COVER

Fairfield's first demonstration wind turbine project, dedicated November 2, 1981, is funded jointly by the California Energy Commission and the City of Fairfield. The Commission is providing $110,000 in funding for the wind turbine generator, site preparation, performance monitoring equipment, and a public information display. The City is providing $30,000 in funding and has managed project installation, acceptance testing, and day-to-day operation and maintenance.

FOREWORD

The financial transactions concerning the cities of California is published to assist those whose interests and decisions are dependent upon the financial information of the governmental accounting system. It is hoped that it will also be of use to the general public composed of individual citizens, taxpayers and political groups who may be concerned with the cost of public services, and the adequacy of revenues in meeting such costs.

The information listed herein has been extracted from reports prepared by city fiscal officers; such reports, in most instances, are not subject to audit by the State Controller.

A comprehensive analysis of revenues and expenditures as to comparability of cities is of questionable validity without due consideration to the existence of variations in accounting methods and practices as well as qualitative and quantitative differences in services rendered by each city. In an analysis of this type, it is advisable that referral be made to the cities involved if such factors might have a bearing on the material under consideration.

In cooperation with the League of California Cities, the California Society of Certified Public Accountants, and many city fiscal officers, this issue as well as issues of preceding fiscal years represents a major revision in the annual reporting of city financial transactions. Due to the revision, this report is not comparable in many aspects to reports pertaining to periods prior to Fiscal Year 1958–59.

The classifications and titles follow the basic pattern of the 'Chart of Accounts for California Cities" prepared by the California Committee on Municipal Accounting. Where applicable the definitions of accounts are as defined by the National Committee on Governmental Accounting.

We extend our sincere appreciation to the many officials of cities for their contributions to this report.

KENNETH CORY
State Controller

INTRODUCTION

At the close of the fiscal year ended June 30, 1981 California cities numbered 426. The cities, exclusive of city–owned enterprises and bond funds, received revenue of $7,186,440,577 and expended $6,852,550,846 for cost of government.

During the same period, city–owned enterprises consisting of such services as water, electricity, gas, sewers, airports, transportation systems, harbors, cemeteries, hospitals, parking districts, and housing received income of $3,623,881,467 and incurred expenses of $3,041,607,065; in addition, these enterprises also expended $455,610,543 for capital outlay.

During the same period, the aggregate expenditures from bond funds of cities and city–owned enterprises amounted to $409,028,529.

General City Revenue

(Exclusive of City–Owned Enterprises and Bond Funds)

General city revenue of $7,186,440,577 represented an increase of $680,888,381 or 10.5 per cent over that of the previous year.

General Property Taxes

General property tax revenue of $1,029,998,138 reflected an increase of $116,181,315 or 12.7 per cent over the prior year. General property taxes includes the allocation of the 1 per cent tax rate and voter approved debt for current year secured and unsecured, prior year secured and unsecured, other property taxes and interest and penalties on property taxes.

1. General property taxes relating to cities within Los Angeles County for library and fire protection services under Government Code Section 43073. 1974–75 $18,100,911; 1975–76 $24,862,197; 1976–77 $29,106,984; 1977–78 $26,897,096.
2. General property taxes relating to cities within Los Angeles County for library and fire protection services not included.
3. 1978–79 The major reduction was due to the passage of Proposition 13.

Sales and Use Taxes

During the year under review, all cities had a local sales tax ordinance in effect. The rate is a 1 per cent sales and use tax on retail sales and other taxable transactions within the incorporated city limits. As of July 1, 1972, cities may file claims with the transportation planning agency for an additional 1/4 per cent.

The 1 per cent sales and use tax is not restricted as to the purpose for which they may be expended. The 1/4 per cent transportation tax is restricted to street or transit purposes.

Not all revenue from locally imposed sales and use taxes accrues to the city. In some cities a percentage of the tax revenue collected within the city is shared with the county.

The $1,319,450,716 reported by cities for transportation and sales and use tax, an increase of 7.1 per cent over the prior year, represents a property tax equivalent of $0.29 on $100 assessed valuation.

