ANNUAL REPORT 1979-80

Financial Transactions Concerning

CITIES OF CALIFORNIA

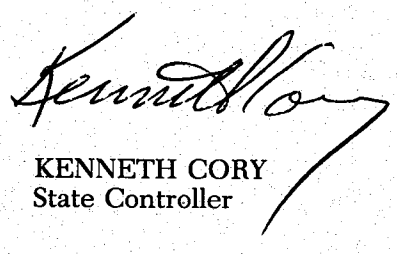

KENNETH CORY

State Controller

FOREWORD

The financial transactions concerning the cities of California is published to assist those whose interests and decisions are dependent upon the financial information of the governmental accounting system. It is hoped that it will also be of use to the general public composed of individual citizens, taxpayers and political groups who may be concerned with the cost of public services, and the adequacy of revenues in meeting such costs.

We extend our sincere appreciation to the many officials of cities for their contributions to this report.

INTRODUCTION

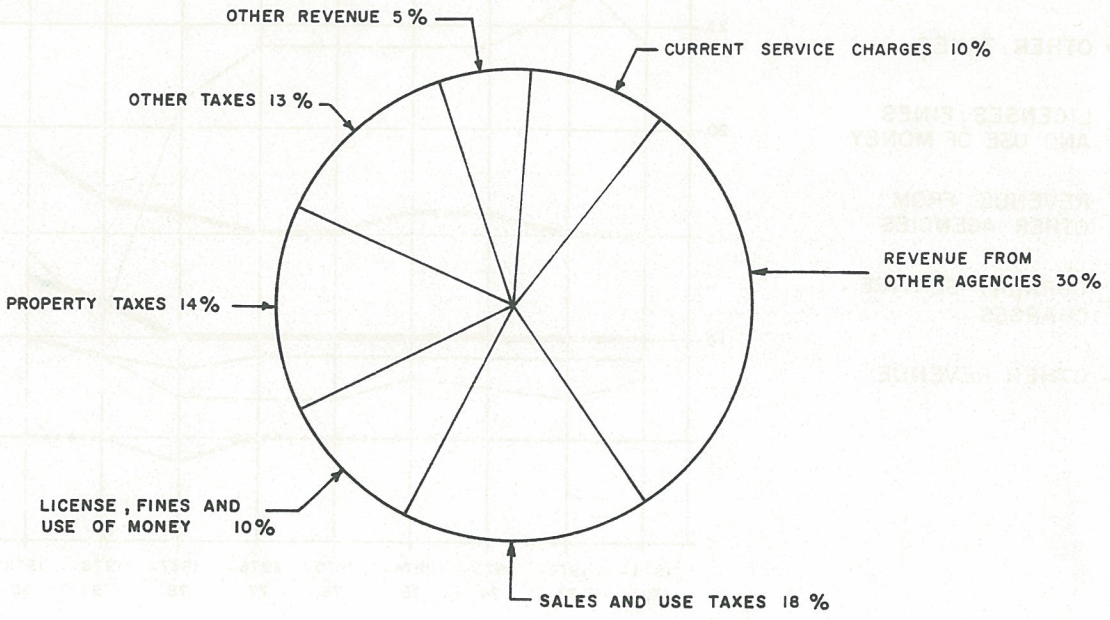

At the close of the fiscal year ended June 30, 1980 California cities numbered 422. The cities, exclusive of city–owned enterprises and bond funds, received revenue of $6,505,552,196 and expended $6,345,468,310 for cost of government.

During the same period, city–owned enterprises consisting of such services as water, electricity, gas, sewers, airports, transportation systems, harbors, cemeteries, hospitals, parking districts, and housing received income of $2,846,962,674 and incurred expenses of $2,314,978,140; in addition, these enterprises also expended $286,212,691 for capital outlay.

During the same period, the aggregate expenditures from bond funds of cities and city–owned enterprises amounted to $421,650,415.

General city revenue of $6,505,552,196 represented an increase of $466,362,804 or 7.7 percent over that of the previous year.

