December 17, 2007

**To the Citizens, Governor, and Members  
of the Legislature of the State of California:**

I am pleased to submit the 27th edition of the *Transit Operators and Non-Transit Claimants Annual Report*, for the fiscal year ended June 30, 2006. This report offers taxpayers and public officials useful information for comparing how public transportation services are funded in California.

The Transportation Development Act of 1971 provides that a portion of the sales tax collected in each county be returned to local entities for public transportation purposes. These funds are allocated by regional transportation planning agencies for services ranging from bus and rail transit to bike paths and street repairs. The data presented in this report indicate how the funds were allocated to operate these systems during the 2005-06 fiscal year.

Following are highlights of the financial activities relating to California's transit operators and non-transit claimants for the fiscal year ended June 30, 2006:

Total transit operating revenues and capital additions for public transportation amounted to \$6.2 billion compared to \$5.8 billion in the 2004-05 fiscal year. Transit operators collected \$1.3 billion in passenger fares and served 1.4 billion passengers.

I would like to thank the officials in local government, transit districts, and the consolidated transportation services agencies who assisted in compiling the data presented in this report.

Sincerely,

Original Signed By:

JOHN CHIANG  
California State Controller

# Introduction

## Transportation Development Act

The California Legislature enacted the Mills Alquist Deddeh Act (Senate Bill 325, Chapter 1400, Statutes of 1971) in order to “improve existing public transportation services and encourage regional transportation coordination.” Known as the Transportation Development Act (TDA) of 1971, this law provides for funding equal to one-quarter cent of taxable retail sales statewide. Regional transportation planning agencies allocate TDA funds to transit and non-transit claimants for purposes that comply with regional transportation plans.

The California State Controller’s Office, Division of Accounting and Reporting, prepared the tables in this report from data contained in reports filed by cities, counties, transit districts, and consolidated transportation service agencies (CTSAs) under provisions of Government Code Section 53891 and Public Utilities Code (PUC) Sections 99243 and 99406. Cities, counties, transit districts, and CTSAs that receive transit allocations are required by PUC Section 99243 to file a report of revenues and expenses within 90 days (110 days if filing electronically) following the close of the fiscal year. Transit reports were filed by 212 agencies in the 2005-06 fiscal year and 207 agencies in the 2004-05 fiscal year. Cities and counties that receive non-transit street-purpose allocations or on-street bikepath allocations, pursuant to PUC Section 99406, are required to file a separate annual report of expenditures for non-transit purposes on or before October 1 following the close of the fiscal year. Non-transit reports were filed by 321 agencies in the 2005-06 fiscal year and 331 agencies in the 2004-05 fiscal year. The fiscal year begins July 1 and ends June 30 for all agencies except the cities of El Segundo, Huntington Beach, Inglewood, Long Beach, and South Lake Tahoe. For these cities, the fiscal year begins October 1 and ends September 30.

The data in this annual report is based on unaudited reports submitted by various transit operators. The finance officers of the various transit agencies have certified that the transit operators’ financial data are in conformity with the Uniform System of Accounts for Public Transit Operators adopted by the State Controller’s Office, pursuant to PUC Section 99243. They have also certified the completeness and accuracy of the non-transit claimants’ data.

The State Controller’s Office uniform accounting system requires counties, cities, special districts, and CTSAs that provide general public or special transit services to maintain records and to file reports on a full accrual enterprise basis of accounting. Their reports list all sources of revenues, purposes of expenses, and capital additions to equity for transit purposes (Tables 1, 2, 3, and 10, respectively). The accounting basis for non-transit activities varies by entity. Government Code section 30200 requires counties to report non-transit activities on a modified accrual basis of accounting. Cities, however, do not have a mandated uniform accounting system. Accordingly, city data may be submitted on a cash basis, an accrual basis, or a modification of the two (Tables 5 through 9). Section 6662 of the California Code of Regulations (CCR) requires agencies to file a Transportation Development Act (TDA) audit annually with the State Controller’s Office.

## Transit and Non-Transit TDA Revenues

This report, combined with the *Transportation Planning Agencies Annual Report* also published by the State Controller's Office, provides a comprehensive view of the TDA process. The Transportation Development Act Statutes and California Code of Regulations for 2005, published by the California Department of Transportation's Mass Transportation Program, provides additional information.

For the 2005-06 fiscal year, counties, cities, special districts, and CTSAs reported receiving \$1.4 billion in TDA funds for transit and non-transit purposes, an 8.6% increase from the 2004-05 fiscal year. These entities also received \$5.0 billion from other federal, state and local sources. Including non-transit monies (see Figure 16), revenues from all sources totaled \$6.4 billion, and expenses totaled \$6.1 billion.