Year	*Sales and Use Taxes*	*Transit* [1]	*Total*	*Percentage Increase (or Decrease) Over Prior Year*	*Property Tax Equivalent on $100 of Assessed Valuation* [2]
1974–75	$607,264,616		$607,264,616	10.8	1.16
1975–76	674,903,588		674,903,588	11.1	1.12

1980–81	1,267,615,375	51,835,341	1,319,450,716	7.1	0.29

1. Effective as of the 1978–79 fiscal year; the transportation and sales and use tax, for transit purposes, is reported in Table 10. In prior years Transit was reported under Sales and Use Taxes.
2. In accordance with Section 135(a) of the Revenue and Taxation Code, "Assessed Value" shall mean 25 per cent of full value to and including the 1980–81 fiscal year, and shall mean 100 per cent of full value for the 1981–82 fiscal year and fiscal years thereafter.

Other Taxes

Another source of revenue was derived from a tax on the sale of real property; the rate is $0.55 per $500.00 of sale value for cities and counties except for those chartered cities which have enacted an additional tax pursuant to its charter. If a charter city enacted such a tax pursuant to its charter, all of the revenue received from the additional tax would accrue to the city. Of the $51,571,558 reported as property transfer tax revenue, $41,732,613 was received by chartered cities which enacted the additional tax. If the sale is within a city which does not impose a tax on transfers of real property, all of the revenue accrues to the county. If the sale is within a city which imposes a tax, this revenue would be shared equally by the city and county.

Utility Users Tax

During the year under review, revenue was derived from a tax on users of utility services. This tax may only be levied by chartered cities and is a percentage of the billing charge. A survey indicates that in most of the chartered cities which levy this tax, it applies to gas, electricity and telephone services, and in some instances to cable television. The rates vary but in most instances are 7 per cent.

Fines and Penalties

Another segment of city revenue which is restrictive in use pertains to money received from fines and forfeitures as a result of violations of the State Vehicle Code. Specifically, such money may be used only for "traffic signs, signals, and other traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement or construction of public streets, bridges and culverts within such city, but such fund shall not be used to pay the compensation of traffic or other police officers."

Total	$129,894,029	$155,941,142

Revenue From Other Governmental Agencies

Historically, the majority of grants received from other governmental agencies have been restricted as to the purpose for which they may be expanded. These controls have been removed in the case of motor vehicle in lieu taxes, trailer coach fees, and cigarette taxes, all of which may now be spent for any local purpose. Gasoline taxes may be expended only for the construction and maintenance of streets, roads, and highways and for the acquisition of rights–of–way. For the most part, federal and county grants are reserved exclusively for specific purposes.

In 1972 the federal government began a program of revenue sharing with state and local government. This program was renewed in 1980 and will continue at least through September 1982. Distribution of revenue–sharing funds is based on a formula which considers population, tax effort and relative per capita income. During the year under review, the revenue received for federal revenue sharing amounted to $262,810,619. City governments may use this revenue for expenditures that are ordinary and necessary. Capital expenditures are limited to those which are authorized by state and local laws. Operating and maintenance expenditures must be made within the following major categories: public safety, environmental protection, public transportation, health, recreation, social services for the poor and aged, financial administration, and libraries.

Lease – Purchase

In recent years, the traditional paths to the financing of capital expenditures have undergone a number of changes. One of these has been the use of lease–purchase plans. While this method has been used to obtain expensive equipment, its special significance has been in the acquisition of real property. In one of its simplest forms, it may consist of a nonprofit corporation organized for the sole purpose of building a structure on land owned by a governmental agency. The corporation may arrange for conventional financing which is secured by a long–term lease with the agency which will use the facility. The terms of the lease are sufficient to retire the debt and at its expiration, title to the facility passes to the governmental agency. In a continuing survey, it was reported that the money value of leases now in effect amounted to 1.05 billion dollars.

Bonded Indebtedness

Although chartered cities may establish their own limitations on bonded indebtedness, a large majority adhere to the provisions of Section 43605 of the Government Code as do general law cities. The Code in part states:

"A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 per cent of the assessed value of all real and personal property of the city. Within the meaning of this section 'indebtedness' means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

There are five basic types of bonds–General Obligation, Improvement Districts, Revenue, Limited Obligation and Assessment.