General property tax revenue of $913,816,823 reflected an increase of $274,579,722 or 43.0 percent over the prior year. Not included within the general property taxes received for the fiscal year 1979–80 is the general property taxes derived from thirty–eight cities within Los Angeles County relating to library and fire protection services. Government Code Section 43073 which is no longer in effect allowed cities within counties having population of 6,000,000 or more to levy a tax for library and fire protection services if the district encompasses the city entirely.

GENERAL PROPERTY TAXES

Year	Amount	Percentage Increase Over Prior Year	As a Percent of Total Revenue
1974–75	$945,349,142 [1]	9.54	24.31
1975–76	1,071,280,744 [1]	13.32	23.86

1979–80	913,816,823 [2]	42.95	14.05

1. General property taxes relating to cities within Los Angeles County for library and fire protection services under Government Code Section 43073. 1974–75 $18,100,911; 1975–76 $24,862,197; 1976–77 $29,106,984; 1977–78 $26,897,096.
2. General property taxes relating to cities within Los Angeles County for library and fire protection services not included, Government Code Section 43073 inoperative.

During the year under review, all cities had a local sales tax ordinance in effect. The rate is a 1 percent sales and use tax on retail sales and other taxable transactions within the incorporated city limits. As of July 1, 1972, cities may file claims with the transportation planning agency for an additional 1/4 percent.

The 1 percent sales and use tax is not restricted as to the purpose for which they may be expended. The 1/4 percent transportation tax is restricted to street or transit purposes.

Not all revenue from locally imposed sales and use taxes accrues to the city. In some cities a percentage of the tax revenue collected within the city is shared with the county.

The $1,190,936,734 reported by cities from the transportation and sales and use tax constitute 18.3 percent of the total revenue of cities, representing a property tax equivalent of $1.22 on $100 assessed valuation.

SALES AND USE TAXES

1978–79	1,040,289,288	$16,724,906 [1]	1,057,014,194	15.5	1.22
1979–80	1,190,936,734	45,311,347	1,236,248,081	17.0	1.27

1. Effective as of the 1978–79 fiscal year; the transportation tax, for transit purposes, is reported in Table 10. In prior years Transit reported under Sales and Use Taxes.

Another source of revenue was derived from a tax on the sale of real property; the rate is $0.55 per $500.00 of sale value for cities and counties except for those chartered cities which have enacted an additional tax pursuant to its charter. If a charter city enacted such a tax pursuant to its charter, all of the revenue received from the additional tax would accrue to the city. Of the $54,105,326 reported as property transfer tax revenue, $17,256,558 was received by chartered cities which enacted the additional tax. If the sale is within a city which does not impose a tax on transfers of real property, all of the revenue accrues to the county. If the sale is within a city which imposes a tax, this revenue would be shared equally by the city and county.

During the year under review, revenue was derived from a tax on users of utility services. This tax may only be levied by chartered cities and is a percentage of the billing charge. A survey indicates that in most of the chartered cities which levy this tax, it applies to gas, electricity and telephone services, and in some instances to cable television. The rates vary but in most instances are 5 percent.

Another segment of city revenue which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the State Vehicle Code. Specifically, such money may be used only for "traffic signs, signals, and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, bridges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

Historically, the majority of grants received from other governmental agencies have been restricted as to the purpose for which they may be expended. These controls have been removed in the case of motor vehicle in lieu taxes, trailer coach fees, and cigarette taxes, all of which may now be spent for any local purpose. Gasoline taxes may be expended only for the construction and maintenance of streets, roads, and highways and for the acquisition of rights–of–way. For the most part, federal and county grants are reserved exclusively for specific purposes.

In 1972 the federal government began a program of revenue sharing with state and local government. This program was renewed in 1976 and will continue at least through 1980. Distribution of revenue–sharing funds is based on a formula which considers population, tax effort and relative per capita income. During the year under review, the revenue received for federal revenue sharing amounted to $236,695,093. City governments may use this revenue for expenditures that are ordinary and necessary. Capital expenditures are limited to those which are authorized by state and local laws. Operating and maintenance expenditures must be made within the following major categories: public safety, environmental protection, public transportation, health, recreation, social services for the poor and aged, financial administration, and libraries.

