

**ANNUAL REPORT OF
FINANCIAL TRANSACTIONS**

Concerning

Counties of California

Fiscal Year 1957-58

ROBERT C. KIRKWOOD
State Controller

INTRODUCTION

Counties have now joined the company of cities, schools and the state as another level of California government whose annual revenue and expenditures exceed the billion dollar mark. Revenues amounted to \$1,075,441,662, an increase of \$105,816,768 or 11% over the prior year. Locally imposed taxes provided 45%; State and federal funds 45%, and the remainder from miscellaneous county sources.

SOURCE OF FUNDS (PERCENTAGE)

	<i>Local taxes</i>	<i>State and federal funds</i>	<i>Miscellaneous .</i>
1953-54-----	39	52	9
1954-55-----	42	49	9
1955-56-----	43	47	10
1956-57-----	43	46	11
1957-58-----	45	45	10

Local taxes included \$451,116,796 from property taxes and \$29,347,682 from sales taxes. In the instance of the latter, revenue was derived from taxable sales in unincorporated areas and also in many instances from a percentage of revenue from sales within cities; the percentage rate where applicable, depending upon agreement between the county and the individual cities. The reported increase of \$8,324,139 over the prior year was due primarily to an increase of 19 counties reporting this type of revenue for the first time as well as the factor that some sales tax receipts of the prior year were for less than a full year of sales tax application. On a speculative note, if planners are correct as to the future of urban development in California, loss of sales situs through annexations by existing cities as well as new incorporations will ultimately have an extremely adverse effect on this source of county revenue.

Total county expenditures exclusive of bond construction funds amounted to \$1,080,990,823, an increase of \$105,471,910 or 11% over the prior year. Total expenditures by classification were: Current Expense, \$965,829,288 or 89% ;

Capital Outlay, \$109,283,850 or 10% ; and Debt Service, \$5,877,685 or less than 1%. Charities and Corrections accounted for \$573,757,277 or 53% of the total. Transactions relating to Medical Care have not been included in this report due to differences of opinion between counties as to whether that program is a county function or actually a trust transaction for the state and federal governments. Medical Care Trust funds (state and federal) allocated to the 57 counties amounted to \$20,487,077 while disbursements totaled \$14,723,799.

Assessed valuation of California counties subject to local property tax increased nearly 7% over last year; the rate of increase leveling off from the 11% noted in the previous period. As a percent of gross valuations, the composition of this year's assessment roll was Land 28%, Improvements 51% and Personal Property 21%. Exemptions applicable against the foregoing aggregated 5%. In 1938, these classifications were Land 45%, Improvements 40% and Personal Property 15%. Exemptions 3%. In 1948, Land 37%, Improvements 43% and Personal Property 20%. Exemptions 4%. The relationship of state-assessed property subject to local taxation to the gross county assessment roll remains fairly constant—in 1938, 13% ; in 1948, 11% and in 1958, 12%.