For reporting purposes, a general obligation bond is one which is secured by the taxing powers of the city. Many general obligation bonds can be redeemed through revenue not directly derived from property taxes, i.e., revenue from sources such as sales taxes or city–owned enterprises (water, electric, sewers, parking, etc.). Such revenue producing activities are used in lieu of a direct property tax for debt service.

This procedure, however, has the same effect as a direct property tax since available revenue which could be used to offset property tax needs for other purposes is reduced. For the year under review, this debt service requirement was equivalent to a $0.03 property tax rate, based on assessed valuation at full value.

Improvement district bonds are those in which principal and interest are payable from property taxes or assessments levied only on a less than city wide district, i.e., (parking district and sewer district).

Revenue bonds are those in which principal and interest are payable from the revenues of a revenue–producing enterprise, i.e., transportation systems, harbors, airports, etc. However, the bond covenant may also include the provision that revenue for the bond may be acquired from sources other than the general fund of a local agency.

A limited obligation bond is one in which principal and interest are payable from any taxes other than property taxes or assessments levied by the local agency. However, if all revenue is to be received from another agency, the principal and interest of a limited obligation bond can be payable from any source of funds.

Assessment bonds are the result of the development of land use. Assessment bonds represent an unpaid assessment for public works, the cost of which is assessed against the benefited property owners. There are two types of improvement act bonds.

Under the more widely used type, the city has no obligation to the bondholder except to forward to him any money paid by the benefited property owners. Under the lesser used type, the city maintains a contingent liability. In the case of delinquent payments, the city can either advance the amount of the delinquency or levy a limited tax rate on the affected area. In the event of an advance, the funds are eventually returned to the city.

At the end of the year under review, unmatured assessment bonds issued by cities amounted to $494,671,595.

The bonded indebtedness of cities as of June 30, 1981 was $4,803,259,535 of which $904,040,879 was General Obligation Bonds representing .2 per cent of the assessed valuation of the cities; Revenue Bonds amounted to $3,822,616,871, Improvement District Bonds $76,026,785 and Limited Obligation Bonds $575,000.

City Assessed Valuation, Taxes Levied, Taxes Allocated, and Average Property Tax Effort

The net valuation of city assessment rolls for property tax applicable to 1981–82 fiscal year amounted to $447,765,848,675 an increase of $58,806,523,855 over the prior year. The increase is based on the 1980–81 Net Assessed Valuation inflated to full value from 25 per cent of full value for comparability.

As a result of Proposition 13 which became effective for the 1978–79 tax year, cities no longer have the authority to levy a property tax rate except for voter approved debt. The county now levies a 1 per cent county wide tax rate per $100.00 of assessed valuation, and allocates the resulting amount to the cities, school districts, special districts, and county operations.

The allocation for the 1978–79 fiscal year was made pursuant to Government Code Section 26912 which provided that each local agency's share of the 1978–79 1 per cent levy would be in proportion to their share of the total levies in the county for the average of the previous three fiscal years.

The allocation for the 1979–80, 1980–81 and 1981–82 fiscal years was made pursuant to the Revenue and Taxation Code, Part 0.5, Chapter 6. This chapter provides that each city will be allocated their share of the county wide 1 per cent levy which will equal (1) their share of the 1 per cent levy received in the prior fiscal year, (2) 82.91 per cent of the 1978–79 state bailout apportioned to them, and (3) their share of the assessed valuation growth over the prior year for the applicable tax code areas, multiplied by 1 per cent per $100 of the assessed valuation.

The property taxes allocated to cities in Fiscal Year 1981–82 from the 1 per cent secured and unsecured tax rate amounted to $1,027,744,172. Property taxes levied for voter approved debt in Fiscal Year 1981–82 amounted to $99,654,379.

Total property taxes from the secured, unsecured and voter approved debt in Fiscal Year 1981–82 amounted to $1,127,398,551, an increase of $119,875,150 or 11.9 per cent over that of the previous year.