LEASE – PURCHASE

In recent years, the traditional paths to the financing of capital expenditures have undergone a number of changes. One of these has been the use of lease–purchase plans. While this method has been used to obtain expensive equipment, its special significance has been in the acquisition of real property. In one of its simplest forms, it may consist of a nonprofit corporation organized for the sole purpose of building a structure on land owned by a governmental agency. The corporation may arrange for conventional financing which is secured by a long–term lease with the agency which will use the facility. The terms of the lease are sufficient to retire the debt and at its expiration, title to the facility passes to the governmental agency. In a continuing survey, it was reported that the money value of leases now in effect amounted to 987.8 million dollars.

BONDED INDEBTEDNESS

Although chartered cities may establish their own limitations on bonded indebtedness, a large majority adhere to the provisions of Section 43605 of the Government Code as do general law cities. The Code in part states:

"A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section 'indebtedness' means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

There are five basic types of bonds–General Obligation, Improvement Districts, Revenue, Limited Obligation and Assessment.

For reporting purposes, a general obligation bond is one which is secured by the taxing powers of the city. Many general obligation bonds can be redeemed through revenue not directly derived from property taxes, i.e., revenue from sources such as sales taxes or city–owned enterprises (water, electric, sewers, parking, etc.). Such revenue producing activities are used in lieu of a direct property tax for debt service.

This procedure, however, has the same effect as a direct property tax since available revenue which could be used to offset property tax needs for other purposes is reduced. For the year under review, this debt service requirement was equivalent to a $0.15 property tax rate.

Improvement district bonds are those in which principal and interest are payable from property taxes or assessments levied only on a less than city wide district, i.e., (parking district and sewer district).

Revenue bonds are those in which principal and interest are payable from the revenues of a revenue–producing enterprise, i.e., transportation systems, harbors, airports, etc. However, the bond covenant may also include the provision that revenue for the bond may be acquired from sources other than the general fund of a local agency.

A limited obligation bond is one in which principal and interest are payable from any taxes other than property taxes or assessments levied by the local agency. However, if all revenue is to be received from another agency, the principal and interest of a limited obligation bond can be payable from any source of funds.

Assessment bonds are the result of the development of land use. Assessment bonds represent an unpaid assessment for public works, the cost of which is assessed against the benefited property owners. There are two types of improvement district bonds.

Under the more widely used type, the city has no obligation to the bondholder except to forward to him any money paid by the benefited property owners. Under the lesser used type, the city maintains a contingent liability. In the case of delinquent payments, the city can either advance the amount of the delinquency or levy a limited tax rate on the affected area. In the event of an advance, the funds are eventually returned to the city.

