FOREWORD

The 80th publication of Financial Transactions concerning Cities of California presents a compilation of financial data pertinent to the operations of city government. We are hopeful such information will be useful to all parties interested in the cost of providing public services as well as the means of financing services.

Government Code Section 12463 directs the State Controller to annually compile and publish the financial transactions of cities. The code authorizes the State controller to prescribe the time, form and manner of the reports.

The information listed here has been extracted from reports prepared by city fiscal officers. such reports, in most instances, are not subject to audit by the State Controller.

We wish to express our sincere thanks to everyone who has been instrumental in making this publication a more useful and informative one.

PURPOSE AND USE OF BOOK

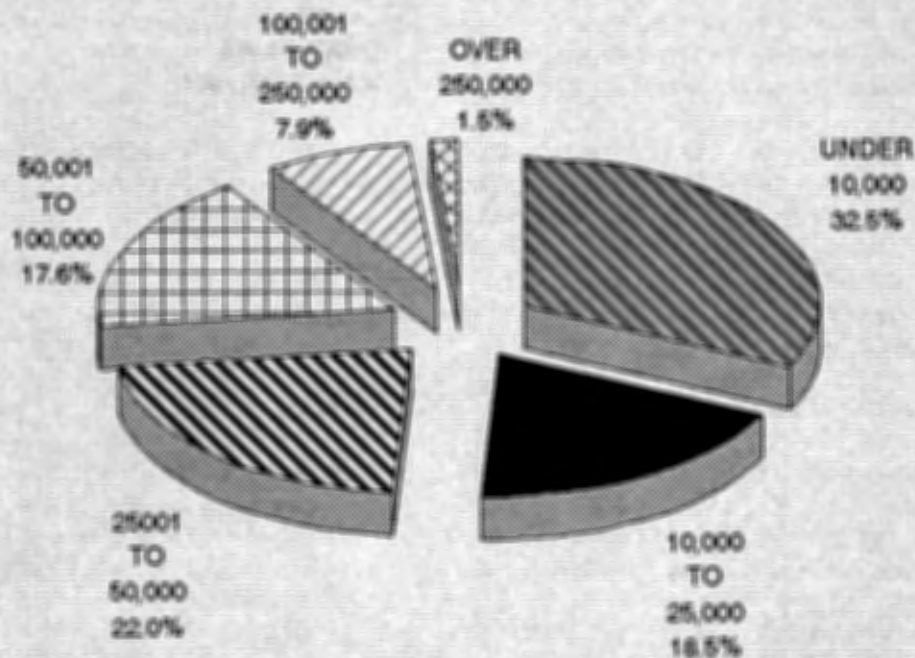

The purpose of this publication is to enhance the usefulness to readers interested in comparison studies. This publication presents information pertaining to revenues and expenditures, and groups this data according to the cities' estimated population. The reader thus will be able to compare city revenues and/or expenditures to other similar population-sized cities and make comparisons between individual cities of the same population, to smaller or larger population groups and to the state total.

The population group classification, number of cities in each group, and percentage of cities in each group are as follows:

Cities of California (Excluding the City and County of San Francisco)

Group Classification	Number of Cities in Group Classification 1989-89	Number of Cities in Group Classification 1989-90	Percentage of Cities in Each Group 1989-90	Percentage Increase or (Decrease) Over Prior Year

Percentage of Cities in Each Population Group (Excluding the City and County of San Francisco)

PURPOSE AND USE OF BOOK - Continued

In order to find data pertaining to a particular city, the reader should locate the population group in which the city is grouped by referring to Table 1. Table 1 provides an alphabetical listing of cities and the population group classification to which it belongs. Further, due to population changes, cities may be reclassified from one population group to another between reporting periods.

After the determination of the population group classification, the cities revenues, expenditures and long-term debt, can be located on the appropriate table by the use of the table of contents.

It should be noted, that the City and County of San Francisco is not included in any population group classification. Due to its nature of being a city and county entity, the inclusion of the City and County of San Francisco would not lead to any comparable basis in relation to other cities. Data regarding San Francisco is shown at the end of the revenue and expenditure tables. State totals for these tables are shown exclusive and inclusive of the City and County of San Francisco.

This publication provides five types of data, which includes: (1) general information, (2) revenues, (3) expenditures, (4) long-term indebtedness, and (5) appropriation limits and total annual appropriations subject to the limit.

Table 1 presents an alphabetical listing of cities. Each city contains data concerning: (1) population group classification, (2) population (current estimated population and the 1980 federal census figures), (3) county location, and (4) whether they are general law or chartered cities.

Tables 2-7 include revenues from cities and are categorized as functional or general revenues. Functional revenues are revenues generated from direct services or those associated with a specific service by external requirements; general revenues are revenues that cannot be associated with a specific service.

In reviewing the revenue tables, the reader should take into consideration these points: (1) revenues from general government and city-owned enterprises are consolidated within these tables, (2) total revenues do not reflect special assessments (Improvement Acts 1911, 1915, or other), internal service funds, pension trusts, and agency transactions.

