JOHN CHIANG
California State Controller

March 31, 2010

**To the Citizens, Governor, and Members of the Legislature of the State of California:**

I am pleased to submit the 29th edition of the *Public Retirement Systems Annual Report* for the fiscal year ended June 30, 2007. This report serves as a reference source for persons concerned with the status and adequacy of funding for public retirement systems in California.

Sections 7501-7504 of the Government Code require state and local public retirement systems to submit audited reports to the State Controller within six months of the end of their respective fiscal years. In addition, the defined benefit systems are required to submit an actuarial valuation every three years at a minimum. This publication is compiled from the data contained in those individual reports.

Following are the highlights of the financial activities of California's public retirement systems for the fiscal year ended June 30, 2007.

- The aggregate funding ratio for all defined benefit systems increased to 89 percent, a 1 percent increase from the 2005-06 funding ratio of 88 percent.

- Twenty-one open systems reported a funding ratio of less than 85 percent, the same as reported in the 2005-06 fiscal year.

I would like to extend my appreciation to all those in both the public and the private sectors who contributed to this report, as well as to my staff. Their cooperative efforts made this publication possible.

Sincerely,

JOHN CHIANG
California State Controller

# Introduction

Government Code sections 7501 through 7504 direct the California State Controller to annually compile and report the financial transactions of California retirement systems to the public. The *Public Retirement Systems Annual Report* is based on actuarial data and audited financial statements for the 132 public retirement systems that filed their reports with the State Controller's Office for the period of July 1, 2006, through June 30, 2007.

California has 10 state systems, 20 systems operating under the County Employees Retirement Law of 1937 (1937 Act), 1 independent county system (San Luis Obispo County), 37 city systems, 56 special district systems, 4 school district systems, and 5 other systems. The "other" category includes systems that do not have one predominant sponsoring or employing agency. Currently, the 5 systems in this category include: the Public Agency Retirement System (PARS) Defined Benefit Plans, the PARS Defined Contribution Plan, the County of San Diego In-Home Supportive Services (IHSS) Public Authority Pension Plan, the Housing Authority of the County of Tulare Defined Contribution Pension Plan, and the San Diego Housing Commission Pension Plan. For the 2006-07 fiscal year, no new systems began reporting to the State Controller's Office and one system, the City of Mill Valley Retirement System, closed their plan and ceased reporting. One system, West Contra Costa Healthcare District Successor Plan, failed to file its report.

## Comparisons and Evaluations

The Government Code provisions for periodic and independent analysis of the financial transactions of each public retirement system enable the California State Controller to gather information upon which to base comparisons and evaluations of the financial condition of such systems. These comparisons and evaluations are included in this Introduction, in the Discussion of Key Issues section, and in the Summary of Statistical Data.

## Financial and Actuarial Data

To facilitate comparison and to provide detailed financial and actuarial information, the State Controller's Office presents the 132 reporting retirement systems based on their organizational structure as either defined benefit (84) or defined contribution (48).

There are 85 systems classified as "defined benefit," however only 84 filed a report with the State Controller's Office for the 2006-07 fiscal year. In a defined benefit system, benefits are predetermined by a formula based in part on an employee's salary and/or length of service. The employer's contributions are determined on the basis of benefits to be paid.

The other 48 systems are classified as "defined contribution." In a defined contribution system, the rate of contribution by the employer, and sometimes by the employee, is fixed. Therefore, the employee's pension benefit will be whatever amount the accumulated contributions plus investment earnings will provide at retirement.

In this report, both the defined benefit system and the defined contribution system sections have been organized by state, county, city, special district, school district, and other systems. However, the reporting counties have no defined contribution systems at this time. This publication presents the data in accordance with guidelines established by Governmental Accounting Standards Board (GASB) Statements No. 25, 27, and 34.

In this publication, we have grouped California Public Employees' Retirement System (CalPERS) financial and actuarial data with other state defined benefit systems. However, we have included a supplemental CalPERS section for a more comprehensive view of CalPERS and of the 1,470 active public employers that contract with CalPERS to administer their retirement systems. Beginning in fiscal year 2004-05, CalPERS began providing information based on risk pools.

Risk pooling is the process of combining assets and liabilities across employers to produce large risk-sharing pools. Further information regarding risk pooling can be found on page 285 of this publication. Of the 1,470 active contracting public employers, there are a total of 2,080 plans, of which 1,632 plans are in the newly formed risk-sharing pools. Employers may have plans in a risk-sharing pool and plans that are not part of the risk-sharing pool. The supplemental CalPERS section details the funding position, retirement benefit policies, disability benefit policies, and the contribution rate of both the employer and employee for each contracting agency.

## Retirement Systems Included, Excluded

The retirement systems included in this publication are those chartered or operated by – or on behalf of – state and local public agencies.

Systems excluded from this publication are defined contribution plans, such as Internal Revenue Code section 457 plans and most 401(k) plans, which are designed for employee retirement savings with no employer participation.

## Accounting

Each system reported in this publication maintains its own set of accounting records, with accounts for assets and liabilities. The amount of net assets available for benefits is equal to assets minus liabilities, and changes to net assets available for benefits are shown as additions and deductions in the Statement of Changes in Net Assets, in accordance with GASB Statements No. 25 and 27.

The majority of the systems operate on either a fiscal year basis, with the year ending June 30, or a calendar-year basis, with the year ending December 31. A few systems operate on accounting cycles that end on dates other than June 30 or December 31. This publication includes calendar-year systems with the year ending December 31, 2006; fiscal year systems with the year ending June 30, 2007; and "off-fiscal" year systems with fiscal years ending between July 1, 2006 and June 30, 2007.

## Audit Requirements

The State Controller's Office has compiled the financial information in this publication from financial statements audited by a qualified person, in accordance with Government Code section 7504(b). As defined in the code, "a qualified person" means:

1. A person who is licensed to practice as a certified public accountant in this state by the California State Board of Accountancy;
2. A person who is registered and entitled to practice as a public accountant in this state by the California State Board of Accountancy;
3. A county auditor in any county subject to the County Employees' Retirement Law of 1937; or
4. A county auditor in any county having a pension trust and retirement system established pursuant to Government Code section 53216.

# Discussion of Key Issues

Material in this publication is intended for informational purposes only. The findings presented in this introduction are the SCO's summarization of information received from California's retirement systems. They should not be construed as proposals for action made by the California State Legislature, the California State Controller, or any part of the Executive Branch of the State of California.

This publication contains detailed financial and actuarial information derived from individual reports submitted to the California State Controller by each public retirement system. The detail sections for each public retirement system may contain comments and/or footnotes describing any existing situations or conditions deemed to be of potential interest to the users of this publication. This discussion section highlights some of the key areas of concern impacting public retirement systems.

## Retirement Benefits

The typical public retirement system in California provides retirement benefits based on a retiree's years of service and final compensation. For example, in a system that provides 2% per year at age 60, members with 20 years of service may retire at age 60 and receive upon retirement approximately 40% of their average salary as defined. Each system has a normal retirement age, or the age when full retirement benefits are paid. Most systems allow early retirement at a reduced benefit.

In many retirement systems, retirees' benefits are automatically increased to replace the purchasing power lost through inflation. This cost of living adjustment (COLA) benefit is linked to an index that measures inflation, although it may be limited to a maximum annual percentage increase. Some systems do not provide automatic COLA benefits, offering *ad hoc* increases instead.

In some retirement systems, employees receive different benefits, depending on their classification. Safety employees, such as police officers and firefighters, generally receive higher benefits than do general employees. This higher benefit may be manifested in a higher percentage per year of service and/or a younger normal retirement age. Systems may have different tiers of pension coverage for employees within the same classification, with each tier providing different benefits. The tier to which an employee belongs often depends on his or her date of hire.

## Benefit Factors

The factors involved in determining retirement benefits are not easily compared because of the variety of provisions within each system and among employer categories. A typical defined benefit retirement system will use three factors to determine an employee's benefits: (1) number of years of service, (2) age at retirement, and (3) final average salary (FAS). This publication reports details of the specific benefit provisions of each retirement system along with each system's financial and actuarial data. Refer to the Table of Contents to locate a specific system.

The number of years of service required to qualify for benefits can range from zero, as in the case of a duty-related disability retirement benefit, to as many as 20 years of service for full retirement benefits. The age at retirement can be anywhere between 50 to 71 years of age depending on the member's years of service.

The compensation amount systems use in calculating benefits also varies. Among defined benefit systems and tiers within systems, 11 systems use compensation earned at the time of retirement as the basis for determining retirement benefits, 13 systems use compensation of the position last held, 15 systems use a formula that averages compensation earned in the final years of service, and 63 systems use a formula that averages the highest years of compensation earned. We have excluded other defined benefit systems from the count because they did not report a FAS formula. Therefore, the sum of the number of systems using a given FAS formula has no relationship to the total of 84 defined benefit systems reporting. Systems that average compensation use a range of years of average salary earned varying from a one-year period to a five-year period. Because most defined benefit systems have multiple tiers that may use different FAS formulas, some systems may be included in more than one of the categories.

## Financing Benefits

The goal of a defined benefit system is to finance pre-defined employee benefits by accumulating assets through employer/employee contributions and investment earnings. The yield from investments is important, as higher investment returns help reduce contributions needed in future years.

Defined contribution systems accumulate contributions for retirement without defining the retirement benefit. Most gains, losses, and earnings of the system are credited to the employees' accounts.

Contributory systems require employees to share in the cost of financing their retirement benefits through monthly contributions. The state systems require contributions at a flat percentage of salary, commonly from 5% to 9%. County systems require contributions at rates that vary with the employee's age at employment.

Rather than accumulating funds in advance, a few systems operate on a pay-as-you-go basis. Under this system, only those funds necessary to meet the current obligations are appropriated. As there are no significant assets in these systems to generate investment returns, employer contributions may tend to escalate rapidly.

To develop a financing program for defined benefits, systems must project the future stream of payments to retirees and beneficiaries through the services of an actuary, using a process known as an actuarial valuation. Systems submit Actuarial Valuation Reports, Financial Transactions Reports, and audited Financial Statements Reports to the State Controller's Office; and the State Controller's Office reviews the reports concurrently. Government Code section 7504 requires an actuarial valuation to be performed at least every three years, while GASB Statement No. 25 requires one at least every two years. The majority of the systems perform an actuarial valuation every one or two years.

## Actuarial Valuations for Defined Benefits

Once the value and timing of these benefits are actuarially projected, they are typically financed by annual contributions designed to be a constant percentage of total payroll. Contributions are designed to increase at the same rate as wages. For various reasons, the contribution rates change from valuation to valuation. If, for instance, higher benefits are given, the valuation of the system should show a higher contribution requirement. Other reasons for a rate change could be a change in the assumptions used in a system's benefits valuation or a significant variance between actual experience and the assumptions used. Projections made by a retirement system are based on the experience of that system. The assumptions included in this publication are those that must be given "particular consideration", pursuant to Government Code section 7502.

This publication lists the salary scale and interest rate assumptions for each defined benefit pension system. Generally, changes in these two assumptions have opposing effects on contribution rates. Increasing the interest rate assumption means the pension fund is expected to earn more on its investments and, therefore, lower contributions will be needed. Increasing the salary scale means anticipating higher salaries and correspondingly higher benefits, resulting in higher contribution requirements.

## Responsible Funding

The responsible funding of retirement systems vitally concerns all interested parties, because systematic and adequate funding enhances the financial stability of these retirement systems.

For defined benefit pension systems, a measure of the achievement of responsible funding is the system board's adoption of contribution rates that have been recommended by the actuary. This publication lists both the rates recommended by the actuary and those adopted by the retirement board. Of the 84 defined benefit systems reporting, 16 systems have adopted employer contribution rates that are different from the rates recommended by the system actuary. Of those 16 systems, six have adopted employer contribution rates that are below the rates recommended by the system actuary. Nine systems have adopted employer contribution rates that exceed the rates recommended by the system actuary. One system, with multiple tiers, has adopted employer contribution rates that are both below and above the rates recommended by the system actuary. This publication does not explain why retirement boards choose contribution rates that are different from those recommended by the system actuary, as the boards do not usually disclose their reasoning in the submitted reports. Note that many of the

defined benefit systems contain multiple tiers and adopt different rates within the system itself.

Another measure for defined benefit systems is the funding ratio, which is used to compare the assets of a system with its actuarial liabilities. Under ideal circumstances, the actuarial liabilities would equal the actual assets of the system, but they seldom do.

The asset and liability values differ for various reasons. One reason might be a system's increase of benefits retroactively for past service, which causes actuarial liabilities to increase without a corresponding increase in the assets. Another reason would be salaries increasing at a rate faster than that assumed in the salary scale, which also would cause actuarial liabilities to increase. A third cause may be that the rate of return on investments varies from the rate assumed.

The difference between actuarial liabilities and system assets is called the unfunded actuarial accrued liability (UAAL). The UAAL is funded by amortization over a period of time recommended by the actuary. It is possible for the UAAL to be overfunded (more assets than liabilities), in which case the UAAL will be reported as a negative number.

Extending the amortization period reduces the annual payment for retiring the UAAL. In this publication, a supplemental contribution rate – called the UAAL amortization rate – is shown with the normal rate in each plan's contribution rate table. The normal rate is the necessary percentage of payroll contributed to the retirement fund to pay for future benefits earned in the current fiscal year. The UAAL amortization rate allows for the system to meet contribution deficiencies from past years.

Note that, because many systems design the UAAL amortization payments to increase proportionately with salaries, it may be possible for the funding ratio to decrease in the early years of the amortization period.

Finally, note that a 100% funding ratio means only that past funding deficiencies have been made up, not that the financing program is completed. If a system achieves a 100% funding ratio, the total contribution required would be equal to the normal contributions required to finance retirement benefits earned by employees in the current year.

## Funding Positions

Figure 2 on page xv shows that, in the aggregate, statewide actuarial liabilities are approximately $581.4 billion, while net assets available for benefits are approximately $518.7 billion. Actuarial accrued liabilities exceed the actuarial assets by approximately $62.7 billion; the aggregate funding ratio is 89%. The funding ratio is the ratio of system assets to actuarial liabilities. The aggregate funding ratio for all reporting defined benefit systems has increased 1% from the fiscal year 2005-06. Seven systems reported funding ratios below 50%; all of these systems have been closed to new membership, a move that will help control future costs. These closed systems will cease to exist when no beneficiaries remain to receive the benefits. Figure 2 also shows an aggregate funding liability per member of

$16,241, with county systems having the greatest funding liability at an average of $28,679 per member. However, the funding liability for all systems decreased as compared to fiscal year 2005-06.

An analysis of the reports submitted for this publication shows that the 2006-07 fiscal year average employer contribution rate was 13.9% of covered payroll for defined benefit general systems and 21.3% of covered payroll for defined benefit safety systems.

Generally, a funding ratio of 85% or above has been used as an indicator of a healthy system. In the past few years, there have been an increasing number of systems reporting lower funding ratios each year. Recent analyses show 21 open systems with funding ratios of less than 85% in the 2006-07 fiscal year, which is the same number of systems reported in the 2005-06 fiscal year. Figure 4, located under "Funding Position for Defined Benefit Plans," lists the systems currently with a funding ratio of less than 85% along with the past three years of data.

## Employer Contributions

Many systems are attempting to control costs by adding new benefit tiers that offer lower benefit levels to their membership and by closing the higher benefit tiers to new employees. Of the 84 defined benefit systems reporting, 37 have adopted multiple benefit tiers. The effect of the new benefit levels can be seen by comparing the contribution rates for the various systems. Generally, additional tiers translate to reduced benefits, which result in reduced employer contribution rates for the new tiers.

## Disability Requirements

Most California public employee retirement systems report similar disability retirement benefits, ranging from 33% to 50% income replacement for both safety and general members.

The median percentage of disability retirees to all retirees receiving benefits, survivors not included, was 12.4% during the period covered by this report. These percentages ranged from 0% to 100%. Since most of these systems had similar benefits, the wide range appears to be the result of differing policies and practices of individual retirement boards in administering disability retirements.

## Interest Rate Assumptions

During the 2006-07 fiscal year, the median interest rate assumption among all reporting defined benefit systems was 8.0%, averaging 7.6%. The actual earning median among defined benefit systems for the year was 16.4%, with an average of 15.5%, using the time-weighted method.

## Legislative and Accounting Changes

On July 1, 1991, the Omnibus Reconciliation Act of 1990 (OBRA 1990) became effective. OBRA 1990 requires all state and local governmental employers to provide retirement benefits to their part-time and intermittent employees or to participate in Social Security.

Many of the reporting agencies in this publication have established new levels of benefits for their part-time and intermittent employees. One system, Public Agency Retirement System, was created specifically to address the new requirements placed on local governmental employers by OBRA 1990.

In November 1994, GASB issued Statements No. 25, 26, and 27, entitled, respectively, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, Financial Reporting for Postemployment Healthcare Plans Administered by Defined Benefit Pension Plans*, and *Accounting for Pensions by State and Local Governmental Employers*.

The provisions of GASB Statements No. 25 and 26 are effective for periods beginning after June 15, 1996. The provisions of GASB Statement No. 27 are effective for periods beginning after June 15, 1997.