**Figure 1**

**TDA Revenues**  
(Amounts in millions)

TDA authorizes two major funding sources for public transportation and non-transit applications (such as local streets and roads and, pedestrian and bicycle facilities). Local Transportation Fund (LTF) revenues are derived from one-quarter cent of the 7.25-cent retail sales tax collected statewide. State Transit Assistance Fund (STAF) revenues are derived from the statewide sales tax on gasoline and diesel fuel. Figure 1 shows the allocation of TDA revenues for transit operating, capital, and non-transit purposes. Figure 2 shows TDA revenues allocated for transit and non-transit usage for the past five years. In the 2005-06 fiscal year, 90.7% of TDA funds was allocated for transit purposes, while 9.3% was allocated for non-transit purposes. From the 2001-02 fiscal year to the 2005-06 fiscal year, TDA funding increased \$91 million (8.0%) for transit purposes and \$15.7 million (14.2%) for non-transit purposes. By comparison, 10 years ago for the 1995-96 fiscal year, TDA revenues totaled \$796 million; 15 years ago for the 1990-91 fiscal year, these revenues totaled \$731 million.

## Transit Operating Revenues and Capital Additions to Equity

**Figure 3**

### Operating Revenues

(Amounts in millions)

Revenues and capital additions to equity for public transportation generated from federal, state, and local sources amounted to \$6.2 billion for the 2005-06 fiscal year. The largest sources of operating revenues came from passenger fares (20.1%), LTF (16.4%), local sales tax (13.8%), and federal grants (8.1%). Capital additions to equity amounted to \$1.2 billion (18.7%). Capital additions to equity are federal, state, and local grants that may be used only for capital acquisitions such as trains and buses.

Figure 3 shows the proportional composition of operating revenues between fares, LTF revenues, local support, and other revenues. Figure 4 shows the sources of capital additions to equity. Figure 5 shows transit revenues by source for counties, cities, special districts, and CTSAs.

## Passenger Fares and Local Support

**Figure 6**

### Passenger Fares and Local Support

(Amounts in millions)

Figures 6 and 7 show passenger fares and local support revenues for the past five fiscal years. These revenues are part of the basis for determining operating fare ratios. PUC Sections 99268.2 through 99268.5 specify the ratios of fare revenues to operating costs that transit systems using TDA funds are required to use. Fare ratios can vary according to the type of service provided, the service area, and other factors. Table 3 details operator and transit service claimant compliance ratios.

The totals for fare revenues, local support, and operating costs from Table 1 were used to calculate these ratios. As shown in Figure 7, total passenger fares for the 2004-05 fiscal year amounted to \$1.2 billion, or 20.1% of total transit revenues. These fare revenues have increased by \$227.8 million (22.3%) since the 2001-02 fiscal year and \$103 million (9.0%) since the 2004-05 fiscal year. Local support revenues, as defined in CCR section 6611.3, provided \$1.9 billion, or 31.0%, of the 2005-06 fiscal year total transit revenues. These revenues have increased \$520 million (37.1%) since the 2001-02 fiscal year.

## Sales Tax and Local Sales Tax

Local support revenues include two categories of sales tax revenues: sales taxes that certain special district transit operators may impose directly, and locally generated taxes allocated to the transit operator by another governmental agency (local sales tax). For example, the Bay Area Rapid Transit District is authorized by statute to impose a sales tax within its boundaries; the Sacramento Regional Transit District is not so authorized, but does receive local sales tax revenue from the Sacramento County Transportation Authority. Statewide total operating revenue from these two categories was \$1.3 billion in the 2005-06 fiscal year, compared to \$1.2 billion in the 2004-05 fiscal year.

Figure 8 lists the agencies that were authorized to levy a sales tax for transportation and transit purposes. Additional information about agencies administering a local sales tax may be found in the *Transportation Planning Agencies Annual Report*, also published by the State Controller's Office (see page 379 for ordering information).

## Capital Additions to Equity

Figure 9 details capital additions to equity, which are grant revenues received from federal, state, local, and non-governmental sources. Capital grants are restricted by the grantor for the purchase of capital assets and cannot be used for operating purposes. The revenues listed in Figure 9 were used to purchase new or replacement vehicles of all kinds, construct mass transit facilities, and acquire other tangible property. Revenues from the Transportation Planning and Development Guideway account and from the State Article XIX Guideway account are used to fund intercity rail and rail-related capital improvements.

For the 2005-06 fiscal year, grant revenues totaled \$1.2 billion or 18.7% of total revenues. Federal capital grants received under the Federal Transit Act (FTA) sections listed in Figure 9 amounted to 9.2%, local and other grants amounted to 4.9%, and state grants amounted to 4.6%. In comparison, grant revenues amounted to \$770.1 million 10 years ago for the 1995-96 fiscal year and \$471.3 million 15 years ago for the 1990-91 fiscal year.