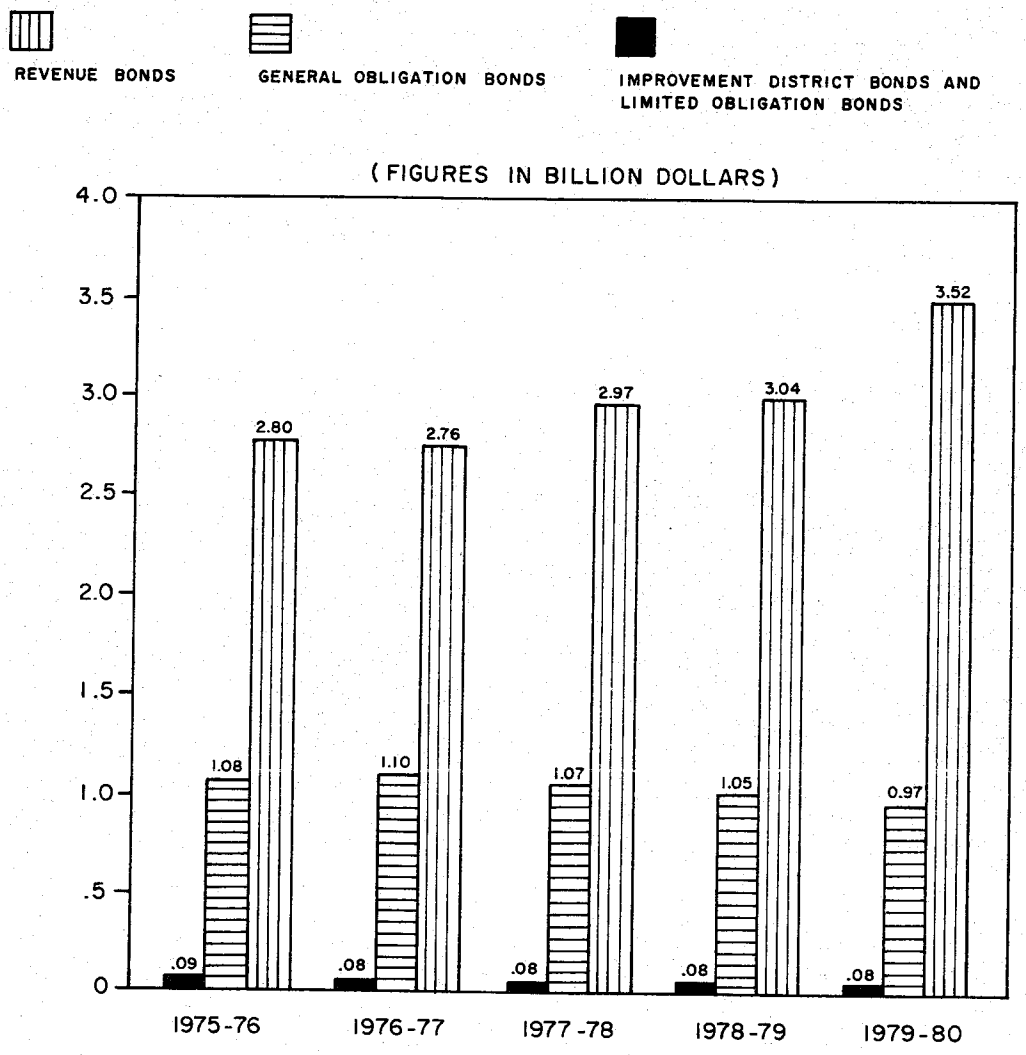

At the end of the year under review, unmatured assessment bonds issued by cities amounted to $432,227,619.

The bonded indebtedness of cities as of June 30, 1980 was $4,578,522,132 of which $971,852,414 was General Obligation Bonds representing 1.0 percent of the assessed valuation of the cities; Revenue Bonds amounted to $3,524,038,867, Improvement District Bonds $74,605,851 and Limited Obligation Bonds $8,025,000.

The net valuation of city assessment rolls for property tax applicable to 1980–81 fiscal year amounted to $97,239,831,205 an increase of $10,866,934,618 over the prior year.

As a result of Proposition 13 which became effective for the 1978–79 tax year, cities no longer have the authority to levy a property tax rate except for voter approved debt. The county now levies a $4.00 county wide tax rate per $100.00 of assessed valuation, and allocates the resulting amount to the cities, school districts, special districts, and county operations.

The allocation for the 1979–80 fiscal year was made pursuant to Government Code Section 26912 which provided that each local agency's share of the 1979–80 $4.00 levy would be in proportion to their share of the total levies in the county for the average of the previous three fiscal years.

The allocation for the 1980–81 fiscal year was made pursuant to the Revenue and Taxation Code, Part 0.5, Chapter 6. This chapter provides that each city will be allocated their share of the county wide $4.00 levy which will equal (1) their share of the $4.00 levy received in the prior fiscal year, (2) 82.91% of the 1978–79 state bailout apportioned to them, and (3) their share of the assessed valuation growth over the prior year for the applicable tax code areas, multiplied by $4.00 per $100 of the assessed valuation.

The property taxes allocated to cities in Fiscal Year 1980–81 from the $4.00 secured and unsecured tax rate amounted to $913,937,480. Property taxes levied for voter approved debt in Fiscal Year 1980–81 amounted to $93,585,921.

Total property taxes from the secured, unsecured and voter approved debt in Fiscal Year 1980–81 amounted to $1,007,523,401, an increase of $107,625,601 or 12.0 percent over that of the previous year.