GASB Statement No. 26 provides guidance for accounting and financial reporting of postemployment healthcare plans and does not affect the areas of this report. Beginning with the 1997-98 publication of this report, we have obtained the financial and actuarial information provided herein from audited financial statements that have been prepared, except where noted, in accordance with GASB Statements No. 25 or 27. These two statements require, among other things, a statement of plan net assets, a statement of changes in plan net assets, and that investments be carried at fair value with unrealized gains and losses included in the statement of changes in plan net assets. Additions to net assets available for benefits must include the net appreciation or depreciation in the fair value of investments. This publication also presents annual required contributions (ARC) of the employer and the employee. The ARC should be actuarially determined in accordance with GASB Statement No. 25 parameters. Defined benefit plans also are required to footnote disclosures regarding actuarial methods, contribution requirements, and funding progress of the system.

In June 1999, GASB issued Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. This statement establishes financial reporting standards for state and local governments, including public employee retirement systems.

# Summary of Statistical Data

This section provides comparisons, evaluations, and other pertinent information on the public employee retirement systems included in this publication. The information is provided as text, tables, and graphic presentations.

## Funding Position for Defined Benefit Systems

Figures 1 through 3 show the progress systems have made in accumulating assets to pay for benefits when due. The funding ratio is one method for assessing this progress. However, various actuarial methodologies can be used to calculate the funding ratio of a retirement system, with each method resulting in a different funding ratio for the same system.

Figure 1 shows that of the 82 defined benefit systems that reported funding ratios, 39 (47.6%) have funding ratios of 85% or higher. Of the 43 systems with funding ratios under 85%, 16 have been closed to new employees. These 16 systems account for 0.2% of the statewide defined benefit membership and 0.7% of the statewide funded liability. The 21 open systems with a funding ratio under 85% account for 4.5% of the statewide membership and 12.0% of the statewide funded liability. The remaining six

systems have both open and closed tiers. These six systems account for 1.2% of statewide defined benefit membership and 2.3% of the statewide funded liability.

**Figure 1**

**Funding Ratio Distribution**

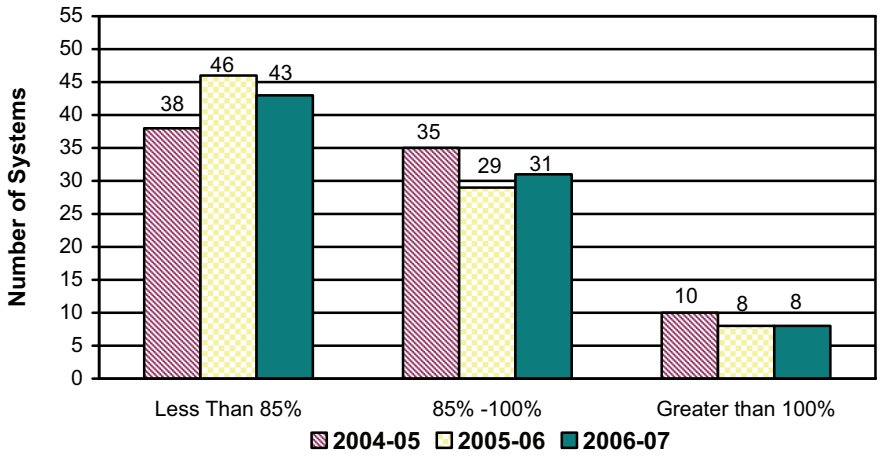

Figure 2 illustrates that, as indicated by the funding ratios, when the actuarial liabilities and assets of individual systems in each category are compared as an aggregate amount, the funding position of special district systems declined from the 2004-05 fiscal year to the 2006-07 fiscal year.

**Figure 2**

**Summary of Statewide Funding Position for Defined Benefit Systems (Aggregate Amount)**
(Amounts in thousands)

| Agency | Actuarial Accrued Liability | Actuarial Value of Assets | Unfunded Actuarial Accrued Liability (Funding Excess) | Funding Ratio 2004-05 | Funding Ratio 2005-06 | Funding Ratio 2006-07 | UAAL (Funding Excess) Per Member |
|---|---|---|---|---|---|---|---|
| State | $ 424,338,711 | $ 377,936,840 | $ 46,401,871 | 89% | 89% | 89% | $ 14.85 |
| Counties | 97,427,592 | 85,055,894 | 12,371,698 | 84 | 85 | 87 | 28.68 |
| Cities | 55,447,607 | 52,502,895 | 2,944,712 | 93 | 92 | 95 | 15.97 |

| **Total** | **$ 581,387,300** | **$ 518,710,044** | **$ 62,677,256** | **88 %** | **88 %** | **89 %** | **$ 16.24** |

The funding ratio average values, by system type, for the past three years are shown in Figure 3. The difference between the aggregate funding ratios shown in Figure 2 and the average values shown below is caused by the variances between the individual systems as opposed to the aggregate ratios. This can best be illustrated by looking at the 2006-07 City ratios. The City aggregate ratio is 95% while the City average rate is 85%. In addition, two sets of data, School and Other, only include one system each. Therefore, slight changes look significant. The "other" system significant increase, from 2004-05 to 2005-06, can be attributed to the use of a biennial actuarial valuation rather than an annual actuarial valuation.

**Figure 3**

**Funding Ratio Trends, Average Values By System Type**

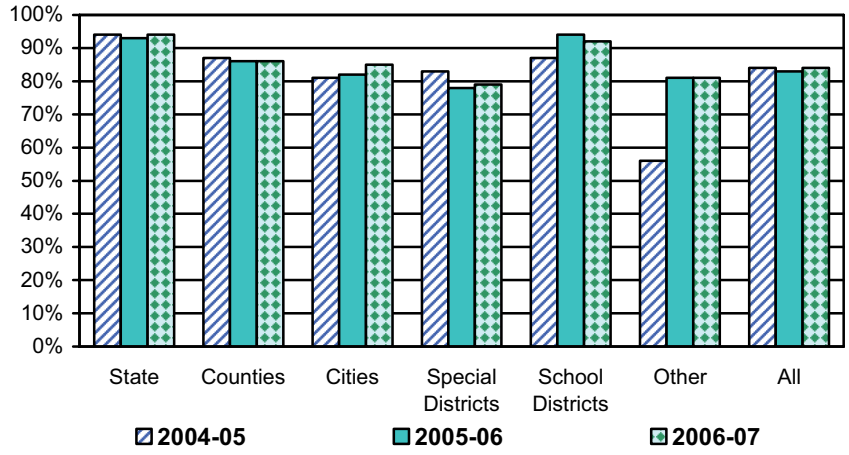

Figure 4 shows that 21 open systems reported a funding ratio of less than 85% for the 2006-07 fiscal year. Figure 4 shows only systems with all open tiers. Another six systems with multiple tiers exist – some open and some closed – with funding ratios under 85%: Marin County Employees' Retirement Association (ERA), San Mateo County ERA, Santa Barbara County Employees' Retirement System, Ventura County ERA, East Bay Municipal Utility District Retirement System, Turlock Irrigation District Pension Plan, and Public Agency Retirement System (PARS) Defined Benefit Plans. We are unable to determine which tiers within the multiple-tiered systems predominantly affect their funding ratios.

**Figure 4**

**Summary of Defined Benefit Systems with Funding Ratios less than 85% – 3 Year Trend**

| | Funding Ratio | | |
|---|---|---|---|
| **Agencies** | **2004-05** | **2005-06** | **2006-07** |

| Sunline Transit Retirement Income Plan – Non-Bargaining Unit Personnel | 67.0 | 72.5 | 75.7 |

## Contribution Rates

Figures 5 and 6 report average employer contribution rates, adopted by the respective retirement boards, as a percentage of payroll for defined benefit general and safety systems, accounting for all tiers in each system. The figures present three years of data for comparison.

The 2006-07 average employer contribution rate for all "general" systems was 13.9% of payroll, with rates ranging from 0% to 42.0%. From the 2004-05 to the 2006-07 fiscal year, the average employer contribution rates of state, county, city, special district, and school district general defined benefit plans increased. Contributions to special district general systems increased the most, from 10.8% to 15.3%.

**Figure 5**

**General Defined Benefit Systems**
**Employer Contribution Rates by Average Value as a Percentage of Payroll**

| Agency Type | 2004-05 | 2005-06 | 2006-07 |
|---|---|---|---|
| State | 9.3% | 9.5%* | 10.6 % |
| Counties | 14.5 | 15.8 | 17.5 |
| Cities | 6.0 | 7.0 | 7.5 |
| Special Districts | 10.8 | 12.9 | 15.3 |
| School Districts | 3.6 | 3.9 | 3.9 |
| Other | - | - | - |
| All General | 11.1% | 12.4% | 13.9% |

* The State rate for 2005-06 was incorrectly reported in the prior year at 6.8%.

The 2006-07 average contribution rate for all safety systems was 21.3% of payroll, with rates ranging from 0% to 63.8%. From the 2004-05 to the 2006-07 fiscal year, the average employer contribution levels of county and city safety defined benefit plans increased. State systems declined from 19.5% to 18.82%.

**Figure 6**

**Safety Defined Benefit Systems**
**Employer Contribution Rates by Average Value as a Percentage of Payroll**

| Agency Type | 2004-05 | 2005-06 | 2006-07 |
|---|---|---|---|
| State | 19.5% | 17.3% | 18.8% |
| Counties | 24.9 | 26.6 | 28.4 |
| Cities | 7.5 | 11.8 | 11.4 |
| All Safety | 17.7 % | 20.0% | 21.3% |

## Assets

The following figures show that, in total, California defined benefit and defined contribution public employee retirement systems held assets in trust with a fair value of $792.3 billion at June 30, 2007. State-administered retirement systems account for 75.2% of these assets, while local agency administered systems account for the remaining 24.8%, as illustrated in Figures 7 and 8. Although 75.2% of the assets are administered by the state systems, a high percentage of these assets are contributed by many local agencies that contract with CalPERS.

**Figure 7**

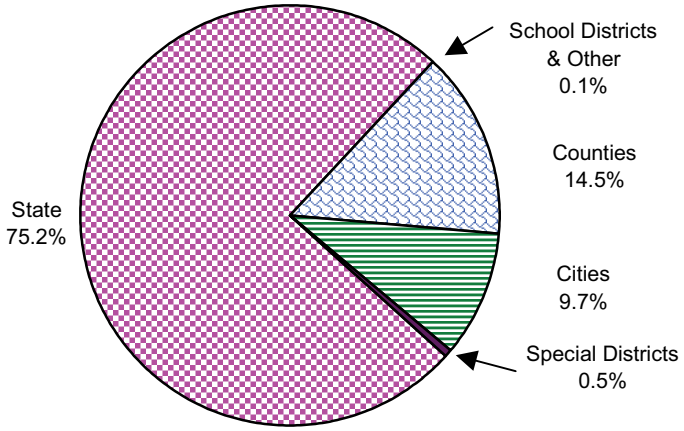
**Asset Distribution by Entity Type, Reporting Year 2006-07**
(Amounts in thousands)

| | Fair Value | Percentage |
|---|---|---|
| State | $ 595,729,136 | 75.2% |
| Counties | 114,788,057 | 14.5% |
| Cities | 76,864,825 | 9.7% |
| Special Districts | 4,323,024 | 0.5% |
| School Districts | 35,602 | * |
| Other | 538,260 | 0.1% |
| **Total** | **$ 792,278,904** | **100.0%** |

* The fair value of school district assets is 0.004% of total assets.

**Figure 8**

**Asset Distribution by Entity Type, Reporting Year 2006-07**
(At fair value)



Of the 132 total public retirement systems reporting in the 2006-07 fiscal year, the ten largest systems encompass 89.7% of total assets, 91.3% of total liabilities, and 89.3% of net assets available for benefits, as shown in Figure 9.

Figure 10 shows that, from the 2002-03 to the 2006-07 fiscal year, the fair value of assets has increased steadily to $792 billion in the 2006-07 fiscal year from a low of $460 billion in the 2002-03 fiscal year.

**Figure 9**

**Ten Largest Public Retirement Systems, Reporting Year 2006-07**
(Amounts in thousands)

| System | Total Assets | Total Liabilities | Net Assets Available for Benefits |
|---|---|---|---|
| California Public Employees' Retirement System | $ 303,994,514 | $ 52,871,832 | $ 251,122,682 |
| California State Teachers' Retirement System | 210,345,485 | 37,967,567 | 172,377,918 |

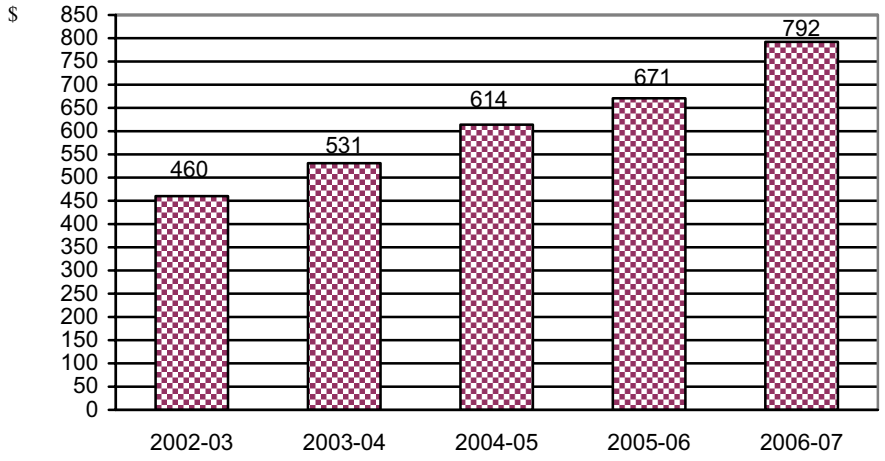
| **Total, Ten Largest Systems** | **$ 710,279,364** | **$ 126,191,488** | **$ 584,087,876** |
| **Total, All Systems** | **$ 792,278,904** | **$ 138,141,737** | **$ 654,137,167** |
| **Percent of Total, Ten Largest Systems** | **89.7%** | **91.3%** | **89.3%** |

**Figure 10**

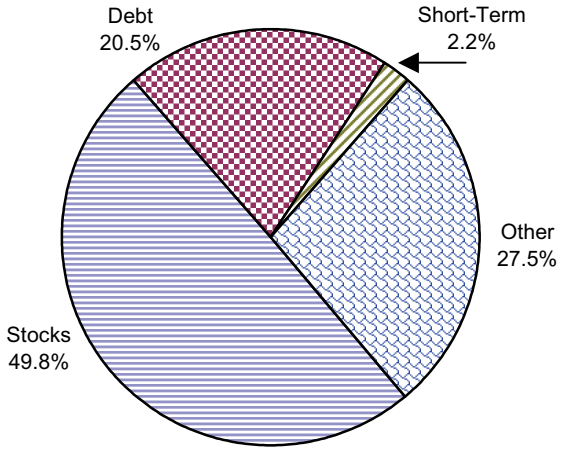
**Growth in Total Assets at Fair Value**
(Amounts in billions)



Most assets are invested for income. Figure 11 illustrates that assets are invested primarily in stocks and long-term debt securities. The debt category includes mortgages and corporate and government bonds. Debt makes up 20.5% ($158.5 billion) of investment assets. Stocks represent 49.8% ($385.6 billion) of investment assets. The short-term category, which represents 2.2% ($17.0 billion) of investment assets, consists of cash and cash equivalents and other short-term securities. The "other" category, which represents 27.5% ($212.7 billion), consists of real estate equity, venture capital, and other miscellaneous investments.

**Figure 11**

**Investment Capital Distribution, Reporting Year 2006-07**
(At fair value)



When real estate equity investments are combined with mortgages, the total assets invested in real estate equal $72.3 billion, or 9.3% of total assets. Mortgages represent $20.5 billion of this total, and real estate equity amounts to $51.8 billion.

## Revenues

The total revenues of public employee retirement systems is $128.0 billion in the 2006-07 fiscal year, an increase of $49.7 billion from the 2005-06 fiscal year due primarily to a increase in investment values. Defined benefit systems accounted for $124.8 billion and defined contribution systems accounted for $3.2 billion of total revenues.

Employer contributions increased $805.6 million and employee contributions increased by $505.1 million from the 2005-06 fiscal year. Other contributions increased by $13.8 million from the prior year. Other revenues accounted for $24.2 million of total revenues in the current year. Net investment income increased by $48.4 billion from the prior year.

* Net of investment expenses

## Expenses

The expenses of public employee retirement systems totaled $28.5 billion for the 2006-07 fiscal year, as shown in Figure 13. Defined benefit systems accounted for $27.5 billion, or 96.5% of total expenses, while defined contribution systems accounted for $1.0 billion, or 3.5% of total expenses. As shown in Figure 13, total benefit payments amounted to $26.4 billion, or 92.8% of total expenses. Refunds, administrative expenses, and other expenses totaled $1.4 billion, $623.5 million, and $54.4 million, respectively. These expense categories amounted to 4.8%, 2.2%, and 0.2% of total expenses. Total expenses increased by 45.8%, from $19.5 billion in the 2002-03 fiscal year to $28.5 billion in the 2006-07 fiscal year.