Tables 2-7 include expenditures from general government and city-owned enterprise activities. The components of expenditures presented in these tables are operating expenditures and capital outlay. Operating expenditures include debt service and excludes depreciation expense from enterprise funds.

Footnote information will follow specific activities which will provide the reader with data concerning services being provided within a particular city. In addition, these tables provide data on current assessed valuation and property taxes allocated and levied.

Tables 2-7 presents two cities per page by population group classification.

Tables 8-13 present data regarding government financing provided from outstanding long-term indebtedness as of June 30, 1990. Additional information on bonded indebtedness, future lease payments, financing obligations provided by Federal or State agencies, and special assessment acts are provided for each city. Debt which was retired during the reporting period is also included in these tables.

At the conclusion of Tables 2-13, there is a population group summary. The summary includes the following for each population group: (1) total number of cities within the group, (2) total revenues and expenditures, (3) summary of revenues and expenditures as a percent of the State total (excluding the City and County of San Francisco).

Table 14 presents appropriation limits and total annual appropriations subject to the limit as of June 30, 1990, for all cities in California, including the City and County of San Francisco. The information is unaudited and is presented as submitted.

DEFINITIONS AND TERMINOLOGY

Capital Outlay

Expenditures which result in the acquisition of, or addition to fixed assets.

Functional Revenue

Those revenues that can be associated with and allocated to one or more expenditure functions and meet one of the following criteria: (1) The revenue is generated from direct services, such as revenues from fees or charges, (2) The revenue is associated with a specific service by external requirements, such as grant conditions, bond sale agreements, statutory or charter requirements.

General Obligation Bonds

Bonds for whose payment the full faith and credit of the issuing city are pledged. More commonly, but not necessarily, general obligations bonds are considered to be those payable from taxes and other general revenues.

Limited Obligation Bonds

Bonds in which principal and interest are payable from any revenue source (i.e., ad valorem property taxes, sales taxes, etc.) which are designated by the legislative body as "Pledged Revenue" for retiring the bonds. These bonds require the approval of 2/3 of the voters who voted on the proposition, and would specify the maximum rate of interest which could be paid on the bonds.

Management and Support

Expenditures related to activities which are supportive of functional activities. Types of activities which represent support services may include general city administration (city manager or administrator), financial administration (accounting, budgeting, purchasing, and cash management), and personnel administration (including civil service commission). Other administrative activities such as warehousing and data processing may also be included if not accounted for as an internal service fund.

Included are general fund billings to enterprise operations for general and administrative services.

Revenue Bonds

Bonds whose principal and interest are payable from the revenues of a revenue producing enterprise. However, the bond covenant may also include the provision that revenue from the bond may be acquired from sources other than the general fund of a local agency.

Special Assessment Bonds

Bonds payable from proceeds of special assessments which are a compulsory levy against certain properties to defray part or all of the costs of improvements or services deemed to primarily benefit those properties.

Special Benefit Assessments

Assessments or levies which are paid completely by property owners in a limited geographical area deemed to be specially benefited.

Voter Approved Property Tax for Indebtedness

OUTSTANDING LONG-TERM INDEBTEDNESS

For the fiscal year ended June 30, 1990, the total outstanding long term indebtedness amounted to \$18,186,378,332, an increase of \$2,070,537,094 or 12.85 percent over the prior year. The City and County of San Francisco is not included in the State total.

Long-Term Indebtedness - Bonds

Chartered cities may establish their own limitations on bonded indebtedness, although a large majority adhere to the provisions of Section 43605 of the Government Code as do general law cities. This code in part states:

"A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property, of the city. Within the meaning of this section "indebtedness" means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city."

For the year under review, total outstanding bonded indebtedness for cities amounted to \$6,445,291,225, an increase of \$618,906,476 or 10.62 percent over the prior year.

Bonded indebtedness includes: (1) general obligation, (2) revenue, (3) improvement districts, and (4) limited obligation.

A general obligation bond is one which is secured by the taxing powers of the city. Many general obligation bonds may be redeemed through revenues not directly derived from property taxes, but from sources such as sales tax or city-owned enterprises (i.e., water, electric, sewers, parking, etc.). Such revenue producing activities are used in-lieu of a direct property tax for debt service.

General obligation bonds amounted to \$419,513,382 or 6.51 percent of the total outstanding bonded indebtedness, an increase of \$52,875,248 or 14.42 percent over the prior year.

Revenue bonds are those obligations in which principal and interest are payable by revenue producing enterprises, (i.e., electricity, water, sewers, etc.) or if specified in the bond covenant from other sources. Revenue bonds outstanding for the fiscal year 1989-90 amounted to \$5,950,569,640 or 92.32 percent of the total outstanding bonded indebtedness, an increase of \$549,195,223 or 10.17 percent over the prior year.

