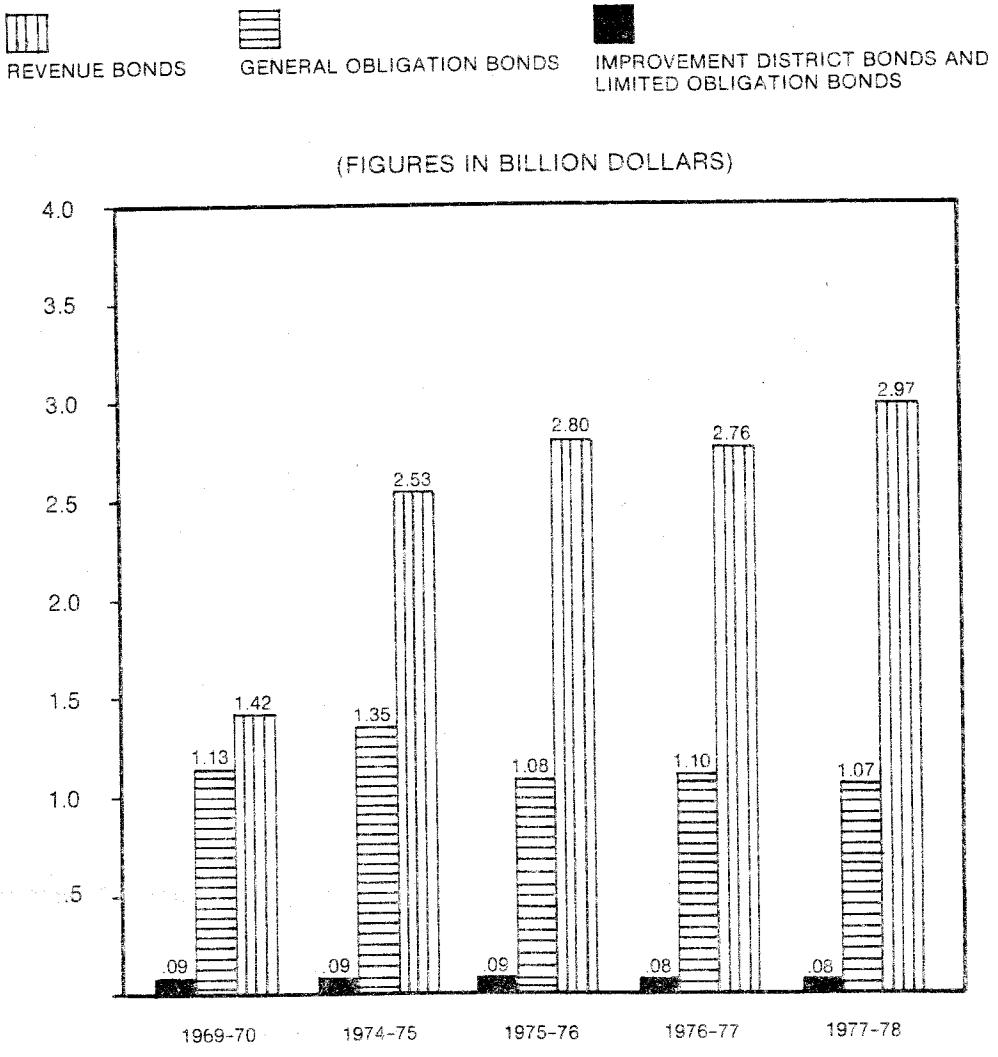

At the end of the year under review, unmatured assessment bonds issued by cities amounted to $363,422,545.

The bonded indebtedness of cities as of June 30, 1978 was $4,121,097,312 of which $1,063,755,579 was General Obligation Bonds representing 1.5 percent of the assessed valuation of the cities; Revenue Bonds amounted to $2,974,978,208, Improvement District Bonds $71,599,525, and Limited Obligation Bonds $8,764,600.

2—78479

The net valuation of city assessment rolls for property tax purposes applicable to Fiscal Year 1978–79 amounted to $73,392,629,572, an increase of $4,370,511,928 over the prior year.

As a result of the passage of Proposition 13, cities no longer have the power to levy a property tax rate. Proposition 13 has required a secured county wide property tax rate of $4.00 for all taxing entities (cities, school districts, special districts and county operations). The only additional taxes that may be levied by taxing entities, is for voter approved debt.

The property taxes allocated to cities in Fiscal Year 1978–79 from the secured $4.00 tax rate and the unsecured tax rate amounted to $452,124,604. Property taxes levied for voter approved debt in Fiscal Year 1978–79 amounted to $66,972,361.

Total property taxes from the secured, unsecured and voter approved debt in Fiscal Year 1978–79 amounted to $519,096,965, an decrease of $763,674,782 or 59.5 percent under that of the previous year.