**Figure 13**

**Public Employee Retirement System Expenses, Reporting Year 2006-07**
(Amounts in thousands)

| Expenses by Type | Benefit Payments | Refunds | Administration | Other | Total |
|---|---|---|---|---|---|
| State | $ 19,036,589 | $ 1,228,530 | $ 430,640 | $ 1,113 | $ 20,696,872 |
| Counties | 4,211,657 | 82,200 | 120,633 | 22,021 | 4,436,511 |

| **Percent of Total by Expenses Category** | **92.8%** | **4.8%** | **2.2%** | **0.2%** | **100.0%** |

## Average Yield

The average yield on assets of the various systems is computed using a simplified formula previously recommended by the Government Finance Officers Association.

$$\frac{I}{\frac{1}{2}(A + B - I)}$$

A = Beginning-of-the-year fair value of total assets, less current liabilities

B = End-of-the-year fair value of total assets, less current liabilities

I = Investment income earned during the year

We have presented this simplified method for calculating the average yield because, while more accurate methods of calculation exist, the data necessary to calculate the dollar-weighted or time-weighted methods are not available for all systems. Consider the following pertinent information when comparing average yield data between systems with financial data from other sources:

- The average yield computed by this formula may be distorted if the net cash flow into the system is not evenly distributed during the year.
- In the formula, the changing market value of stocks, bonds, and other investments is included in investment income earned during the year as the net gain or loss in the fair value of investments.
- The timing and amount of contributions can significantly affect the result.

As indicated in Figure 14, the 2007 median average yield for all systems was 14.2%; the mean average yield rate was 13.6%. The average yield rates ranged from a low of 0.0% to a high of 27.0%.

## Figure 14

### Summary of Average Yields

| Defined Benefit Systems | 2005 Average Yield | 2006 Average Yield | 2007 Average Yield |
|---|---|---|---|
| **State** | | | |
| Judges' Retirement System I | 2.2% | 5.6% | 8.4% |

## Membership

As shown in Figure 15, the total membership in the retirement systems reporting for the 2006-07 fiscal year is 4,277,631, a 3.7% increase from the 4,126,961 members reported in the 2005-06 fiscal year, and a 10.9% increase from the 2002-03 fiscal year.

Figure 16 shows that state-administered systems constitute 76.7% of the total membership of all systems. This percentage includes both defined benefit and defined contribution plans.

Membership classifications are:

- *Active*: Members currently employed.
- *Service Retired:* Members who worked a full career and retired.
- *Disabled*: Members who took retirement due to work-related or non-work-related illness or injury.
- *Survivors*: Dependents of deceased retirees' who continue to receive benefits.
- *Inactive*: Those who have left the system but have retained vested rights to future benefits.

Figure 17 illustrates that active and inactive members constitute 77.3% of total plan membership, while beneficiaries (service retired, survivor, and disabled members) constitute 22.7% of total plan membership. The total membership includes 3,307,618 active and inactive members and 970,013 beneficiaries.

Figure 18 shows that 48 systems (36.4%) have fewer than 100 members, 29 systems (22.0%) have between 100 and 999 members, 30 systems (22.7%) have between 1,000 and 9,999 members, and 25 systems (18.9%) have 10,000 or more members.

Figure 19 illustrates an increase of 115,643 (3.6%) in active and inactive membership and an increase of 35,027 (3.7%) in beneficiary membership since the 2005-06 fiscal year. Beneficiary membership consists of service retired, disabled, and survivor members.

Furthermore, since the 2002-03 fiscal year, active and inactive membership has increased by 8.8%, while beneficiary membership has increased by 18.8%.

## Disability Requirements

Most California defined benefit public retirement systems maintain separate benefits for members who retire because of disability incurred either on or off the job. The schedules generally provide retirement allowances after shorter periods of service than those applicable to other retirees. As a result, the systems pay benefits to disabled retirees for greater lengths of time and the retirees no longer contribute to the system, resulting in lower total deposited contributions on which to earn interest.

Figure 20 presents information about each system's disability retirement position and policies. The first column, Percentage of Disability to Retired, shows the number of disabled members as a percentage of all retirees receiving benefits in the 2006-07 fiscal year. This percentage does not include deceased retirees' beneficiaries.

For example, the California State Teachers' Retirement System reported that 3.8% of its retired members were receiving disability benefits in the 2006-07 fiscal year. The median percentage of such retired members for all defined benefit systems reporting was 12.4%, while the average was 15.8%.

The remainder of Figure 20 gives a brief summary of disability benefit policies offered by the various plans. It appears that most plans offer similar benefits, ranging from 33.3% to 50% of final compensation for both general members and safety members. Most service-related disabilities have no minimum service requirements, and non-service disabilities usually require five to ten years of service in order for members to qualify.

Disability benefit payments reported by the systems included in this publication totaled approximately $2.8 billion. This total, however, must be regarded as a low estimate because some systems' reports did not separately account for disability benefits. For systems that were able to itemize their disability benefit payments, disability benefits were 10.8% of total benefit payments and 10.0% of total expenses.

## Recent Developments

During the 2006-07 fiscal year, the investment market continued to be strong primarily due to improvement in the U.S. economy and in domestic and international markets resulting in increased investment returns.

In July 2004, the Governmental Accounting Standards Board (GASB) issued Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*. States and large local governments will be required to implement the new guidance starting with the fiscal year that ends December 31, 2007. Medium-sized and small governments will be required to do the same starting with the fiscal years ending December 31, 2008, and December 31, 2009, respectively.

GASB Statement No. 45 requires for the first time that public sector employers recognize the cost of other post-employment benefits (OPEB) over the active service life of their employees rather than on a pay-as-you-go basis.

This publication reflects only pension benefits. The defined benefit systems detailed on the following pages do not include OPEB amounts, except for Alameda County Employees' Retirement Association (ERA), and Los Angeles County ERA. These systems are currently unable to separate their OPEB funds from their pension funds but will do so beginning with fiscal year 2007-08.

## Financial and Actuarial Data Defined Benefit Tables

We have formatted actuarial and benefit data to accommodate reporting for six general tiers and three safety tiers. However, some agencies have more tiers than can be individually presented. The extra tier information is provided in the comments or footnotes section of the specific agency table.

Following is a summary of symbols and definitions used in the financial and actuarial data tables.

(–) A dash indicates that the listed categories do not apply to that particular public retirement system, and is used in place of a numerical value.

(Y) In the Retirement Benefit Policies section, the letter Y indicates that a specific benefit policy methodology is used.

(I, N, S)
In the Retirement Benefit Policies section, Social Security Coverage, "I" stands for "integrated Social Security benefits," which means that Social Security benefits are included, in part or in whole, as part of the system's total monthly retirement benefits. "N" means that no Social Security benefits are included as part of the monthly retirement benefits. "S" stands for Supplemental Social Security benefits, which means that Social Security benefits are paid in addition to the system's monthly retirement benefits.

**Benefit Comments:** Members with 20 years of service get 75% of last position held while those with less than 20 years receive 65%.

**Comments:**

The Judges' Retirement Fund was established in 1937. The membership consists of justices of the Supreme Court, Courts of Appeal, Superior Courts, Municipal Courts, and Justice Courts appointed or elected prior to November 9, 1994.

The law that stated that on and after January 1, 2004, the Judges' Retirement Fund shall be funded and actuarially sound was amended in conjunction with the adoption of the Judges' Retirement System II law, which, among other provisions, eliminated the requirement that the Judges' Retirement Fund be funded and actuarially sound. The system is funded on a pay-as-you-go basis.

**Footnote:**

(1) Beginning with the June 30, 1997 actuarial valuation, the valuations were performed using the aggregate cost valuation method. The aggregate cost method does not identify or separately amortize unfunded actuarial liabilities or actuarial assets.

(2) The employer contribution rate for the system is set by state statute and equals eight percent (8%) of payroll.

(3) Members retiring after age 60 with at least 20 years service receive 75% of pay of the last judicial office held. With fewer than 20 years of service, the benefit percentage is 65%.

**Benefit Comments:** The "defined benefit" option provides for 3.75% of the highest 12-month average salary per year of service for judges reaching age 65 with 20 years of service to a maximum of 75% of final average salary.

**Comments:**

The Judges' Retirement Fund II was established in 1994. The membership consists of justices of the Supreme Court, Courts of Appeal, Superior Courts, Municipal Courts, and Justice Courts appointed or elected on or subsequent to November 9, 1994. Actuarial valuations are required to be carried out annually. The legislated state contribution rate will be adjusted periodically as part of the annual Budget Act in order to maintain or restore the actuarial soundness of the fund.

**Footnote:**

(1) The Judges' Retirement System II uses a modification of the Entry Age Normal Actuarial Cost Method, which is a projected benefit cost method and is modified by CalPERS so that the employer's total normal cost is expressed as a level percentage of payroll.

(2) Generally, the unfunded liability is amortized over different periods of time as a level percentage of payroll. If the use of this method results in inconsistencies, the "fresh start" approach is used. In the fresh start approach, the current unfunded actuarial liability is projected and amortized over a set number of years.

**Benefit Comments:** All members are eligible for a disability retirement allowance without any age or service requirements. The disability allowance is the same as the normal retirement benefit.

**Comments:**

The current contribution requirements of the Legislators' Retirement System are based on actuarially determined rates promulgated as part of legislation passed in 1977.

**Footnote:**

(1) Their were no annual required contributions for fiscal years 1999-00 through 2006-07, based on the June 30, 1998 through June 30, 2005, actuarial valuations.

**Comments:**

The Public Employees' Retirement Fund (PERF) was established in 1932. Its membership includes the following categories: General, State Industrial, Schools, and Safety.

(1) General members are collectively reported under the following categories: General Tier I - State Miscellaneous Tier 1 and University of California; General Tier II - State Miscellaneous Tier 2; General Tier III - State Industrial Tier 1; General Tier IV - State Industrial Tier 2; General Tier V - Schools; and General Tier VI - Public Agency Employees.

(2) Safety members are reported as follows: Safety Tier I - California Highway Patrol; Safety Tier II - State Safety; and Safety Tier III - State Police Officers and Fire Fighters (SPOFF).

**Footnote:**

(1) In fiscal year 2005-06, CalPERS combined disability membership with retiree membership since they were unable to separately identify the disability membership by tiers.

(2) Generally, the unfunded liability is amortized over different periods of time as a level percentage of payroll. If the use of this method results in inconsistencies, the "fresh start" approach is used. In the fresh start approach, the current unfunded actuarial liability is projected and amortized over a set number of years.

(3) The UAAL of the Public Employees' Retirement Fund by major employer group from the June 30, 2006, valuation is as follows: a) ($15,441,000,000) for the State of California, b) ($2,909,000,000) for schools, and c) ($10,747,000,000) for public agencies.

**Benefit Comments:** Defined Benefit (DB): One year FAS with 25 years of service; DB Supplement: Service retirement benefit equals balance of credits in member's account; Cash Balance Benefit: Service retirement benefit equals balance of credit in participant's account.

**Comments:**

All of the figures in this plan include data from both the Defined Benefit Plan and the Cash Balance Plan. Program information is presented as follows: General Tier I - Defined Benefit Program, General Tier II - Defined Benefit Supplement, and General Tier III - Cash Balance Program.

Actual member and employer rates are set by the State Teachers' Retirement Law, which assigns the authority to establish and amend contribution requirements to the State Legislature.

Defined Benefit Program (DB Program):

State of California - Beginning July 1, 1999, under Education Code Section 22955, the General Fund transferred annually to the DB Program an amount equal to 3.102% of total creditable earnings of the immediately preceding calendar year to fund certain benefit enhancements effective January 1, 1999. The enactment of Chapter 1021, Statutes of 2000 (AB 2700), provided for a reduction in such funding from the General Fund to a factor of 2.5385% beginning July 1, 2000. This was further reduced to 1.9750% beginning July 1, 2001 through June 30, 2003. Beginning July 1, 2003, the rate was changed to 2.017% of the member's creditable earnings from the fiscal year ending in the prior calendar year.

Beginning October 1, 1998, a statutory contribution rate of 0.524%, adjustable annually in 0.25% increments up to a maximum of 1.505%, of the creditable earnings of the immediately preceding calendar year was established under Education Code Section 22955. This contribution is reduced to zero if there is no unfunded actuarial obligation and no normal cost deficit for benefit plans in place as of July 1, 1990. Based on the most recent actuarial valuation, as of June 30, 2006, there is no normal cost deficit or unfunded obligation for benefits in place as of July 1, 1990. As a result, starting October 1, 2007, the General Fund is not required to contribute quarterly payments.

Cash Balance Benefit Program (CBB Program):

The CBB Program, established under Part 14 of the California Education Code (Section 26000 et seq.) and subsequently amended by Assembly Bill (AB) 2673, is a separate defined benefit plan which operates under the IRC within the STRP designed for California's public schools employees who are hired to perform creditable service for less than 50% of the full-time equivalent for the position.

**Footnote:**

(1) An employee can be a member of multiple tiers. As listed, each tier includes the number of employees participating in that tier. Therefore, the same employee can be counted more than once. The actual total membership is 812,784.

(2) The Cash Balance Benefit and Defined Benefit Supplement Programs of the State Teacher's Retirement System use the Traditional Unit Credit Cost Method.

(3) Education Code Section 22901 provides that the State will contribute 8.00%. If it is needed, 0.25% of additional funding is available from the State, per Education Code 22955.

**Comments:**

On September 30, 2007, the University's contract to operate and manage the Lawrence Livermore National Laboratory (LLNL) for the National Nuclear Security Administration of the Department of Energy (DOE) expired. The DOE awarded the contract to a separate legal entity, Lawrence Livermore National Security, LLC (LLNS), which assumed management of LLNL on October 1, 2007. LLNS is a joint venture between the University and private industry members to operate and manage LLNL. The plan assets and liabilities attributable to certain transitional employees who elect employment with LLNS are expected to be transferred to a pension plan maintained by LLNS at a future date provided all required and advisable regulatory rulings and approvals are obtained. The amount of plan assets and liabilities that may be transferred to the LLNS pension plan is dependent on future elections to be made by the approximately 7,300 active members currently working at LLNL, and the outcome of future discussion with the DOE.

**Footnote:**

(1) Safety inactive vested members are included with Safety active vested members.

(2) Under an agreement between the University and the DOE, a contribution of $17,440,449 is receivable from the DOE on behalf of the Los Alamos National Laboratory (LANL) members.

(3) Effective June 1, 2006, the management of the Los Alamos National Laboratory (LANL) transferred from the University to the Los Alamos National Security, LLC (LANS). Approximately 6,600 former UC employees elected to transfer their accrued UCRP benefits and service credit to the LANS Defined Benefit Pension Plan.

Under the terms of the management contract between the University of California and the Department of Energy/National Nuclear Security Administration (DOE/NNSA) governing the transition to a successor contractor, the University transferred this amount of net assets associated with the UCRP benefits accrued by LANL employees who elected to participate in the LANS plan.

**Benefit Comments:** (1) Non-Service Connected Disability. Eligibilty limited to members with at least 5 years of service, regardless of age.
(2) Service Connected Disability. Any member is eligible, regardless of length of service.

**Comments:**

In 2006, Alameda County Employees' Retirement Association (ACERA) implemented the provisionof GASB Statement No. 43 which establishes uniform financial reporting standards for Other Post Employment Benefit plans.

General and Safety Tiers 1 are being used for those members hired on or before June 30, 1983. General and Safety Tiers II are being used for members hired after June 30, 1983. General Tier III is being used for special district member agencies.

**Footnote:**

(1) Other Revenues consist of ($85,598,000) for earnings allocated to Other Post Employment Benefit (OPEB) and non-OPEB reserves.

(2) During the year ended December 31, 2004, the Board adopted a provision of the County Employees Retirement Law of 1937 (Section 31580.3) that provides additional budgeting discretion. For a limited period (until January 1, 2007) the Board may elect to adopt an administrative expense budget based on 0.23% of net assets based on an asset valuation date in an earlier year. The Board approved the final revised 2005 and 2004 administration budget in accordance with the Section 31580.3 limitation.

During the year ended December 31, 2005, the Board adopted a provision of the County Employees Retirement Law of 1937 (Section 31522.6) that allows ACERA to exclude business continuity-related expense from that portion of administrative expense subject to the statutory limit.

(3) Prior year reports included OPEB amounts. Starting this year, OPEB can be separately identified. Therefore, OPEB assets are being removed from the beginning balance.

**Comments:**

General Tier I includes members not mandated to be in Tier II or Tier III and reciprocal members who elected Tier I membership. As of December 31, 2006, there are no active Tier II member accounts. Tier III is open to all new employees and those who were in Tier II and elected to transfer to Tier III.

Contribution Rate Tiers are set up differently from membership. General Tier I is used for county members enrolled in Tier I and General Tier IV is used for district members enrolled in Tier I. General Tier III is used for county members in Tier III and General Tier VI is used for district members enrolled in Tier III.

Member counts include retirees and beneficiaries of the following former participating agencies: Alamo-Lafayette Cemetery District, City of Pittsburg, Delta Diablo Sanitation District, Diablo Water District, Ironhouse Sanitary District, Kensington Fire Protection District, Office of Education, and Stege Sanitary District.

**Footnote:**

(1) The plan's current accounting software is unable to break out disability payments from the service retirement benefit payments.

(2) The County is now paying 50% of the members' basic contributions on a nonrefundable basis. Districts pay varying portions, up to 100%. Members also pay 50% of the cost-of living benefit.

**Comments:**

On March 23, 2004, the County of Fresno issued $402,898,000 in Pension Obligation Bonds (POBs), of which $398,141,000 was transferred to the Association to fund the UAAL and $4,757,000 was used to pay the issuance costs.

On March 19, 1998, the County of Fresno issued $184,910,000 in POBs, of which $183,632,000 was transferred to the Association to fund the unfunded actuarial accrued liability (UAAL) and $1,278,000 was used to pay the issuance costs. With the establishment of enhanced benefits, safety employers were required to begin contributions during fiscal year 2001-02. General employers began contributions during fiscal year 2002-03.