Improvement district bonds whose principal and interest are payable from property taxes or assessments levied on less than city wide districts (i.e., parking and sewer districts), amounted to \$75,118,203 or 1.17 percent of the total outstanding bonded indebtedness, an increase of \$20,506,005 or 37.55 percent over the prior year.

Limited obligation bonds totaled \$90,000 or less than .01 percent of the total outstanding bonded indebtedness, a decrease of \$3,670,000 or 97.61 percent under the prior year. Principal and interest for this type of bond is payable from any revenue source (i.e., ad valorem property taxes, sales taxes, etc.) which are designated by the legislative body as "pledged revenue" for retiring the bonds.

Long-Term Indebtedness - Other Non-Municipal Debt

Other non-municipal debt amounted to \$1,766,578,934 which is \$505,473,441 or a 40.08 percent increase over the prior year. This type of indebtedness includes Certificates of Participation, Community Facility District Bonds, etc.

Long-Term Indebtedness - Special Assessment Act Bonds

Of the different types of special assessments, Improvement Acts of 1911 and 1915 are the most common. Under the 1911 Act Bonds, the city maintains no obligation to the bondholders except to forward to them any monies paid by the benefitted property owners. As of June 30, 1990, 1911 Improvement Act Bonds outstanding amounted to \$55,181,658, a decrease of \$3,299,061 or 5.64 percent under the prior year.

Under the 1915 Act Bonds, the city maintains a contingent liability. In the event of delinquent payments, the city can either advance the amount of the delinquency or levy a limited tax rate on the benefitted area. Total 1915 Improvement Act Bonds outstanding amounted to \$2,857,535,545, a gain of \$236,228,830 or 9.01 percent over the prior year.

Other special assessments totaled \$227,834,644 for the year.

Long-Term Indebtedness - Other Than Bonds

During the year under review long-term indebtedness other than bonds amounted to \$6,833,956,326, increasing by \$690,501,930 or 11.24 percent over the prior year.

Total future lease obligation payments amounted to \$6,378,552,496 or 93.34 percent of the total long-term indebtedness other than bonds. This is an increase of \$564,492,377 or 9.71 percent over the prior year. Future lease obligations include agreements to acquire or improve capital assets with terms such as: (1) the agreement is for a period in excess of 10 years, (2) the local agency has the option to acquire ownership of the property at the end of the lease period.

Construction financed by State and/or Federal governments for city construction of capital assets totaled \$159,570,428 or 2.33 percent of the total long-term indebtedness other than bonds. This is an increase of \$22,846,386 or 16.71 percent over the prior year.

Other long-term debt (i.e., notes, warrants, loans and other) amounted to \$295,833,402 or 4.33 percent of the total long-term indebtedness other than bonds. This is an increase of \$103,163,167 or 53.54 percent over the prior year.

Outstanding Long-Term Indebtedness (Excluding the City and County of San Francisco)

City Assessed Valuation, Taxes Allocated and Taxes Levied

The net valuation of city assessment rolls for property taxes applicable to the 1990-91 fiscal year amounted to \$1,110,020,071,507, an increase of \$127,798,604,907 or 13.01 percent over the prior year.

Due to Proposition 13 limitations on taxing powers, cities no longer have the authority to levy a property tax rate, except for ad valorem voter approved debt, approved prior to July 1, 1978 or after July 1, 1986. The county now levies a 1 percent county wide tax rate on the full value of assessed valuation, and allocates the resulting amount to the cities, school districts, special districts, and county operations.

During the fiscal year 1990-91, property taxes allocated from the 1 percent secured and unsecured tax rate amounted to \$2,053,328,164, an increase of \$174,651,028 or 9.30 percent over the prior year. Ad valorem property taxes in addition to the 1 percent for voter approved debt amounted to \$133,902,513, increasing \$26,862,655 or 25.10 percent over the prior year.

Total property taxes from the secured, unsecured and voter approved debt amounted to \$2,187,230,677, an increase of \$201,513,683 or 10.15 percent over that of the previous year.

City Appropriations Limits and Total Annual Appropriations Subject to the Limit

Chapter 1025, Statutes of 1987, requires the State Controller to publish appropriations limits and total annual appropriations subject to the limitation for cities.

For the fiscal year ending June 30, 1990, 426 or 93.42 percent of the cities reported both appropriations limits and total annual appropriations subject to the limit. Three cities reported that they exceeded their appropriations limit. Twenty-two or 4.83 percent of the cities were unable to provide data concerning their appropriations limit and the total annual appropriations limit. Eight or 1.75 percent of the cities provided only their appropriations limit and not their total annual appropriations subject to the limit.

The information provided in Table 14 has not been audited and is presented as submitted by the 456 cities in California, including the City and County of San Francisco.

City Incorporation

During the fiscal year ended June 30, 1990, there were four new incorporated cities, Lathrop, Yucaipa, Laguna Niguel, and Temecula. This brings the total of incorporated cities to 455 (excluding the City and County of San Francisco).

For the 1990-91 fiscal year, four additional cities incorporated bringing the total to 460. These cities will be shown in subsequent Annual Reports.