## Budgeted Transit Revenues and Expenses

Figure 14 shows the total budgeted revenues and expenses of transit operations for the 2006-07 fiscal year. It should be noted that these budget data represent the initial unadjusted annual budget. Ninety-one agencies projected an estimated loss in the 2006-07 fiscal year, while 87 agencies<sup>1</sup> projected an estimated loss in the 2005-06 fiscal year. Sixty-five agencies reported an estimated loss in both fiscal years. As shown in Table 1, 131 out of 212 reporting agencies, or 61.8%, had an actual net operating loss in the 2005-06 fiscal year.

<sup>1</sup> Numbers of agencies reported in the 2004-05 publication were based on separate reports for general transit service and specialized transit service. In the 2005-06 publication, the number of agencies reported is based on combining general transit service and specialized transit service by agency.

<sup>2</sup> These figures show the projected revenues and expenses for the 2006-07 fiscal year; they were prepared in the 2005-06 fiscal year.

## Transit Operating Data by Mode

Figure 15 summarizes transit operating data for the past five fiscal years by passengers, vehicle miles, and revenue vehicles. Table 4 contains data for each transit claimant displayed by inventory mode, i.e., the method of transportation used and the type of service provided. Various modes of transportation are used by the general public; specialized services are used primarily by the elderly and the disabled. Ten agencies did not report operating data. Performance measures for passengers, vehicle miles, and transit vehicles are defined in PUC Section 99247. Revenue vehicles are vehicles available to operate for revenue-generating services.

More than 1.2 billion passengers have been served by California's public transportation systems in each of the past five fiscal years. During the 2005-06 fiscal year, general public transit and specialized transit services carried 1.4 billion passengers. Rail, street car, and trolley passengers have increased by 26 million or 7.3%, while vehicle miles have decreased by 10.1% from the 2001-02 to the 2005-06 fiscal year.

## Non-Transit TDA Monies Made Available and Expenditures

Figure 16 summarizes non-transit TDA monies made available and expenditures during the 2005-06 fiscal year; the table also lists the fund balance available for non-transit purposes as of June 30, 2006. Non-transit purposes include pedestrian and bicycle facilities and are defined in PUC Sections 99234 and 99400(a). Cities and counties that provide facilities for the exclusive use of pedestrians and bicycles, pursuant to Section 99234, may file claims for reimbursement. Claims for street and road purposes that are provided for use by pedestrians and bicycles may be filed in accordance with Section 99400(a).

Tables 5 through 9 present the details for individual cities and counties. Tables 5 and 6 provide a summary of monies made available and an analysis of changes in fund balances. Table 7 provides an analysis of allocations made and interest earned during the fiscal year. Tables 8 and 9 present the details of expenditures for non-transit TDA purposes and the sources from which funds were expended.

## Non-Transit TDA Expenditures by Principal Type

Non-transit TDA expenditures by principal type are summarized in Figure 17. Work may be performed directly by an agency, by agreement with another governmental agency, or by contract. Construction costs incurred through private contracts accounted for 77.0% of all construction expenses. Maintenance work performed by local agencies accounted for 68.3% of all maintenance work; work performed by private contractors accounted for the remaining 31.7%.

Figure 18 lists non-transit TDA expenditures by principal type for the past five fiscal years. See Tables 8 and 9 in this report for more detail regarding expenditures made by individual cities and counties.

<sup>1</sup> A total of 75 agencies reported fund balance adjustments for the 2005-06 fiscal year.

**Figure 18****Non-Transit TDA Expenditures by Principal Type**

(Amounts in millions)

<sup>1</sup> A total of 47 cities reported negative fund balance adjustments for the 2003-04 fiscal year.

## Prison Industry Authority Contracts

Assembly Bill 1147, Chapter 562, Statutes of 1989, requires each transit operator to annually report to the State Controller's Office the nature and dollar amount of all contracts for services entered into with the Prison Industry Authority. During the year, one agency reported a total of \$6,844 expended under contract with the authority.

Figure 19 shows Prison Industry Authority contract expenditures for the past five fiscal years. See Table 10 for details regarding these expenditures.

**Figure 19****Prison Industry Authority Contracts**

Fiscal Year	Number of Agencies	Expenditures
2005-06.....	1	\$ 6,844
2004-05.....	1	\$ 68,445

<sup>1</sup> The reduction of expenditures in fiscal year 2003-04 is due to San Diego Trolley's discontinued use of prison crews for cleaning light-rail vehicles.