On May 7, 2003, the County brought suit against the Fresno County Employee's Retirement Association (FCERA) and its Board of Retirement in County of Fresno vs. Board of Retirement of the County of Fresno, Fresno County Employees Retirement Association, et al., Case No. 03-CE-CG-01569. The complaint alleges that the method by which the FCERA calculates its members' final compensation for purposes of establishing their retirement allowances (sometimes referred to as the "Fresno Method") violates the law.

On March 2, 2004, the Superior Court issued a tentative decision declaring that the Fresno Method did not comply with the statutes. Thereafter, the Board of FCERA resolved to (a) immediately change its method of calculated retirement allowances for all future members of the retirement system and (b) recalculate all retirement allowances for current employees retiring after March 1, 2004, as of the date of their retirement.

On September 3, 2004, the Superior Court denied Fresno Deputy Sheriffs' Association's (FDSA) request for preliminary injunction preventing the FCERA board from implementing its planned changes to its method of calculating retirement allowances during the pendency of the litigation. On October 18, 2004, the Court issued its second tentative decision, ruling against the FDSA. Following the testing of software modifications required to implement the Court's decision, the FCERA began recalculating retirement benefits in November 2004.

By Judgement dated October 25, 2005, the court ruled in favor of the county for declaratory relief. FDSA appealed the Judgement. As of June 30, 2007, overpayments in the amount of $1,606,482 have been collected and underpayments to retirees in the amount of $935,953 have been issued. The project is scheduled for completion by winter of 2007.

**Footnote:**

(1) The UAAL is amortized over 30 years for plan amendments and 15 years for all other adjustments.

**Comments:**

All retirees and survivors are eligible for health insurance benefits. As of July 1, 2002, each county department started contributing a percentage of payroll to the medical plan to cover medical premiums. As of July 8, 2005, the percentage paid by county departments was 5.08%.

On September 20, 2002, the County of Imperial issued pension obligation bonds in the amount of $33,265,000, with the final payment on the bonds due August 15, 2031. The bond proceeds were used to pay the county's unfunded actuarial accrued liability (UAAL).

On November 4, 1997, the Imperial County Board of Supervisors adopted Resolution #97-120, which authorized the issuance of pension funding bonds. The bonds were subsequently issued in December 1997 in the amount of $35,175,000, with the final payment on the bonds due August 15, 2020. The bond proceeds were used to pay the retirement system for the county's UAAL.

**Footnote:**

(1) The employer rate includes an additional contribution to the system at a rate of 3.00% of the employees' earnable compensation. The contribution is considered part of the employer contributions and is not refundable to the member at termination.

**Comments:**

The Kern County Employees' Retirement Association (KCERA) previously adopted California Government Code section 31618, which provides for the establishment of the Supplemental Retiree Benefit Reserve (SRBR). SRBR currently provides retirees with 80% purchasing power parity and a $1,000 death benefit.

In June 2003, the County of Kern issued $285 million in pension obligation bonds (POBs) intended to cover the existing unfunded actuarial accrued liability (UAAL) as of December 31, 2003. The proceeds were transferred to the KCERA.

**Footnote:**

(1) On August 3, 2004, the Kern County Board of Supervisors approved a Memorandum of Understanding (MOU) between the county and the Central California Association of Public Employees adopting Government Code Section 31676.17, which provided enhanced retirement benefits, commonly known as 3% at 60, for general member employees. The enhanced benefits became effective January 1, 2005, resulting in record increases in retirements.

(2) The MOU, adopted August 2004, by the county and its employees states that all general members hired prior to the first day of payroll period 04-16 shall pay 100% of the employees' normal contributions until they have attained five years of service, at which point those employees shall no longer be required to make their normal contributions to retirement and the county shall pay 100% of those employees' normal contributions. All general members hired on or after the first day of payroll period 04-16 shall pay 100% of the new employees' normal contributions to retirement.

(3) The MOU, adopted May 2004, by the county and its safety employees states that all safety members with five or more years of service shall not be required to pay any contributions to retirement and the county shall pay 100% of those employees' normal contributions.

**Comments:**

During fiscal year 2006-07, in addition to the cash contribution of $751,928,265, the County of Los Angeles directed the Los Angeles County Employee Retirement Association (LACERA) to transfer $111,697,775 from the County Contribution Credit Reserve to meet the balance needed for 100% of the contribution required.

From 1995 to 2001, no UAAL contributions were required, and the county contributed only its portion of the normal cost contributions. Under the 2002 Retirement Benefits Enhancement Agreement, the county also must pay its portion of the normal cost contributions adjusted for either a positive UAAL or a positive funding surplus.

LACERA had accounted for other post-employment health benefits (OPEB) in the pension fund. GASB 43 accounting standards were adopted effective June 30, 2007.

**Footnote:**

(1) Under the Retirement Benefits Enhancement Agreement with the county, any positive amounts as of June 30, 2002, through June 30, 2008, must be amortized over a rolling 30 years.

(2) Transfer to the Other Post Employment Agency Fund.

**Comments:**

Marin County is an agent multiple-employer plan that includes the County Courts, the City of San Rafael, the Novato Fire District and seven other special districts. Their tier structure has changed for fiscal year ending 06/30/07. The membership and retirement benefit policies are reflected as follows: The County, with 4,453 members, is shown under General and Safety Tier I. The City of San Rafael has 893 members and is shown under General and Safety Tier II. Novato Fire District has 177 members and is shown under General and Safety Tier III.

In the current year, County of Marin Other Post-Employment Benefit (OPEB) is no longer paid by the retirement plan. However, it does include OPEB for the City of San Rafael. The money is received from the city through their active payroll and reimbursed at year end.

The Contribution Rates are broken out as follows: County -- General and Safety Tiers I, City of San Rafael -- General and Safety Tiers II, and Novato Fire District -- General and Safety Tiers III.

The UAAL amortization periods for the county, Southern Marin Fire District, and LAFCO are 20 years, while the remaining districts range from 12 to 16 years.

**Footnote:**

(1) Marin County Employees' Retirement Association is unable to separate disability benefits from retirement benefits.

**Comments:**

The proceeds from the 2002 pension obligation bonds reduced the unfunded pension liability to less than 10% of the actuarially accrued liability at June 30, 2004. The funding agreement indicates that the County is not required to fund the UAAL if it does not exceed 10% of the total pension liability. However, as of June 30, 2007, the UAAL exceeded the target balance. Consequently, the actuaries have recommended contribution rates that will progressively increase over the next 10 years.

General Tier IV is being used for Probation Tier 1 and Safety Tier III is being used for Probation Tier 2.

**Footnote:**

(1) Disability benefits are included with Service Retirement benefits.

(2) Adjustment is to remove OPEB.

**Comments:**

The County Board of Supervisors adopted enhanced benefits for all county general members Tier 1 and Tier II, Resolution No. 2005/37 on March 15, 2005. The enhanced benefits do not apply to county members who, on March 15, 2005, were deferred, reciprocal or Merced County Cemetery District employees.

**Footnote:**

(1) Assets related to post-employment healthcare benefits could not be identified separately.

(2) The amortization method used for years in which there is an unfunded actuarial accrued liability is the level percentage of covered payroll.

(3) The adjustment is necessary to remove the effect of post-employment healthcare benefits in prior years.

**Comments:**

Orange County Employee's Retirement System (OCERS) tier structure has changed. For fiscal year ending 12/31/2006, the reported tier structure is as follows:

General Tier 1 = All County except Orange County Transportation Authority (OCTA)
General Tier 2 = 2.7% @ 55
General Tier 3 = OCTA
General Tier 4 = 2.5% @ 55
General Tier 5 = 2.7% @ 55 Orange Co. Fire Authority
General Tier 6 = 2.0% @ 55
Safety Tier 1 = Law Enforcement
Safety Tier 2 = Fire Authority
Safety Tier 3 = Probation Officers

In September 1994, Orange County (county) issued $320 million in pension obligation bonds (POB), of which $318.3 million in proceeds was paid to the OCERS and recorded as employer contributions in 1994. For accounting purposes, the proceeds were put into the County Investment Account (Account). Subsequent agreements between the Board of Retirement and the county provide that the Account will be used to fund the County's employer contribution in a decreasing percentage each year. The offsetting credit for fiscal year ending December 31, 2006, was $11,000,000.

**Footnote:**

(1) OCERS has nine separate benefit tiers. However, other than active employees, OCERS could not provide the necessary membership breakdown as requested. Therefore, all remaining membership was placed in General Tier II and Safety Tier I.

(2) Prepaid unearned contributions. In prior years, these were netted against the retirement benefits.

**Benefit Comments:** Members with five years of service, regardless of age, are eligible for non-service-connected disability. For General Tier 1 members, the benefit is 1.5% (1.8% for Safety Tier 1 members) of FAS for each year of service.

**Comments:**

On July 1, 2004, the Sacramento County Employees' Retirement System (SCERS) received $420 million in pension obligation bonds (POB) issued by the County of Sacramento. On October 20, 2004, SCERS received $10,538,000 in proceeds from POBs issued by the Sacramento Metropolitan Fire District. Proceeds from both POBs were recorded as contributions when received.

| - Maximum | 50 % | 50 % | — | 50 % | — | — | 50 % | 50 % | 50 % |

**Benefit Comments:** General: Age Factor x .02 x service credit x final compensation. Safety: Age Factor x (.02 or .03) x service credit x final compensation. Non-Service disability benefit requires five years; benefit is 20% with 2% each additional year.

**Comments:**

On June 24, 2004, the San Bernardino County Employees' Retirement Association (SBCERA) received pension obligation bonds proceeds of $506,090,000 from the County of San Bernardino and South Coast Air Quality Management District.

**Footnote:**

(1) The contribution rates shown under the heading for General members are for the following employee categories: Tier I = all other participating agencies except the South Coast Air Quality Management District (SCAQMD) and the County of San Bernardino, Tier II = the County of San Bernardino, and Tier III = SCAQMD. Tier IV = Superior Court.

The contribution rates shown under the heading for Safety members are for the following employee categories: Tier I = Barstow Fire, and Tier II = the County of San Bernardino. Tier III = all other participating agencies.

On November 11, 2006, Safety Tier I members went to Safety Tier III.

**Comments:**

In June 2004, the County of San Diego issued pension obligation bonds (POB) in the amount of $454.1 million and transferred $450 million to the retirement fund for investment.

On October 3, 2002, the San Diego County Employees' Retirement Association (SDCERA) received $550 million from the county related to its sale of taxable POBs to help fund the increased actuarial accrued liability resulting primarily from benefit enhancements.

**Footnote:**

(1) Tier III is used for SDCERA's Plan A, which is the current open system for General members who entered the system on or after March 8, 2002.

(2) Transfer of employer contributions from the healthcare plan.

**Comments:**

The information shown as General Tier I pertains to Miscellaneous SLOCPT members only, Safety Tier I pertains to Safety members and Safety Tier II pertains to Probation officers.

In July 2003, the plan sponsor issued a pension obligation bond for $135 million to pay off the unfunded liability of the San Luis Obispo County Pension Trust (SLOCPT).

**Comments:**

The Santa Barbara County Employee's Retirement System (SBCERS) has previously accounted for their other post-employment health benefits (OPEB) in their pension fund. Effective in 2007, SBCERS implemented the provisions of GASB No.43 accounting standards, Financial Reporting for Post Employment Benefit Plans Other Than Pension.

The SBCERS has 15 retirement plans. Current year data will be reflected as follows:
General Tier I = General Plan (GP) 1
General Tier II = GP2
General Tier III = GP5A through GP5C
General Tier IV = Air Pollution Control District (APCD) Plan 1
General Tier V = APCD Plan 2
Safety Tier I = Safety Plan (SP) 1
Safety Tier II = SP2
Safety Tier III = SP4A through SP4D, SP6A and SP6B

**Footnote:**

(1) General Tier III Includes GP5A through GP5C. The rates shown are for GP5A. Employer rate for GP5B is 15.63%. There are are no rates established for GP5C since members will be transfered from GP5B on March 10, 2008.

(2) Safety Tier III includes SP4A through SP4D, SP6A and SP6B. The rates shown are for SP4A. Employer rate for SP4B through SP4D is 30.53%. There are are no rates established for SP6A or SP6B since members will be transfered from SP4A and SP4D on February 25, 2008, respectively.

(3) General Tier III Includes GP5A through GP5C. The rates shown are for GP5A. Employee rates for GP5B are 6.53% for age 25, 7.09% for age 35 and 8.00% for age 45. There are are no employee rates established for GP5C since members will be transfered from GP5B on March 10, 2008.

(4) Safety Tier III includes SP4A through SP4D, SP6A and SP6B. The rates shown are for SP4A, SP4C and SP4D. Employee rates for SP4B are 11.48% for age 25, 12.71% for age 35 and 14.03% for age 45. There are are no rates established for SP6A or SP6B since members will be transfered from SP4A and SP4D on February 25, 2008, respectively.

| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | 50 % | — | — | — | — | — | 50 % | — | — |

**Benefit Comments:** Members with five years of service, regardless of age, are eligible for non-service-connected disability. The benefit is 1.8% of final compensation for each year of service.

**Comments:**

The plan implemented Governmental Accounting Standards Board Statement No. 43, Financial Reporting for Post Employment Benefit Plans Other than Pension Plans, for the year ended December 31, 2006.

Cost of Living Adjustment (COLA) legislation for Sonoma County (AB 2894) was passed by the Legislature and signed by the Governor in September 2004. The legislation prioritizes Sonoma County COLA grants to those retirees with the greatest loss of purchasing power as it allows the Board to recommend an 80% purchasing- power-only COLA.

**Footnote:**

(1) The adopted rates are lower than the recommended rates because the adopted rates include only the normal cost and unfunded actuarial accrued liability, whereas the recommended rates include a portion for the pension obligation bond proceeds.

**Comments:**

In the current year, General Tiers I, II, IV, V and Safety Tiers IV, and V are shown separately and Safety Tiers 1 and 2 are combined.

The Ventura Litigation has been finalized. The State Supreme Court has declined to rule on the final appeal and has let the appellate court ruling stand. The total cost of the benefits will be $7,183,836. The cost of these benefits will be recognized by Stanislaus County, Stanislaus County Superior Courts and the City of Ceres. Payments for these benefits were received from the City of Ceres on September 28, 2006 and Stanislaus County on September 30, 2006, which comprise 98.6% of the total costs.

**Footnote:**

(1) The unfunded actuarial accrued liability (UAAL) attributed to Other Employers is amortized as a level percentage of pay over the period ending June 30, 2023.

(2) Includes $7,097,273 for post-Ventura decision settlement.

(3) The adjustment of $109,247,101 is to reverse prior year's mistaken transfer of plan assets to the Post-Employment Health Benefits Fund.

| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | 50 % | 50 % | — | — | — | — | 50 % | — | — |

**Comments:**

In addition to actuarially determined employer contributions, the Ventura County Employees' Retirement Association's (VCERA) employers, pursuant to Government Code No. 31581.1, contribute a portion of the required member contributions. These contributions do not become part of the member's accumulated contributions; instead, the contributions vest, pursuant to the law, in the employer advance reserves.

**Footnote:**

(1) The UAAL is being recognized over a 15-year rolling period effective June 30, 2004.

(2) Employer contributions increased substantially as plan sponsors were required to make higher actuarially determined employer contributions due to (a) the decrease in VCERA's funded ratio as the growth in actuarial accrued liabilities outpaced the growth in the actuarial value of assets and (b) the lower earnings assumption rate implemented in 2003.

**Comments:**

Plan 1079 is for police and fire employees who entered service before 1953. It is a closed plan consisting of 47 participants, all of whom are retired employees or beneficiaries currently receiving benefits.

Plan 1082 is a closed plan and, effective December 31, 1990, all but two participants and their related plan assets were transferred to PERS. Plan 1082 has now been released from all future pension obligations for transferring members. Plan 1082 is obligated to pay supplementary Medicare and dental coverage expenses, which are funded on a pay-as-you-go basis.

The City of Alameda makes benefit contributions on a pay-as-you-go basis for both plans. The plans' annual required contribution is based on the greater of the following: 15-year amortization of the unfunded actuarial accrued liability or actual benefits paid during the year.

**Comments:**

Contribution rates are based on the city charter, which requires the City of Albany (city) to contribute 9% of gross wages and active plan participants to contribute 9% of gross wages. However, in accordance with the current union contract, active plan participants' contributions were reduced to 0%, and the city's required contribution was increased to 18%. No active plan participants existed as of June 30, 2007, and the plan is closed to new participants. However, based on the funding ratio of 103%, no contributions were required to be made for fiscal year 2006-07.

**Comments:**

This plan accounts for Fire Department personnel who retired prior to June 26, 1972. No employer or employee contributions were made to this plan after June 26, 1972. The only activity in the plan is the receipt of income on invested assets and the payment of vested benefits.

**Comments:**

The city's annual required contribution (ARC) is the greater of (a) a 20-year amortization of the unfunded actuarial liability, or (b) actual benefit payments made for the year. For the fiscal year ended June 30, 2006, the city's ARC was $1,816,236, equal to the benefits during the year. The city contributed this amount through a $927,000 payment from the GIC plus $889,236 paid from the General Fund.

**Footnote:**

(1) Guaranteed Income Contract (GIC) balance. The City of Berkeley pays the Safety Members' Pension Fund (Plan) primarily on a rolling pay-as-you-go basis. In February 1979, the Berkeley Civic Improvement Corporation purchased, on behalf of the city, a GIC. The GIC provides annual payments through 2018 and an annual guaranteed 9.68% rate of return (net of expenses). The city pays from the general fund the difference between actual benefit payments and contract-provided annual payments.

In prior years, the GIC was not included in the State Controller's Office (SCO) report because it was inadvertently considered a city asset, when it should be a plan asset. In the current year, the city has correctly included the GIC in the SCO report.

| - Maximum | — | — | — | — | — | — | 50 % | — | — |

**Benefit Comments:** The maximum benefit payment for police members is 75% of final average salary.

**Comments:**

The Years Remaining in Total Unfunded Actual Liability Amortization has increased due to higher than expected retired liabilities. This is mainly a result of higher benefits than expected from reciprocity with other public agencies for new retirees who were previously-vested terminations as of December 31, 2004.

**Footnote:**

(1) No active members remain in the plan. Effective fiscal year 2001, the City of Concord started collecting 1% of citywide payroll to help pay the unfunded liability.

| - Maximum | — | — | — | — | — | — | 50 % | — | — |

**Footnote:**

(1) The city has been contributing 9.00% for Management (including Police Management), 6.20% for General members, and 7.40% for Police (prior to July 1, 2005) except for the employee contribution rates based on service shown below, which are deducted from the partcipant's basic earnings.

The employee contribution rates are as follows:

| | Miscellaneous Membership | | | |
|---|---|---|---|---|
| Years of Service | 0-1 | 1-2 | 2-3 | More than 3 |
| Contribution Rates | 6.20% | 4.20% | 2.20% | 0.00% |

Effective July 1, 2005, the active police officers who are covered under CalPERS and police management personnel who elected to join CalPERS have 7.0% of their covered compensation contributed which exceeds the monthly compensation breakpoint of $133.33, with 3% contributed by the City of Delano (city) and 4.0% contributed by the active police officers for all future years of service with the city.

**Comments:**

The plan's assets were exhausted as of June 30, 2005. Future payments will be made on a pay-as-you-go basis from the city's general fund.

**Footnote:**

(1) The four remaining members in the plan are all receiving benefits. The actuarial analysis states that actuarial projections of benefit payment requirements for such a small group are useful for planning but should not be taken as providing an accurate estimate of any set of benefits very many years in the future. The actuaries have recommended a method of funding which, in effect, keeps the city's contribution level as a percent of total expected city revenues, while ensuring that no assets will remain in the plan when it terminates.

**Comments:**

The City of Emeryville Miscellaneous Pension Fund was established to support two retirement programs: 1) pension stipends for remaining retirees on the city's old retirement system, which existed prior to the city's entry into CalPERS; and 2) the unfunded liability for retiree medical, dental, and vision benefits.

Prior year reports, 1999 and earlier, included the post-employment health benefit plan in the amounts reported. Reports from 2000 reflect only the City of Emeryville Pension Plan.

**Footnote:**

(1) The actuary has determined the City of Emeryville's annual pension cost is the greater of (a) Annual Required Contribution, which is based on the the sum of 12-year ammortization of the unfunded actuarial accrued liability plus Normal Cost or (b) actual benefit payments made for the year.

**Comments:**

The plan was terminated on June 30, 1984, when its only remaining participants were retired members and employees who elected not to be covered by CalPERS.

**Footnote:**

(1) In fiscal year 2004-05, the City of Eureka transferred $316,800 out of the City of Eureka Fire and Police Retirement System Pension Trust Fund to the city's General Fund for Public Safety Operations. The State Controller's Office was concerned about the legitimacy of this transaction and contacted the city. Generally Accepted Accounting Principles indicate that fiduciary funds should be used to report assets held in a trustee capacity for others and therefore cannot be used to support the government's own programs.

| - Maximum | 33 % | — | — | — | — | — | — | — | — |

**Comments:**

Employees who are age 55 with five years of service may elect for the Deferred Retirement Option Plan (DROP). Retirement amount is calculated and monthly deposits are made to the employee's DROP account while the employee continues to work, up to a maximum of 10 years.

Retirement benefit is 2% multiplied by the number of years of non-DROP service (through the first 25 years), plus 1% of any years in excess of 25, muliplied by 1.0, 1.10, 1.30 for ages 55, 60, and 65 respectively.

**Footnote:**

(1) The system's actuarial surplus is being amortized on a level percentage of projected payroll over an open 15-year period.

(2) The employer contribution rate is currently set at 10.52%; however, no cash contributions were required from the City of Fresno due to prepaid contributions of $1,566,215. The remaining city employer contributions were offset by prefunded actuarial accrued liability.

**Comments:**

On March 29, 1994, the City of Fresno issued $241,480,000 in pension obligation bonds to fully fund the city's unfunded benefit obligation. In July 1994, the city deposited prepaid normal contributions, which are classified as prepaid contributions, to the Fire and Police Retirement System. The prepayment will earn an interest rate of 8.25%.

Employees who are age 55 with 10 years of service for Safety Tier 1 or five years of service for Safety Tier II may elect for the Deferred Retirement Option Plan (DROP). Retirement amount is calculated and monthly deposits are made to the employee's DROP account while the employee continues to work, up to a maximum of 10 years.

**Footnote:**

(1) The city contribution of $10,806,791 includes cash contributions of $5,160,290 and prepaid contributions on deposit with the system of $5,646,501. The remaining city employer contributions were offset by the prefunded actuarial accrued liability.

**Comments:**

As of June 30, 2007, the City of Los Angeles Fire and Police Employees' Pension System (System) was composed of five tiers. For presentation purposes only, Safety Tier III includes Safety members from Tiers 3, 4, and 5. Safety Tiers 3 and 4 are closed to membership, while Safety Tier 5 is open to new membership. Individual Tier membership is as follows: Safety Tier 3 = 1,494; Safety Tier 4 = 587; Safety Tier 5 = 12,701.

Employer contribution rates for Safety Tiers 4 and 5 are as follows:

| | Tier 4 | Tier 5 |
|---|---|---|
| Normal | 12.84% | 16.62% |
| UAAL | 1.96 | 0.06 |
| Total | 14.80% | 16.68% |
| | | |
| Employee Rates: | 8.00% | 9.00% |

Effective May 1, 2002, and through April 30, 2007, members of the System have the option to enroll in the Deferred Retirement Option Plan (DROP) under Section 4.2100 of the Administrative Code. Members who enroll in DROP continue to work and receive their active salary for up to five years. Enrolled members continue to contribute to the System until they have completed the maximum number of years required for their tier but cease to earn additional retirement service and pay credits. Monthly pension benefits that would have been paid to enrolled members are credited into their DROP account. DROP account balances will earn interest at an annual rate of 5%.

Once the DROP participation period ends, enrolled members must terminate active employment. They then receive proceeds from their DROP account and a monthly benefit based on their service and salary at the beginning date of the DROP, plus applicable cost-of-living adjustments.

At June 30, 2007, 1,200 pensioners were enrolled in the DROP program, with a total estimated value of all DROP accounts of $213 million.

**Benefit Comments:** The only policy is that the cost-of-living increase and payments cease upon death of the member. There are no disability benefits provided.

**Comments:**

This plan was adopted effective January 1, 1990; it covers management/confidential employees and non-management/confidential sworn police employees on July 1, 1990, and is for employees who retired prior to May 1993. The plan pays a retiring employee the difference between the pension payable from PERS and what the PERS pension would be if it were based on the single highest year only. The City of Manhattan Beach has ceded the liabilities of active participants in the plan to CalPERS as of July 1, 1993.

The plan is currently dormant, with payments being made from interest earnings and accumulated balances.

**Benefit Comments:** Policy is that the cost of living increase and payments cease upon death of the member. There are no disability benefits provided.

**Comments:**

This plan covers police, fire, and management/confidential employees who retire prior to January 1995. The plan pays a retiring employee the difference between the pension payable from PERS calculated under the life annuity option and the PERS benefit had the City of Manhattan Beach (City) adopted the Police Officers' Standards and Training (POST) windows and orphans salary continuation plan. The City has ceded the liabilities of active participants in the plan to CalPERS as of January 1, 1995.

The plan is currently dormant, with payments being made from interest earnings and accumulated balances.

**Comments:**

Police officers and firefighters hired after June 30, 1976, are members of CalPERS, which is administered by the State of California.

**Footnote:**

(1) The City of Oakland issued pension obligation bonds in the amount of $417,173,300 to fund the Retirement System during the year ended June 30, 1998, and, as a result, no employer contributions are required through the year ending June 30, 2011.

**Comments:**

The City of Oakland (city) contributes amounts necessary, on an actuarial basis, to provide assets sufficient to meet benefits as they come due. No identified unfunded actuarial accrued liability exists and the city made no contributions for the fiscal year ended June 30, 2007.

Retirement benefit is 1/60 of final salary times years of service, times a factor ranging from 0.59 to 1.41 for ages 52 through 65 and above, respectively. Disability benefit is 1.5% times year of service times final salary, subject to minimum benefits based on service adjusted by salary under the Labor Code for disability or death arising out of the performance of duty.

**Footnote:**

(1) Payable to the City of Oakland. The amount reflects the agreement between the retirement system and the city that when net assets exceed 125% of actuarially determined present value of liabilities, they shall be recorded as a payable to the city.

**Comments:**

The funding plan was updated on March 18, 1999, when the Pasadena Fire and Police Retirement System (System) entered into Contribution Agreement No. 16,900 (Agreement) with the City of Pasadena (city). Per the Agreement, the System is considered to meet minimum funding requirement if the funded percentage exceeds 73.5% for the year ended June 30, 2007. The minimum fully funded percentage will increase by 1/2% each year until it reaches 80%, or for each of the next 20 years.

The minimum funding deficits were $3,462,757 as of June 30, 2007. The Agreement states that if this minimum funding deficit is greater than $3,000,000, the city will pay $3,000,000 to the System; any remaining amount necessary to reach the minimum funding percentage is to be phased in over a five-year period.

As of June 30, 2007, the actuarially-determined unfunded accrued liability was $51,909,371 and the funded status of the System was 71.6% - below the minimum funding percentage of 73.5%. As a result, the employer rate adopted by the governing body is 2,190%.

**Footnote:**

(1) Per the terms negotiated through their respective recognized associations, employee contributions of 9% for both fire and police personnel base earnings were made by the city on behalf of the employees and credited to their individual accounts.

**Comments:**

The plan is closed to new participants. As of June 30, 2007, all active Police and Fire Department employees participate in CalPERS.

**Footnote:**

(1) The Retirement Board has adopted an asset-smoothing technique. This technique recognizes realized and unrealized appreciation in the market value of assets over a period of approximately five years and incorporates a minimum value of 80% of market value and maximum value of 120% of market value.

**Benefit Comments:** The City and employees both contributed to the establishment of a reserve for the purpose of paying an annuity at age 65 of 1/140th of the final compensation for each year of service after entry into the system.

**Comments:**

This system is closed. Actuarial obligations have been calculated as the present value of all future benefit payments.

**Footnote:**

(1) The City of Pittsburg uses mortality tables to determine the actuarial accrued liability.

**Comments:**

The results of Oliver Consultants' actuarial valuation as of July 1, 2005, reported that the Plan's recommended contributions increased and the funded ratio declined to 46%. The decline is due primarily to mortality losses.

| - Maximum | 75 % | 75 % | 75 % | — | — | — | 75 % | 75 % | 75 % |

**Comments:**

Employer contributions have not been necessary in recent years due to investment returns and demographic results favorable to actuarial assumptions. During the year ended June 30, 2007, active member contributions ranged from 3% to 10% of payroll. There were no actuarially-required employer contributions.

General and Safety Tier I represents the 175 Plan; General and Safety Tier II represents the Equal Share Plan; General and Safety Tier III represents the 399 Plan.

**Footnote:**

(1) Sacramento City Employee's Retirement System's (SCERS) funding ratio has not been less than 100% since June 30, 1989. As of June 30, 2007, the date of the last actuarial valuation, the funded ratio for SCERS was 92%. As a result, the current unfunded actuarial accrued liability has been amortized over a 15-year rolling period.

|---|---|---|---|---|---|---|---|---|---|
| Non-Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |
| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |

**Comments:**

Effective July 1, 1997, the actuary has been using the aggregate cost method. The aggregate cost method does not separately identify or separately amortize an unfunded actuarial accrued liability. Experience gains or losses are spread over future years through adjustment to the Normal Cost, as they are automatically included in the Actuarial Present Value of Future Normal Costs.

**Footnote:**

(1) All contributions to the plan, including an amount attributable to the employees, are paid by the City of San Clemente.

**Comments:**

The Statement of Plan Net Assets and the Statement of Changes in Plan Net Assets both contain data from the defined benefit pension plan of the City of San Jose Police and Fire Department Retirement Plan and do not include the Police and Fire Departments' postemployment healthcare plan.

In prior years, police and fire members were reported combined in Tier I. Effective December 17, 2006, the police member contribution rates were adjusted for benefit improvement. Therefore, the police members moved from Tier I to Tier II. Currently, the membership and members' annual payroll is combined but it will be separated in future reporting.

If a member retired by February 4, 1996, the monthly retirement benefit is final compensation times 2.5% times years of service up to 30 years, not to exceed 75% of Final Average Salary (FAS). After February 4, 1996 but prior to February 4, 2000, the monthly retirement benefit is final compensation times 2.5% times years of service for the first 20 years, 3% for the next 10 years, not to exceed 80% of FAS. After February 4, 2000, the monthly retirement benefit is final compensation times 2.5% times years of service for the first 20 years, 3% for the next five years, by 4% for the next give years of service, not to exceed 85% of FAS.

Effective July 1, 2006, the monthly retirement benefit for Police members is final compensation times 2.5% for the first 20 years of service and by 4% for the next 10 years of service, not to exceed 90% of FAS.

| **Social Security Coverage:** | N | | | | | | | | |
| **Benefit Comments:** | Disability eligibility is five years of continuous service. Benefit is the greater of 1/70th of final compensation for each year of service or 1/3 of final compensation. | | | | | | | | |
| **Disability Benefits as a Percentage of Final Average Salary (FAS):** | | | | | | | | | |
| Non-Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | 33 % | — | — | — | — | — | — | — | — |
| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | 33 % | — | — | — | — | — | — | — | — |

**Footnote:**

(1) Each valuation generates an actuarial gain or loss for each group valued. Each year's gain or loss is amortized over 15 years. Liability changes due to assumption changes and benefit increases have been amortized over 30 years.

(2) For members who entered the system prior to February 1983, the city subsidizes a portion of member contributions. The city contributed $15,433,000 in this manner and a matching contribution of $210,000 for the Family Death Benefit Insurance Plan for the year ended June 30, 2007.

(3) The single rate shown is for employees hired after January 1983.

**Comments:**

The tier structure for membership, contribution rates, and retirement policies for General and Safety are as follows: Tier 1 represents the City of San Diego, Tier 2 represents the Unified Port District, and Tier 3 represents the Airport Authority.

There are 15 years remaining in the total unfunded actuarial liability amortization period for Tier 2 and Tier 3.

**Footnote:**

(1) This amount includes $22,728,577 of the member's portion paid by the plan sponsor.

(2) The adjustment is due to the following corrections: (1) Reclassification of the Deferred Retirement Option Plan of $228,476,931; (2) Prior Year Revised Restatements of -$3,945,721.

(3) For fiscal year 2007, the Annual Required Contribution has been paid at the beginning of year, as calculated by the actuaries. However, the actuarial valuations do not break out the beginning of the year rates between Normal Cost and UAAL amortization.

**Comments:**

The San Francisco City and County Employees' Retirement System (SFERS) tier structure has changed for Safety. For fiscal year ending 06/30/07, the reported tier structure is as follows:
Safety Tier I = Police and Fire participants entering the retirement system prior to November 2, 1976.
Safety Tier II = Police and Fire participants entering the retirement system after November 2, 1976.

In November 2003, voters approved Proposition F, which provides a targeted early retirement for employees who are in job classifications with positions that are being eliminated through the City Budget process. In June 2005, the Board of Supervisors voted to extend the program through June 30, 2007, the final year allowed.

**Footnote:**

(1) The SFERS service retired membership include survivor membership. In the prior years, the survivor membership was provided by the SFERS Administration. However, in the current year, the survivors membership was combined in retired membership.

| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | 50 % | — | — | — | — | — | — | — | — |

**Comments:**

The plan provides retirement benefits for all qualifying union and non-union employees. All represented groups are now combined and reported under one tier.

**Footnote:**

(1) The amortization policy was changed beginning with the valuation as of January 1, 2000. All sources of the Unfunded Actuarial Accrued Liability (UAAL) are combined and amortized as a level percentage of projected active member payroll over a 30-year period. This period will decrease by one year with each valuation, until 15 years is reached. From that point forward, the UAAL will be amortized as a level of projected active payroll over a rolling 15-year period.

(2) The projected salary increases are 3.80% to 10.80% for members of the Amalgamated Transit Union (ATU) and International Brotherhood of Electrical Workers (IBEW) and 3.8% for American Federation of State, County & Municipal Employees (AFSCME) and non-represented members.

|---|---|---|---|---|---|---|---|---|---|
| Non-Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |
| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |

**Comments:**

Due in significant part to the absence of contributions in recent years, the policy contribution has grown from $4.9 million (due June 30, 2004) to the current valuation's $10.9 million (due June 30, 2007). During this same period, only $1.2 million has been contributed to the plan.

**Comments:**

The District contributes on behalf of the participant's contribution, from 0% to 5% of base salary, depending upon classification.

**Footnote:**

(1) Each year's change in Unfunded Actuarial Accrued Liability will be separately amortized over a new 15-year period.

(2) The District made a lump sum contribution of $1,530,000 to prefund the change in defined benefit formula to 2.3% at 55.

(3) All employees are required to contribute to the plan a predetermined percentage of their base salary ranging from 1% to 8% depending upon the member's classification. In addition, the District contributes on behalf of the participant's contribution, from 0% to 5% of base salary, depending upon classification.

**Benefit Comments:** No disability benefits exist other than normal termination benefits. Normal retirement benefits are equal to the participant's accrued benefit as of June 30, 1986, converted to a lump sum, plus additional calculations through May 1997.

**Comments:**

The Desert Hospital Retirement Protection Plan (Plan) has been frozen since May 31, 1997. Due to the Plan's status as a frozen plan, it is not subject to the ERISA rules. Therefore, certain disclosures and supplemental schedules required for the financial statements to be in accordance with generally accepted accounting principals were not included.

| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | 50 % | — | — | — | — | — | — | — | — |

**Benefit Comments:** Benefits are 50% of Average Final Earnings (AFE) plus 1% of AFE for each additional year to age 65. For members who retire after age 60 with at least 20 years of service, an additional 1% of AFE is added.

**Footnote:**

(1) The District's contributions to the plan are determined as a result of collective bargaining with the Amalgamated Transit Union Local No. 1575. The employer contribution to the plan is 15.165% of covered payroll. Of this amount, the District will annually deposit up to $80,000 into the Health and Welfare Trust to defray the cost of retiree medical benefits.

**Benefit Comments:** There are no separate disability benefit provisions.

**Comments:**

The Board of Directors passed a resolution that allowed employees, as of December 31, 2002, to make an irrevocable choice between continuing in the Retirement Plan and receiving matching contributions to the 401(K) plan. Nonvested employees who elected not to continue in the Retirement Plan gave up their accrued benefits under the plan. New employees hired on or after January 1, 2002 are ineligible to participate in the Retirement Plan.

**Comments:**

On September 24, 2007, changes in plan actuarial assumptions were adopted by the Long Beach Transit Board of Directors. The changes include lowering the expected investments return rates from 8% to 7.5%; updating the mortality table, and using a 30-year funding period for any changes, current and future, that result in increased costs to the plan.

**Comments:**

A Deferred Retirement Option Program (DROP) was established effective January 19, 2005. This program allows participants to elect "retirement" without separation of employment. At "retirement," the benefit accrual and employee contributions in this plan will cease. The monthly benefit, which must be taken as an annuity, will be deposited into an account that is part of the Trust Fund. This account will earn investment earnings, but there is no investment return guarantee. At separation of service (or death or disability, if earlier), the value of the DROP account will be paid. Additionally, the regular monthly benefit will commence. In the long term, DROP may change the percentage of retirees electing lump sum options and the timing of retirements.

**Footnote:**

(1) This amount represents the accrued value attributable to former members who transfered from the other plans and have now retired and are receiving a benefit paid by this plan.

(2) Year-end audit adjustments of Other Income for Life Insurance deductions, return of benefit payments and audit reclassification among plans.

(3) Salary increase rate was changed from a flat 4.5% to an age-based rate ranging from 11.25% to 2.75% for ages 20 years through 55 years and older, respectively.

**Comments:**

Effective July 1, 2000, the Metropolitan Transportation Authority contributes funds up to 11% of payroll per year. Anything more than 11% is split between employer and employee.

A Deferred Retirement Option Program (DROP) was established effective December 4, 2003. This program allows participants to elect "retirement" without separation of employment. At "retirement," the benefit accrual and employee contributions in this plan will cease. The monthly benefit, which must be taken as an annuity, will be deposited into an account that is part of the Trust Fund. This account will earn investment earnings, but there is no investment return guarantee. At separation of service (or death or disability, if earlier), the value of the DROP account will be paid. Additionally, the regular monthly benefit will commence. In the long term, DROP may change the percentage of retirees electing lump sum options and timing of retirements.

**Footnote:**

(1) Transfer to the Los Angeles County Transportation Authority Non-Contract Employees' Retirement System. This amount represents the accrued value attributable to former members who transferred to the Non-Contract plan, have retired, and now receive a benefit paid by the Non-Contract Plan.

(2) Year-end audit adjustments of Other Income for Life Insurance deductions, Return of Benefit Payments and audit reclassification among plans.

(3) Salary increase rate was changed from a flat 4.5% to an age-based rate ranging from 11.25% to 2.75% for ages 20 years through 55 years and older, respectively.

**Comments:**

A Deferred Retirement Option Program (DROP) was established effective March 25, 2004. This program allows participants to elect "retirement" without separation of employment. At "retirement," the benefit accrual and employee contributions in this plan will cease. The monthly benefit, which must be taken as an annuity, will be deposited into an account that is part of the Trust Fund. This account will earn investment earnings, but there is no investment return guarantee. At separation of service (or death or disability, if earlier), the value of the DROP account will be paid. Additionally, the regular monthly benefit will commence. In the long term, DROP may change the percentage of retirees electing lump sum options and timing of retirements.

**Footnote:**

(1) This amount represents the accrued value attributable to former union employees who transferred to the Non-Contract position and have retired and are being paid by the Non-Contract Plan.

(2) Year-end audit adjustments of Other Income for Life Insurance deductions, Return of Benefit Payments and audit reclassification among plans.

(3) Salary increase rate was changed from a flat 4.5% to an age-based rate ranging from 11.25% to 2.75% for ages 20 years through 55 years and older, respectively.

**Comments:**

A Deferred Retirement Option Program (DROP) was established effective October 28, 2004. This program allows participants to elect "retirement" without separation of employment. At "retirement," the benefit accrual and employee contributions in this plan will cease. The monthly benefit, which must be taken as an annuity, will be deposited into an account that is part of the Trust Fund. This account will earn investment earnings, but there is no investment return guarantee. At separation of service (or death or disability, if earlier), the value of the DROP account will be paid. Additionally, the regular monthly benefit will commence. In the long term, DROP may change the percentage of retirees electing lump sum options and timing of retirements.

The monthly service retirement benefit is 1.67% of adjusted final compensation for each year of service if retirement at age 63. Actuarially reduced for retirement before age 63 and increased for retirement after age 63. Minimum pension is the greater of a) $250 or b) a range of 50%-57% of adjusted compensation after 23 to 30 years or more of service.

**Footnote:**

(1) Transfer to the Los Angeles County Transportation Authority Non-Contract Employees' Retirement System. This amount represents the accrued value attributable to former members who transferred to the Non-Contract plan and have retired and are receiving a benefit paid by the Non-Contract Plan.

(2) Year-end audit adjustments of Other Income for Life Insurance deductions, Return of Benefit Payments, and audit reclassification among plans.

(3) Salary increase rate is based on age-based rates ranging from 11.25% to 2.75% for ages 20 years through over 55 respectively.

| - Maximum | — | — | — | — | — | — | — | — | — |

**Benefit Comments:** Minimum pension is 1.67% of adjusted final compensation for each year of service if retirement is at age 63. Pension is reduced for retirement before age 63 and increased for retirement after age 63. Eligibility for disability is 10 years of service.

**Comments:**

A Deferred Retirement Option Program (DROP) was established effective January 22, 2004. This program allows participants to elect "retirement" without separation of employment. At "retirement," the benefit accrual and employee contributions in this plan will cease. The monthly benefit, which must be taken as an annuity, will be deposited into an account that is part of the Trust Fund. This account will earn investment earnings, but there is no investment return guarantee. At separation of service (or death or disability, if earlier), the value of the DROP account will be paid. Additionally, the regular monthly benefit will commence. In the long term, DROP may change the percentage of retirees electing lump sum options and timing of retirements.

**Footnote:**

(1) Transfer to the Los Angeles County Transportation Authority Non-Contract Employees' Retirement System. This amount represents the accrued value attributable to former members who transferred to the Non-Contract plan and have retired and are receiving a benefit paid by the Non-Contract Plan.

(2) Year-end audit adjustments of Other Income for Life Insurance deductions, Return of Benefit Payments and audit reclassification among plans.

(3) Salary increase rate was changed from a flat 4.5% to an age-based rate ranging from 11.25% to 2.75% for ages 20 years through 55 years and older, respectively.

**Comments:**

In October 2005, the plan's retirement provisions were amended effective January 1, 2006 to provide enhanced pension benefits for eligible employees who terminate employment on or after December 1, 2005. As a result, two classifications of benefit tiers have been created. General Tier I is used for plan participants who terminate district employment before December 1, 2005 regardless of the start date of pension benefits, known as Pre-2006 Eligible Employees. General Tier II is used for plan participants who terminate district employment after November 30, 2005 and start to receive pension benefits on or after January 1, 2006, known as Post - 2005 Eligible Employees.

**Footnote:**

(1) Effective January 1, 2005, the amortization method changed from a 10-year closed, level-dollar amount to a 30-year rolling, level-dollar amount method.

**Comments:**

In August 2004, the San Diego Metropolitan Transit System (MTS), the partner company of San Diego Transit Corporation (SDTC), authorized the issuance of pension obligation bonds (POB) to fund 85% of SDTC's unfunded actuarially accrued liability and the fiscal year 2005 normal cost reimbursements. As a result, POBs of $77,490,000 were sold and $76,282,336 was deposited into the pension plan in November 2004.

The plan is entirely funded by San Diego Transit Corporation where funding policy is to make annual contributions to the plan in amounts necessary to fund current service costs and an annual amortization of past service costs. No contributions are required or permitted from any employee.

**Footnote:**

(1) A new unfunded actuarial accrued liability (UAAL) was created as of April 1, 2000, primarily as a result of improvements in the Plan benefits. Therefore, all sources of the UAAL have been combined and are being amortized over a rolling 30-year period.

**Benefit Comments:** Retirement benefit is 1.9% (for fiscal year 2001 retirees) and 2.0% (after fiscal year 2001) of monthly final compensation multiplied by years of service. Disability retirement benefit is 2% of final compensation multiplied by years of service.

**Comments:**

Effective July 1, 2007 the San Joaquin Regional Transit District Retirement plan has been split into two separate retirement plans. One for represented employees and the other for non-represented employees. The plan is finalizing the split so it is still reported combined for the June 30, 2008 report.

The district contributes $72,966 annually to fund an Ancillary Benefits Reserve Account, which provides benefits for non-retirement benefits paid for disability or death. The Ancillary Benefit Reserve is amortized as a level dollar amount over 17 years ending June 30, 2024.

| Service Disability - Per Year | 2 % | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |

**Comments:**

Employee contributions are not required or permitted in the plan. The entire cost of the plan is met by the sponsoring employer, SunLine Transit Agency.

An employee who becomes totally or permanently disabled after completing 5 years of service shall be entitled to receive an unreduced pension equal to 2% of final average monthly earnings times years of service.

**Footnote:**

(1) The Projected Unit Credit method was used to determine plan accrued liabilities. The Aggregate method is used to determine annual plan cost. The Aggregate method spreads the unfunded liabilities over the participants' expected future working lifetime as a level percent of pay.

| **Disability Benefits as a Percentage of Final Average Salary (FAS):** | | | | | | | | | |
| Non-Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |
| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |

**Comments:**

The actuarial cost method used is the Frozen Entry Age Actuarial Cost Method (Level Percent of Pay). The frozen actuarial accrued liability is determined using the Entry Age Normal Actuarial Cost Method, based on each participant's date of hire.

The amount of the monthly retirement benefit at the Normal Retirement Date shall be equal to the largest of: a) the product of 2.3% of the participant's Final Average Monthly Earnings and years of service; b) the benefit that would have been payable under the prior plan in effect September 30, 1979; c) the benefit accrued to September 30, 1989, under the plan then in effect; or d) the benefit accrued to September 30, 1992, under the plan then in effect.

**Footnote:**

(1) Beginning October 1, 1990, the remaining period for amendment losses was changed from 30 to 25 years from the date established, and the period for assumption gains or losses increased from 10 to 15 years.

**Comments:**

The West Contra Costa Healthcare District Successor Retirement Plan (Successor Plan) was established on March 9, 2000, as a successor plan to the West Contra Costa Healthcare District Employees' Retirement Plan, which was terminated on that date. The participants of the preceeding plan were given the option of receiving immediate lump sum distributions of the present value of their benefits, rolling the benefits into an IRA or other plan, or participating in a successor plan.

As of the July 1, 2004 valuation, Successor Plan assets were less than the actuarial present value of future benefits by the amount of $867,538. This amount will be amortized over five years.

The district filed for reorganization under Chapter 9 during fiscal year 2006-07. As a result, the district failed to file an annual financial transaction report or audited financial statements with the State Controller's Office for fiscal year 2005-06 and 2006-07.

**Comments:**

This retirement plan covers part-time, temporary, and seasonal employees who are not contributing to Social Security or not participating in an agency-sponsored retirement plan.

**Footnote:**

(1) The amortization period for the unfunded liability was changed from a rolling 5 to a rolling 7-year period with the goal of reducing the payments necessary to fund the outstanding liability. This is the second change in the funding period in four years.

**Social Security Coverage:**

**Benefit Comments:** PARS represents several employers who offer multiple tiers and benefit packages. The plans cannot be consolidated in order to present the various service and disability benefits.

| **Disability Benefits as a Percentage of Final Average Salary (FAS):** | General I | General II | General III | General IV | General V | General VI | Safety I | Safety II | Safety III |
|---|---|---|---|---|---|---|---|---|---|
| Non-Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |
| Service Disability - Per Year | — | — | — | — | — | — | — | — | — |
| - Maximum | — | — | — | — | — | — | — | — | — |

**Comments:**

The Trust purchases allocated annuity contracts from various life insurance companies for certain retiring employees of participating retirement plans. Allocated annuity contracts are contracts under which the companies have a legal obligation to make all benefit payments for which they have received premiums or consideration requested. Accordingly, funds in the allocated contracts have been excluded from the net assets of the Trust. In 2006, at the direction of certain participating plan administrators, the Trust purchased $62,176,433 of annuity contracts to pay benefits to named employees or their beneficiaries.

Membership and contribution rate tier levels may not be consistent from year to year. For the fiscal year ending June 30, 2006, PARS tier levels are as follows: General Tier II = PARS Supplemental Retirement Plan/Separation Incentive Plan, General Tier IV = PARS City of Long Beach Contract Consultants, General Tier V = PARS City of Long Beach Part-Time Seasonal Temporary Plan, General Tier VI = PARS Retirement Enhancement Plan DB.

**Footnote:**

(1) The Public Agency Retirement System (PARS) Defined Benefit Plans is an agent multiple-employer plan. As of June 30, 2006, there were 295 employer members, including 11 counties, 80 cities, 183 school districts, and 21 other employers participating in PARS. Because of the characteristics of a multiple-employer plan, each employer agency of PARS had various numbers of membership tiers of its own and the status of these tiers was not the same as of June 30, 2006. Some tiers were open and some tiers were closed.

(2) As the PARS Defined Benefit Plan is an agent multiple-employer plan, employer contribution rates vary within the year.

Comments:

The Replacement Benefit Fund (RBF) was established by Chapter 938 of the 1995 Statutes and initially funded in 1998 to provide benefits to members of the PERF whose retirement benefit exceeds Internal Revenue Code Section 415(b) limits. IRC Section 415(b) imposes a dollar limit on the annual retirement benefits an individual may receive from a qualified defined benefit pension plan.

The RBF is funded on a pay-as-you-go basis.

**Comments:**

The Teachers' Replacement Benefits Program Fund is a replacement pension benefit plan established to pay the portion of annual benefits that exceed the annual limitations under Section 415 of the Internal Revenue Code of 1986. This benefit program is funded from current employer contributions on a pay-as-you-go basis.

Comments:

As of January 2001, the East Palo Alto Retirement Plan became inactive. Employees were given the option of transferring to CalPERS or remaining with the plan.

Footnote:

(1) Participant Notes Receivable -- Participants may borrow from their fund accounts, from $1,000 to $50,000 or 50% of the vested interest of the participant's accounts. The note is secured by the participant's salary deferral account under the Plan.

**Comments:**

On October 22, 2002, the Irvine City Council adopted a resolution giving notice of intention to amend the contract between the Board of Administration of the California Public Employees' Retirement System (CalPERS) and the City of Irvine to offer miscellaneous (non-sworn) employees the opportunity to participate in the CalPERS pension plan. On November 15, 2002, the proposed CalPERS contract for miscellaneous employees was approved through a majority vote of eligible employees. During the April 2003 election period, of the 591 employees eligible to participate in the new CalPERS plan, 434 elected to participate in CalPERS and 36 active participants and 121 non-active participants elected to remain the City of Irvine Defined Contribution Pension Plan (Plan).

At the time of the transition in 2003 between the Plan and CalPERS, some of the plan participants opting to move to CalPERS had outstanding loans in their 401(a) accounts. In order to accommodate their transition, the City chose to reduce their years of service by an amount commensurate with their outstanding loan balance. Those affected employees continued to make their payroll deducted loan payments to the Plan although they were not long participants in the Plan.

By mutual agreement, the city transfers annually on or before March 15, the balances of those participants loan accounts that have been paid in full. For calendar year 2006, the amount transferred was $199,421. This procedure will continue until all of the outstanding loans have been paid in full and the withheld years of service have been restored.

**Footnote:**

(1) Participants may borrow up to 50% of his or her vested account balance or $50,000, whichever, is less, with the minimum loan amount being $1,000. At December 31, 2006, loans outstanding totaled $128,162.

(2) At December 31, 2006, forfeited nonvested accounts totaled $221,960. These accounts were used to reduce future city contributions, reinstate closed accounts, and pay for Plan-related expenses (for which the city is responsible) at the discretion of the city.

(3) Prior to May 17, 2002, participants could not contribute to the Plan. However, in anticipation of an opportunity for participants to transfer to a new pension plan, the Plan was amended to allow limited redeposits. Effective July 1, 2003, participants are required to contribute 4% of their base compensation to the Plan.

**Comments:**

During the year ended July 31, 2004, the city approved a contract with the California Public Employee's Retirement System (CalPERS) providing for participation by city employees in that agency's retirement plan. The city had discontinued its contributions to the International City/County Management Association (ICMA) Employees Money Purchase Pension Plan and Employees Retirement Trusts as of July 2004. During 2006, all of the plan assets were distributed to participants and plan was terminated as of July 31, 2006. This is the final year the City of Kerman Employees' Retirement Trust will be reporting to the SCO as the plan has been terminated and there are no remaining assets.

**Comments:**

The city makes contributions to the plan equal to 10% of the total compensation, excluding overtime, of all participants in the plan and up to 3.3% of the qualified employee's annual compensation under the voluntary provision. Eligible employees can elect to defer 5% of their compensation to the plan. The plan allows additional employee contributions up to 6.6% of annual compensation.

**Footnote:**

(1) The Plan provides for loans to participants; the loans are secured by their vested account balances and cannot exceed the lesser of 50% of the participant's vested account balance or $50,000.

**Comments:**

The plan requires that both the employee and the city contribute an amount equal to 3% of employee's total salary each pay period. Participants in the plan hired before July 1, 1986 may voluntarily contribute up to an additional 4.5% and participants hired on or after that date may voluntarily contribute up to an additional 3.05% of total salary, with the city matching each. Hourly employees contribute 3.75% on a mandatory basis, also matched by the city.

**Footnote:**

(1) The amount represents forfeitures relating to city contributions on behalf of employees who have left the city before being fully vested in the plan. It is returned to the city as a credit to expenditures.

**Comments:**

The district contributed amounts equal to 12% of eligible employees' wages and the participants were required to contribute 4% of their annual wages. Employee Contributions are based on actual compensation paid during each bi-weekly pay period. The district also makes bi-weekly contributions. Forfeitures of terminated employees' non-vested account balances are used to offset required district contributions.

**Comments:**

The Centre City Development Corporation (CCDC) Deferred Annuity Plan did not include the financial information for the pension fund in its June 30, 2007, audited financials. Therefore, the amounts above could not be verified.

The CCDC's Tax Deferred Annuity Plan covers all full-time permanent employees. Each year, the CCDC contributes an amount equal to 16% of total semi-monthly compensation for all employees.

**Comments:**

The Centre City Development Corporation (CCDC) Money Purchase Pension Plan did not include the financial information for the pension fund in its June 30, 2007, audited financials. Therefore, the amounts above could not be verified.

The CCDC's Money Purchase Pension Plan covers all full-time permanent employees. Each year, the CCDC contributes an amount equal to 8% of the total quarterly compensation for all employees. The CCDC also has a Tax Deferred Annuity Plan, which is reported separately under the CCDC Deferred Annuity Plan.

**Footnote:**

(1) Participant Loans. Effective August 1, 2003, a Plan amendment was approved which added a participant loan provision to the Plan.

(2) The district makes quarterly pension contributions which, when combined with forfeitures of terminated employees, equal 8% of the compensation of the participants eligible to share in the pension contribution for the year.

**Comments:**

In 2005, El Nido Irrigation District merged into the Merced Irrigation District. The plan operated with no contributions. The plan dissolved in 2006, with final distributions paid to the three plan participants on February 24, 2006. This is the final year the El Nido Irrigation District Money Purchase Pension and Trust will be reporting to the SCO as the plan has been terminated and there are no remaining assets.

**Comments:**

The District adopted and implemented a new financial reporting model as required by the provision of Government Accounting Standards Board (GASB) statements No. 34, 37, 38, and 39 in the year ended September 30, 2004. Implementation of these reporting standards resulted in changes to the format and content of the basic financial statements.

**Comments:**

The contribution rate is 25% of each employee's salary, based on the district's fiscal year ending July 31. Ten percent of the contribution may be used to purchase life insurance for the employee, with the remaining 90% invested in either a passbook savings account or an annuity fund. Employees' benefits become vested at six years of service to the district.

**Footnote:**

(1) Member refunds consist of "Withdrawals" of $52,306 and "Terminations" of $8,503,081. Withdrawal represents any individual who took a distribution from the Plan while still active and employed with Imperial Irrigation District (IID). Termination represents any individual who took any kind of payment from the Plan after he or she separated from service. IID is unable to separate the retirement distributions from distributions to employees who simply leave the agency and take their contributions with them.

**Comments:**

Lincoln National Life Insurance Company holds the Plan's assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee, as of and for the year ended December 31, 2006, that the information provided to the plan administrator by the trustee is complete and accurate. Independent auditors Hurley and Company did not audit and did not express an opinion on the financial statements presented.

On February 17, 2005, the District received a favorable determination letter from the Internal Revenue Service (IRS) for the La Canada Irrigation District Employees' Pension Plan (Plan), initially effective on January 1, 1969, as amended and restated on January 1, 2003. The Plan has been amended since the District received the determination letter. However, as the Plan is a Prototype Non-Standardized Safe Harbor Money Purchase Pension Plan, the Plan administrator believes it continues to be designed and operated in compliance with the applicable requirement of the Internal Revenue Code. Administration errors, if any, that are insignificant or operational in nature are handled by the Plan administrator in accordance with applicable IRS correction policies. Therefore, the Plan administrator also believed that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. As such, no provision for income taxes has been included in the Plan's financial statements.

**Footnote:**

(1) The district contributes to the Plan 5% of each employee's compensation; 0.2% of each employee's compensation for each year of the service prior to January 1, 1969; and the contribution amount determined in lieu of Social Security and Medicare for those members who are entitled to an allocation under the Plan.

**Comments:**

On July 17, 2006 the Board of Directors approved the termination of the North of the River Recreation and Park District's Pension Trust Fund. The plan will be terminated in accordance with the Employee Retirement Income Security Act (ERISA), Department of Labor, and Internal Revenue Service (IRS) regulations, and the assets will be distributed to plan participants.

In October 2007, the District received a favorable determination letter from the IRS, which approved termination of the plan effective September 15, 2006 and allows the district to proceed with final distribution to all plan participants.

The district has elected to have all of its eligible employees participate in the California Public Employees' Retirement System (CalPERS) beginning July 24, 2006.

**Comments:**

The district may elect in any year to contribute any portion or all of each employee's contribution, thereby reducing the employee's contribution by the amount contributed by the district. For the year ended December 31, 2006, the district contributed 3% of the employees' share plus their share of 7.65% for a total of 10.65% of compensation to each employee's account.

**Footnote:**

(1) The Plan allows participants to borrow up to the lesser of $50,000 or 50.00% of the vested portion of the individual participant's account. The loans are secured by up to one-half of the vested account balance in the participant's account and/or a security interest in the residence of the participant. Loans bear interest at rates ranging from 5.00% to 10.50%. The interest rate is determined at the time the loan is approved.

**Comments:**

Considine & Considine has not audited or reviewed the financial statements. The Plan administrator has obtained a certification from Wells Fargo, the trustee, as of and for the fiscal year ended December 31, 2006, that the information provided to the Plan administrator by Wells Fargo is complete and accurate.

**Footnote:**

(1) Participant loans are permitted; however, loan amounts may not exceed the lesser of $50,000 or 50% of the participant's vested account balance, subject to a minimum loan amount of $1,000.

**Comments:**

On June 19, 2003, the district joined the California Public Employees' Retirement System (CalPERS) and ceased making contributions to the South Tahoe Public Utility District Pension Plan (Plan). The Plan will continue to operate until no later than June 30, 2008, at which time the district intends to terminate the Plan and distribute the Plan assets. No new participants may join the Plan.

The district's Board of Directors passed a resolution terminating the plan effective September 30, 2007. Plan trustees amended the plan document to comply with Internal Revenue Service (IRS) regulation on maximum annual additions, qualified military service and direct rollovers on November 7, 2007. Plan trustees also filed an Application for Determination for Terminating Plan with the IRS in November 2007. Once the IRS issues the district a final letter of determination, a liquidation of the plan assets can take place.

**Footnote:**

(1) Participants may borrow up to 50% of their account balance to a maximum of $50,000, subject to the loan policy established by the Plan Trustee. Loan repayments must comply with the IRS provision calling for repayment in five years or less. In addition, the Plan now provides for all loans to be repaid by June 30, 2008.

**Comments:**

The Southgate Recreation and Park District is the administrator for the Plan. The ICMA Retirement Corporation is the trustee of the funds and advises on legal issues, fees, and appropriate Plan documents, and issues quarterly statements to Plan participants. ICMA offers participants various mutual funds and money market funds in which to invest their contributions.

**Footnote:**

(1) Participant Loans. The plan allows participants to borrow from their accounts. Loans may not exceed the lesser of $50,000 or one-half of the participant's vested account balance and are due within five years (longer term for primary residence loans).

**Footnote:**

(1) As of June 30, 2007 the Employer Contributions Receivable represents certain receivables attributable to the 2001 plan year as well as April 1 through June 30, 2007 matching contributions from San Diego Community College District. The Employee Contributions Receivable represents certain receivables from the 2001 plan year as well as June 2007 contributions.

(2) Reversal for CalSTRS settlement. In December 2006, SDCCD and AFT agreed to settle the lawsuit over undocumented notification for CalSTRS Permissive Election retroactive to March 1995. This resulted with 27 adjunct faculty who qualified for the retroactive CalSTRS membership instead of the Social Security Alternative Retirement Plan. All of their payroll deductions will be removed from their individual accounts to their new retroactive CalSTRS membership date.

**Footnote:**

(1) Transfers-in consist of funds received for new plans, transfers between plans and transfers from various plans to the escheat account. Transfers in to the escheat account are treated as distributions in the various plans. The escheat account holds unclaimed funds for the defined contributions plans awaiting transfer to the State of California by the trust.

(2) Transfers-out consist of funds received for plans that were terminated during the year, transfers between plans and funds escheated to the State of California.

## CalPERS SUPPLEMENT

This section is intended to provide a more comprehensive review of the California Public Employees' Retirement System (CalPERS). CalPERS has provided all information presented in the following tables to the State Controller's Office.

1. **Actuarial Position by Member Category**
Presented below is the system-wide actuarial position of the various CalPERS categories as of June 30, 2006. The total actuarial liabilities calculated using credited projected benefits amount to $227.8 billion, with an actuarial value of assets of $198.8 billion and a shortage of actuarial assets over liabilities of -$28.9 billion. The new funded ratio is 87.3%, the same as in 2005.

| PERS CATEGORIES | ACTUARIAL LIABILITIES | ACTUARIAL VALUE OF ASSETS | UNFUNDED LIABILITIES | FUNDED RATIO |
|---|---|---|---|---|
| State Miscellaneous | $61,298,781,693 | $51,751,198,637 | $9,547,583,056 | 84.4% |
| State Industrial | 1,870,225,645 | 1,978,855,687 | (108,630,042) | 105.8% |
| State Safety | 3,906,962,294 | 3,278,254,840 | 628,707,454 | 83.9% |
| Peace Officers/Firefighters | 19,737,050,901 | 16,027,970,147 | 3,709,080,754 | 81.2% |
| California Highway Patrol | 5,743,982,138 | 4,407,140,734 | 1,336,841,404 | 76.7% |
| **State Combined** | $92,557,002,671 | $77,443,420,045 | $15,113,582,626 | 83.7% |
| **County Schools** | 41,408,653,061 | 38,460,904,077 | 2,947,748,948 | 92.9% |
| **Public Agencies** | 93,880,418,535 | 83,014,630,067 | 10,865,788,468 | 88.4% |
| **GRAND TOTAL** | $227,846,074,267 | $198,918,954,189 | $28,927,120,078 | 87.3% |

2. **State Employer Contribution Rates**
Below are the contribution rates that were effective July 1 of each year since 2001 for the various state categories.

| MEMBER CATEGORIES | 7-1-01 | 7-1-02 | 7-1-03 | 7-1-04 | 7-1-05 | 7-1-06 |
|---|---|---|---|---|---|---|
| State Miscellaneous Members | | | | | | |
| Tier I | 4.166% | 14.843% | 17.022% | 15.942% | 16.997% | 16.633% |

## 4.1 Funding Position of Contracting Agencies – Risk Pools

Government Code (GC) Sections 20840, 20841, and 20842 allow the CalPERS Board to create risk pools and mandate public agency participation in the pools. Article 7.6 was added to Title 2 of the California Code of Regulations, establishing the criteria for participation in risk pools.

Risk pooling is the process of combining assets and liabilities across employers to produce large risk sharing pools. These risk sharing pools help dramatically reduce or eliminate the large fluctuations in the employer's contribution rate caused by unexpected demographic events. Plans are assigned to risk pools based on their service retirement formula. CalPERS initiated risk pooling during the fiscal year ended June 30, 2004. However, due to the way CalPERS provides the information to the State Controller's Office, the first year that the pooled information was reflected in this publication was fiscal year ended June 30, 2005.

Agencies that do not have large numbers of active employees are much more susceptible to the impact of unforeseen demographic events, making the agency's rates fluctuate dramatically from year to year. In an effort to help ensure more stability in the rates of these agencies, they were brought together into a pool – in effect creating one larger agency to help spread out the impact of unforeseen demographic events.

With the exception of the Terminated Agency Pool, the following ten pools will be presented, followed by the name of the plans participating within that specific pool:

- Miscellaneous 2.0%@55: Miscellaneous employees subject to the 2%@55 formula (GC Section 21354 or GC Section 21354.1).
- Miscellaneous 2.0%@60: Miscellaneous employees subject to the 2%@60 formula (GC Section 21353) or 1.25%@65% (GC Section 21076).
- Miscellaneous 2.5%@55: Miscellaneous employees subject to the 2.5%@55 formula (GC Section 21354.4).
- Miscellaneous 2.7%@55: Miscellaneous employees subject to the 2.7%@55 formula (GC Section 21354.5).
- Miscellaneous 3.0%@60: Miscellaneous employees subject to the 3%@60 formula (GC Section 21354.3).
- Safety 2.0%@50: Safety employees subject to the 2%@50 safety formula (GC Section 21362) or 2.5%@55 safety formula (GC Section 21363).
- Safety 2.0%@55: Safety employees subject to the 2%@55 safety formula (GC Section 21369) or ½@55 formula (GC Section 21366).
- Safety 3.0%@50: Safety employees subject to the 3%@50 safety formula (GC Section 21362.2).
- Safety 3.0%@55: Safety employees subject to the 3%@55 safety formula (GC Section 21363.1).
- Inactive Pool: Rate plans determined to be inactive in the June 30, 2004 actuarial valuation (i.e. no active members in the rate plan), regardless of the benefit formula applicable to the inactive members of the plan. Rate plans moving from an active status to an inactive status will be transferred from their then current pool to the inactive plan pool following a period of at least one year in which they had no active members.
- Terminated Agency Pool: GC Section 20577.5 allows CalPERS to merge a plan that has been terminated pursuant to GC 20570, 20571, or 20572 into the terminated agency pool without benefit reduction, or with a lesser reduction, if certain conditions are met. When an agency contract is terminated, the agency's assets and liabilities are determined prior to the employees/retirees of the terminated employer being moved into the terminated public agency pool. A list of terminated employers has not been provided since they no longer have the responsibility for funding the benefits.

| Risk Pool Name | Actuarial Liabilities | Actuarial Value of Assets | Unfunded Liabilities | Funding Ratio (%) 2006 | 2005 | 2004 | 2003 |
|---|---|---|---|---|---|---|---|
| Miscellaneous 2.0%@55 | 2,754,396,608 | 2,492,226,176 | 262,170,432 | 90.48 | 89.53 | 89.62 | 91.37 |

## 5. CalPERS Supplement – Summary of Contracting Agency's Benefits

The following table compares selected benefits of all the local public agencies that contracted with CalPERS. Agencies are listed alphabetically, with the plan types (miscellaneous or safety) listed below. The five-digit code reported is used for identification by CalPERS of the various benefit formulas and may be useful if additional information is needed. The abbreviations used in the tables are described below.

A. Retirement Benefit Formula – This column indicates the retirement benefit formula used to compute retirement benefits for each agency and group. A CalPERS member who has at least five years of credited service becomes eligible for service retirement upon attainment of age 50.

1. Three Percent at Age 50 Formula (3% @ 50 – Local Safety Members):

| Age | % Per Year of Service |
|---|---|
| 50 and Older | 3.000% |

2. Three Percent at Age 55 Formula (3% @ 55 – Local Safety Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 2.400% |
| 52 | 2.640% |
| 54 | 2.880% |
| 55 and Older | 3.000% |

3. Two Percent at Age 50 Formula (2% @ 50 – Local Safety Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 2.000% |
| 52 | 2.280% |
| 54 | 2.560% |
| 55 and Older | 2.700% |

4. One-Half Percent at Age 55 Formula (0.05% @ 55 – Local Safety Members):

| Entry Age | Percent Factor |
|---|---|
| 25 | 1.667% |
| 30 | 2.000% |
| 35 and Older | 2.500% |

If a member retires between the ages of 50 and 55, the above percent factors must be discounted as follows:

| Age | Discount Factor |
|---|---|
| 50 | 0.713 |
| 52 | 0.814 |
| 54 | 0.933 |

5. Two Percent at Age 55 Formula (2% @ 55 – Local Safety Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 1.426% |
| 52 | 1.628% |
| 55 and Older | 2.000% |

## 5. CalPERS Supplement – Summary of Contracting Agency's Benefits – (Continued)

6. Two Percent at Age 55 Formula (2% @ 55 – Local Miscellaneous Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 1.426% |
| 55 | 2.000% |
| 60 | 2.262% |
| 63 and Older | 2.418% |

7. Two and One-Half Percent at Age 55 Formula (2.5% @ 55 – Local Safety Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 2.000% |
| 52 | 2.200% |
| 55 and Older | 2.500% |

8. Two Percent at Age 60 Formula (2% @ 60 – Local Miscellaneous Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 1.092% |
| 55 | 1.460% |
| 60 | 2.000% |
| 63 and Older | 2.418% |

9. One and One-Quarter Percent at Age 60 Formula (1.25% @ 60 – Local Safety Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 0.619% |
| 55 | 0.868% |
| 60 | 1.250% |
| 65 | 1.750% |

10. Two and One-Half Percent at Age 55 Formula (2.5% @ 55 – Local Miscellaneous Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 2.000% |
| 52 | 2.200% |
| 55 and Older | 2.500% |

11. 2.7 Percent at Age 55 Formula (2.7% @ 55 – Local Miscellaneous Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 2.000% |
| 52 | 2.280% |
| 55 and Older | 2.700% |

12. Three Percent at Age 60 Formula (3% @ 60 – Local Miscellaneous Members):

| Age | % Per Year of Service |
|---|---|
| 50 | 2.000% |
| 52 | 2.200% |
| 54 | 2.400% |
| 56 | 2.600% |
| 58 | 2.800% |
| 60 and Older | 3.000% |

B. **Final Compensation Offset** – This column is used to report which plans apply an offset to the final compensation.

Y — The final compensation used to calculate the retirement benefit is offset by $133.33 (or by 1/3 if the final compensation is less than $400).
N — No offset is applied to the final compensation used to calculate the retirement benefit.

C. **Final Compensation Period** – This column reports whether the retirement benefit is based on a one or three-year final average salary.

D. **COLA (Cost-of-Living Adjustment)** – CalPERS retirees and survivors receive a COLA of 2% per year on a compounded basis, no greater than the cumulative change in the consumer price index since the date of retirement. Some contracting agencies provide increases of 3%, 4%, or 5% (also limited to the cumulative increase in the consumer price index).

E. **Pre-Retirement Death Benefit Option 2 Settlement** – A "Y" indicates that the employer has contracted for this benefit, which provides, upon death of a member prior to retirement, an allowance equal to the retirement benefit the member would have received had he or she retired on the date of death and elected Option 2 Settlement. A retiree who elects Option 2 Settlement receives an allowance that has been reduced so that it will continue to be paid to a surviving beneficiary after the retiree's death. (Gov. Code Sec. 21548).

F. **Sick Leave Credit** – A "Y" indicates that the agency has contracted for its employees to receive additional service credit for unused sick leave (Gov. Code §20965).

G. **Post-Retirement Survivor Allowance (PRSA)** – A "Y" indicates that the employer has contracted for this benefit, which provides, upon death of a member after retirement or disability, a continued allowance to the surviving spouse until death or remarriage, or to surviving children or dependent parents (Gov. Code sections 1624 and 21626).

H. **Ordinary Disability Increase** – This benefit applies to future ordinary disability retirements of miscellaneous members and of non-job-related disability retirements of Safety members. The current statutory level of disability retirement benefits for members with at least five years of credited service (1.8% of final compensation for each year of service, with a 33-1/3% maximum) would be raised to a minimum benefit of 30% of final compensation for five years of service and increased by 1% of final compensation for each additional year of service to a maximum benefit of 50% of final compensation. Under no circumstances may the disability retirement allowance be more than the service retirement allowance if the member were to continue in employment and retire at age 60 (Gov. Code section 21427).

I. **1959 Survivor Benefit** (Gov. Code sections 20070, 21382.5, 21570, 21571, 21572, 21573, 21574.5, 21575, 21576, 21577, 21578, 21579, 21580, 21581, 21582) – This optional benefit provides the following monthly allowance to beneficiaries of a member who dies prior to retirement. This benefit is in addition to the basic death benefit or the 1957 survivor benefit, but would be reduced by the amount of the industrial death benefits, if payable.

| | |
|---|---|
| Spouse with two or more children, or three or more dependent children, alone..... | $430 |
| Spouse with one dependent child, or two dependent children, alone..... | $360 |
| Widow or widower, alone, age 62 (ages vary at different levels) or older; dependent mother or dependent father alone, age 62 (ages vary at different levels) or older; or one dependent child..... | $180 |

Section 21572 (2nd level) provides for monthly benefit payments of $538, $450, and $225, respectively.

Section 21573 (3rd level) provides for monthly benefit payments of $840, $700, and $350, respectively.

Section 21574 (4th level) provides for monthly benefit payments of $2,280, $1,900, and $950, respectively.

Section 21574.5 (indexed level) provides for monthly benefit payments of $1,500, $1,000, and $500, respectively, as of January 1, 2000. These benefits increase at the rate of 2% per year.

A "1" indicates that the agency has contracted for Section 21571 benefits. A "2" indicates that it has opted for Section 21572 benefits. A "3" indicates it has selected Section 21573 benefits. A "4" indicates that it has elected Section 21574 benefits. An "8" indicates that the agency has contracted for Section 21574.5 benefits.

J. **Member Contribution Rate** – The contribution rate paid by members as a percent of payroll. Some agencies use a fixed dollar amount, determined annually. These rates are designated as "Varies."

K. **Employer Contribution Rate** – The contribution rate that is paid by the contracting agency as a percentage of payroll or a fixed dollar amount determined annually.

# Appendix C – Definitions

**Accrued Benefits:** The amount of a pension plan participant's benefit (whether vested or not) as of a specified date, determined in accordance with the terms of the pension plan and based on compensation (if applicable) and service to that date.[1]

**Actuarial Accrued Liability:** That portion, as determined by a particular actuarial cost method, of the actuarial present value of pension plan benefits and expenses that is not provided for by future normal costs.[2]

**Actuarial Assumptions:** Assumptions as to the occurrence of future events affecting pension costs, such as: mortality, withdrawal, disablement, and retirement; changes in compensation and government-provided pension benefits; rates of investment earnings and asset appreciation or depreciation; procedures used to determine the actuarial value of assets; characteristics of future entrants for open group actuarial cost methods; and other relevant items.[2]

**Actuarial Basis:** A basis used in computing the amount of contributions to be made periodically to a fund or account so that the total contributions plus the compounded earnings thereon will equal the required payments to be made out of the fund or account. The factors considered in arriving at the amount of these contributions include the length of time over which each contribution is to be held and the rate of return compounded on such contribution over its life.[1]

**Actuarial Cost Method:** A procedure for determining the actuarial present value of pension plan benefits and expenses and for developing an actuarially equivalent allocation of such value to time periods, usually in the form of a normal cost and an actuarial accrued liability.[2]

**Actuarial Present Value (APV):** The value of an amount or a series of amounts payable or receivable at various times, determined as of a given date by the application of a particular set of actuarial assumptions.[2]

**Actuarial Update:** An estimate or projection of the pension benefit obligation developed by using techniques and procedures considered necessary by the actuary. If conditions are relatively stable, only a few minor adjustments (such as an accrual of additional interest on the pension benefits since the valuation date, and addition of benefits earned during the year less benefits paid) may be sufficient. If there have been significant changes in one or more relevant factors (e.g., in the size or composition of the population covered by the public employees' retirement system (PERS), the procedures may be more extensive.[1]

**Actuarial Valuation:** A mathematical determination of the financial condition of a retirement plan. The Actuarial valuation includes the computation of the present monetary value of benefits payable to present members and the present monetary value of future employer and employee contributions, giving effect to mortality among active and retired members and also to the rates of disability, retirement, withdrawal from service, salary, and interest.[3]

# Appendix C Definitions (continued)

**Agent Multiple-Employer PERS:** An aggregation of single-employer public employees' retirement systems with pooled administrative and investment functions (i.e., CalPERS acts as a common investment and administrative agent for each employer). Each entity participating in an agent multiple-employer PERS receives a separate actuarial valuation to determine its periodic contribution rate.[1]

**Aggregate Actuarial Cost Method:** A method by which the excess of the actuarial present value of projected benefits of the group included in an actuarial valuation over the actuarial value of assets is allocated on a level basis over the earnings or service of the group between the valuation date and the assumed exit date.[2] A schedule of funding progress is not required when this method is used because the method does not separately identify an actuarial liability.

**Annual Covered Payroll (ACP):** The active members' amount of annual payroll that is the basis for the contribution rates. This payroll amount usually excludes overtime pay and bonuses.

**Annual Required Contribution (ARC):** The employer's mandated contribution for the year, calculated in accordance with certain actuarial parameters.[1]

**Assets per Member:** Total assets divided by total membership.

**Attained Age Actuarial Cost Method:** A method by which the excess of the actuarial present value of projected benefits over the actuarial accrued liability with respect to each individual included in an actuarial valuation is allocated on a level basis over the earning or service of the individual between the valuation date and the assumed exit date.[2]

**Attribution:** The process of assigning pension benefits or costs to periods of employee service.[1]

**Benefits:** Payments to which participants are entitled under a pension plan, including pension benefits, death benefits, and benefits due on termination of employment.[1]

**Benefits per Beneficiary:** Total benefit payments divided by the sum of retired, disabled, and survivor members of the system.

**Cost-Sharing Multiple-Employer PERS:** A single plan with pooling (cost-sharing) arrangements for the participating employers. All risks, rewards, and costs, including benefit costs, are shared and are not attributed individually to employers. A single actuarial valuation covers all plan members and the same contribution rate structure applies to each employer.[2]

**Defined Benefit Pension Plan:** A pension plan with terms that specify the amount of pension benefits to be provided at a future date or after a certain period of time. The amount specified usually is a function of one or more factors, such as age, years of service, and compensation.[2]

# Appendix C Definitions (continued)

**Defined Contribution Pension Plan:** A pension plan with terms that specify how contributions to a plan member's account are to be determined, rather than the amount of retirement income the member is to receive. The amounts a member receives depend only on the amount contributed to the member's account, earnings on investments of those contributions, and forfeitures of contributions made for other members that may be allocated to the member's account.[2]

**Discount Rate:** The rate used to adjust a series of future payments to reflect the time value of money. For the purpose of calculating the pension benefit obligation defined by Governmental Accounting Standards Board (GASB), this rate is equal to the estimated long-term rate of return on current and future investments of the pension plan.[1]

**Deferred Retirement Option Program (DROP):** An optional voluntary program that allows employees who are entitled to retire and receive benefits under an employer's defined benefit retirement to continue working and receive pay and benefits as an active employee while accumulating service pension payments in a DROP account.

**Employer's Contributions:** Contributions made in relation to the employer's annual required contributions (ARC).[4]

**Entry Age Actuarial Cost Method:** A method by which the actuarial present value of the projected benefits of each individual included in an actuarial valuation is allocated on a level basis over the earnings or service of the individual between entry age and assumed exit age.[2]

**Employer Contribution Rates:** Contribution rates as a percentage of covered payroll that were adopted by the board of the public retirement system. Data is provided for each tier applicable to the system.

**Fair Value:** The amount the plan could reasonably expect to receive for an investment in a current sale between a willing buyer and a willing seller – that is, other than in a forced or liquidation sale.[2]

**Fiduciary Fund Type:** The trust and agency funds used to account for assets held by a government unit in a trustee capacity or as an agent for individuals, private organizations, other government units, and/or other funds.

**Frozen Entry Age Actuarial Cost Method:** A method by which the excess of the actuarial present value of projected benefits of the group included in an actuarial valuation, over the sum of the actuarial value of assets plus the unfunded frozen actuarial accrued liability, is allocated on a level basis over the earnings or service of the group between the valuation date and the assumed exit date.[2]

**Funded Pension Plan:** A pension plan in which contributions are made and assets are accumulated to pay benefits to potential recipients before cash payments to recipients are actually required.[1]

# Appendix C Definitions (continued)

**Funding Policy:** In the context of pension plans, the program for the amounts and timing of contributions to be made by the plan member, employer(s), and others to provide the benefits specified by pension plan contributing entities (for example, state government contributions to a local government plan).[2]

**Funding Ratio:** The actuarial value of benefit obligations accrued to date, compared to the pension plan assets, expressed as a percentage.[5]

**Investment Return Assumption (Discount Rate):** The rate used to adjust a series of future payments to reflect the time value of money.[4]

**Level Dollar Amortization Method:** The amount to be amortized is divided into equal dollar amounts, to be paid over a given number of years; part of each payment is interest and part is principal (similar to a mortgage payment on a building). Because payroll can be expected to increase as a result of inflation, level dollar payments generally represent a decreasing percentage of payroll. In dollars adjusted for inflation, the payments can be expected to decrease over time.[4]

**Level Percentage of Projected Payroll Amortization Method:** Amortization payments are calculated so that they are a constant percentage of the projected payroll of active plan members over a given number of years. The dollar amount of the payments generally increases over time as payroll increases due to inflation. In dollars adjusted for inflation, the payments can be expected to remain level.[4]

**Non-Contributing Employers:** In the context of pension disclosures for governments, employers that are not legally responsible for making contributions to a PERS but whose employees are covered by a PERS because of contributions made by another entity.[1]

**Non-Employer Contributor:** In the context of pension disclosures for governments, a government that makes contributions to a PERS to provide benefits to employees of another government (e.g., a state may make the employer's pension contribution for school districts in the state).[1]

**Normal Cost:** The portion of the actuarial present value of pension plan benefits and expenses allocated to a valuation year by the actuarial cost method. This amount does not include any payment related to an unfunded actuarial accrued liability. For plans financed in part by employee contributions, normal cost ordinarily refers to the total of employee contributions and employer normal cost.[1]

**Open Group/Closed Group:** Terms used to distinguish between two classes of actuarial cost methods. Under an open group actuarial cost method, actuarial present values associated with expected future entrants are considered. Under a closed group actuarial cost method, actuarial present values associated with future entrants are not considered.[4]

# Appendix C Definitions (continued)

**Other Post-Employment Benefits (OPEB):** Other post-employment healthcare benefits, regardless of the type of plan that provides them, and all post-employment benefits provided through a plan that does not provide retirement income, except benefits defined as special termination benefits in National Council Governmental Accounting (NCGA) Interpretation 8, Certain Pension Matters, as amended.[4]

**Pay-As-You-Go Basis:** A method of financing a pension plan by which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments and expenses coming due.[1]

**Pension Contribution:** The amount paid into a pension plan by an employer (or employee), pursuant to the terms of the plan, state law, actuarial calculations, or some other basis for determinations.[1]

**Pension Liabilities:** The amount recognized by an employer in a fund or in the general long-term debt account group for contributions to a pension plan that are less than pension expenditures/expenses.[4]

**Pension Trust Fund:** A fund held by a governmental entity in a trustee capacity for pension plan members, used to account for the accumulation of assets for the purpose of paying benefits when they become due in accordance with the terms of the plan. Also, a pension plan included in the financial reporting entity of the plan sponsor or a participating employer.[4]

**Projected Benefit Liabilities:** As used in Statement of Financial Accounting Standards (SFAS) No. 87, the actuarial present value as of a date, of all benefits attributed by the pension benefit formula to employee service rendered before that date. The projected benefit obligation is measured using assumptions as to future compensation levels if the pension benefit formula is based on those future compensation levels (pay-related, final-pay, final-average-pay, or career-average-pay plans).[1]

**Ratio of Retired to Total:** The sum of retired, disabled, and survivor members divided by total membership.

**Single-Employer Plan:** A plan that covers the current and former employees, including beneficiaries, of only one employer.[4]

**Standardized Measure of the Pension Benefit Obligation:** The actuarial present value of credited projected benefits produced by the projected unit credit actuarial cost method, prorated on service and other measurement requirements specified in GASB Statement No. 5 (superseded by GASB Statement No. 25).[2]

**Trustee:** A fiduciary holding property on behalf of another.[1]

# Appendix C Definitions (continued)

**Unit-Credit Actuarial Cost Method:** A method by which the benefits (projected or unprojected) of each individual included in an actuarial valuation are allocated by a consistent formula to valuation years. The actuarial present value of benefits allocated to a valuation year is called the normal cost. The actuarial present value of benefits allocated to all periods prior to a valuation year is called the "actuarial accrued liability."[2]

**Vested Benefit:** A benefit for which the employer has an obligation to make payment even if an employee terminates; thus, the benefit is not contingent on an employee's future service.[1]
